
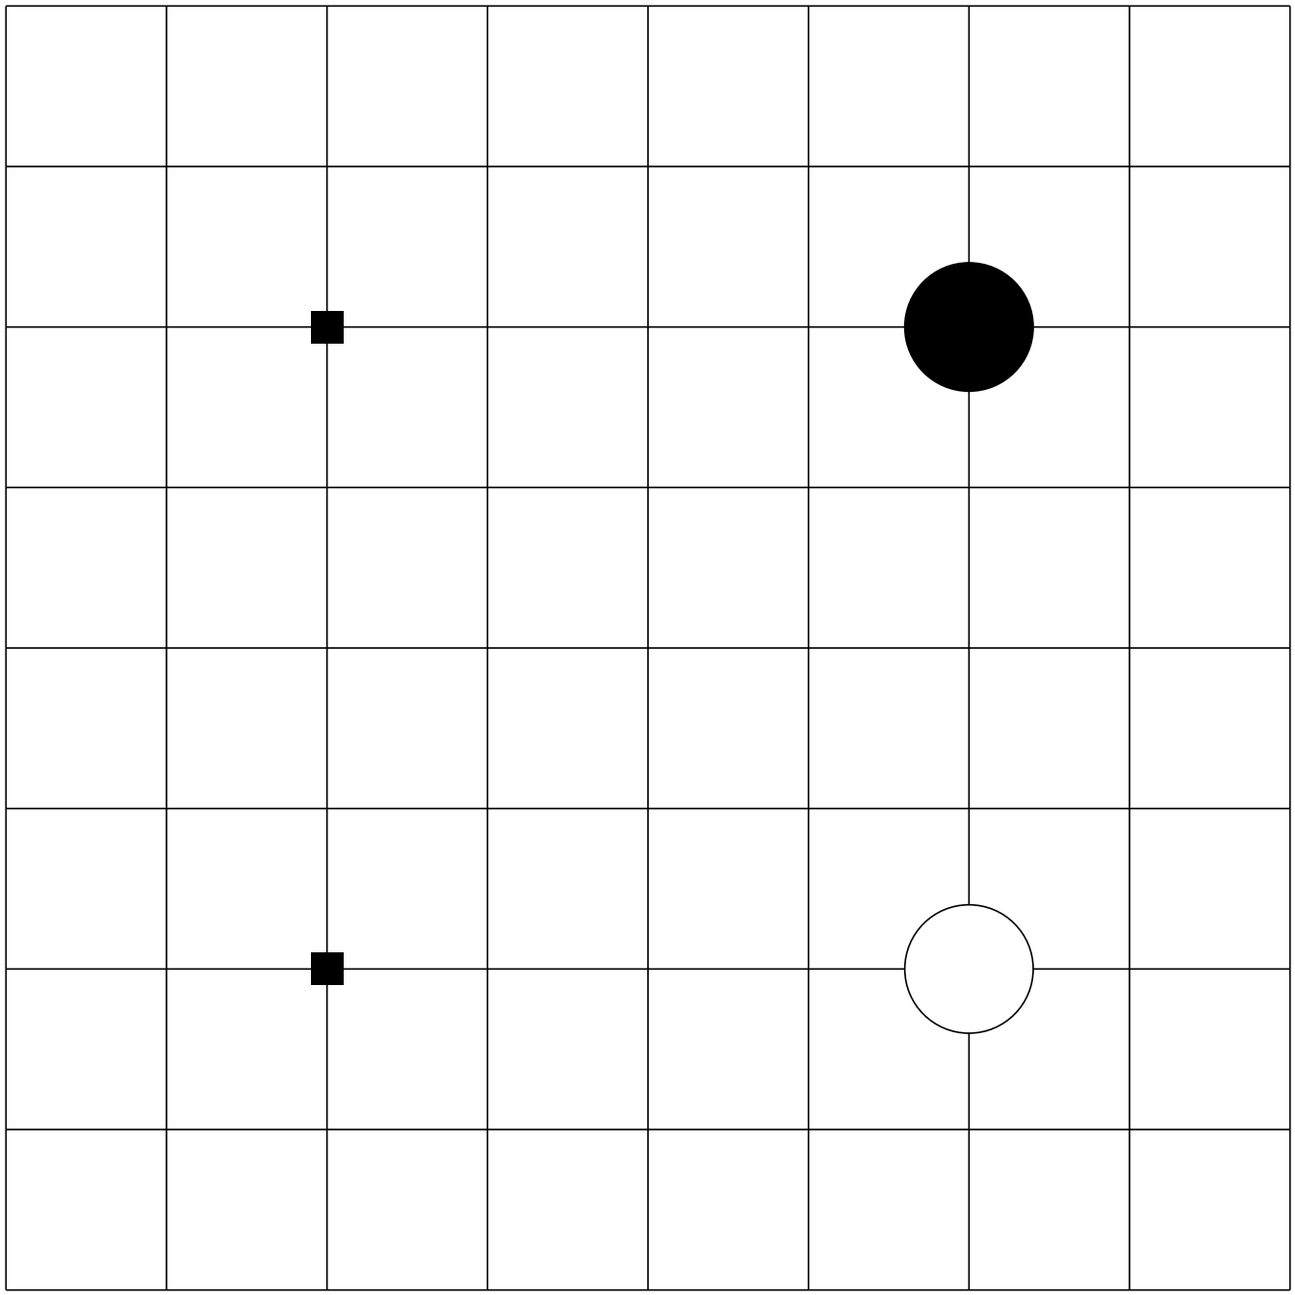
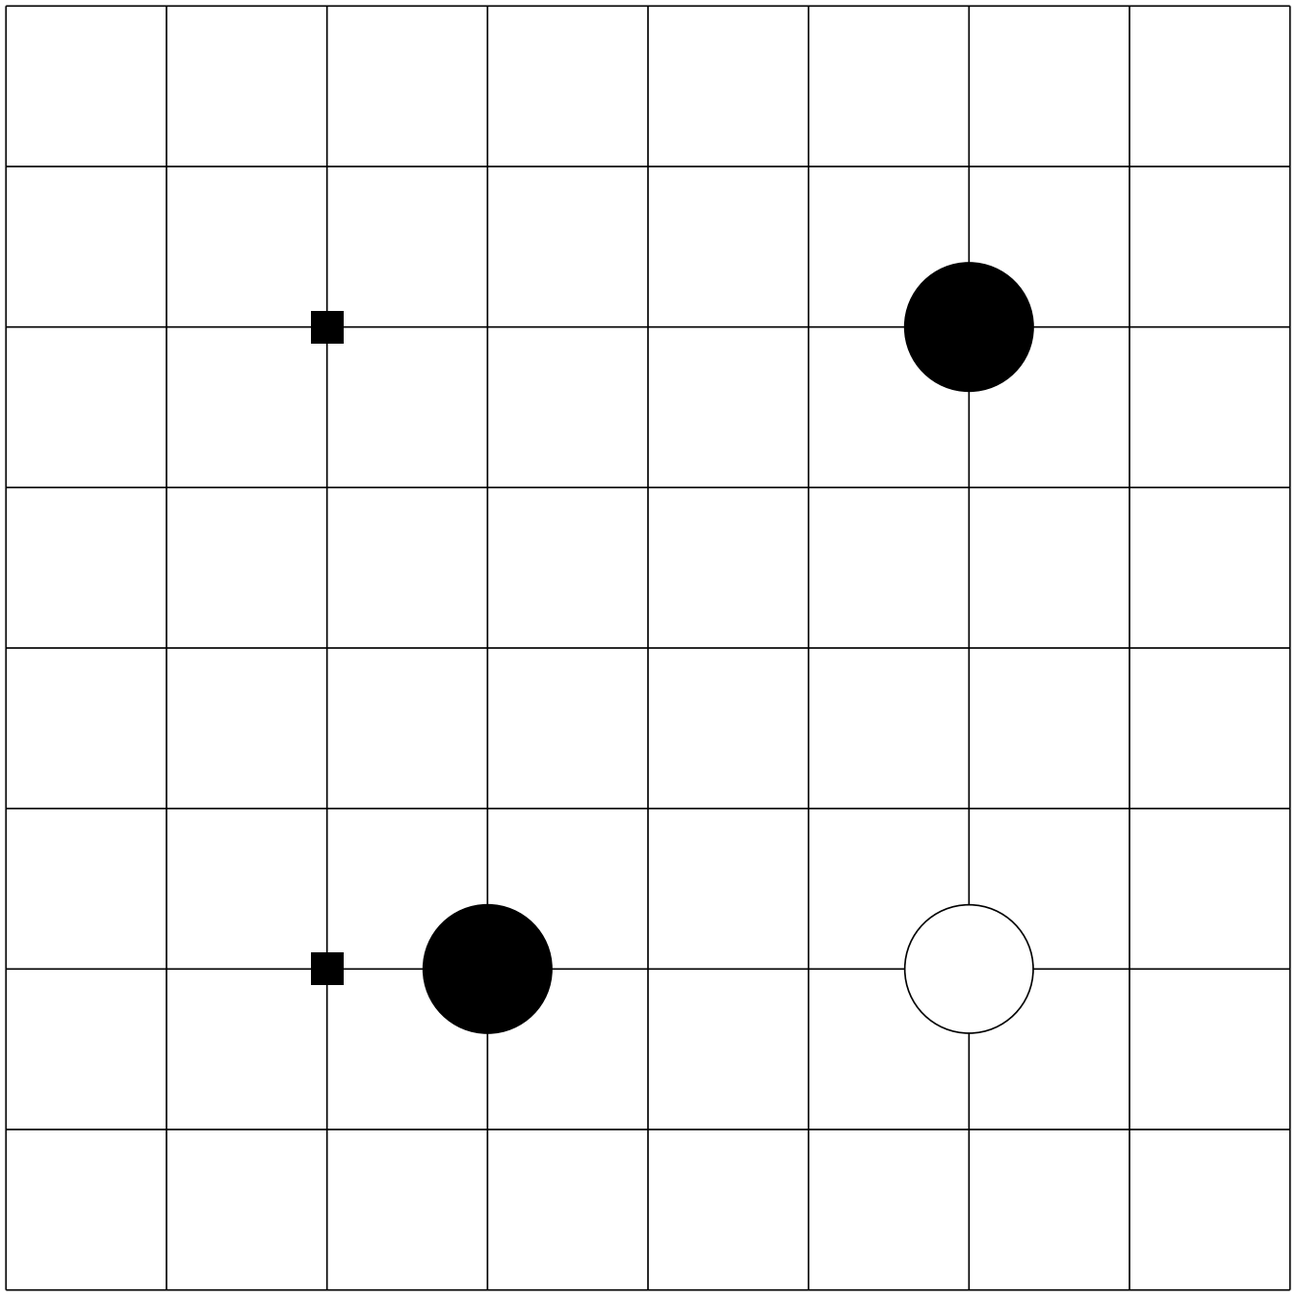
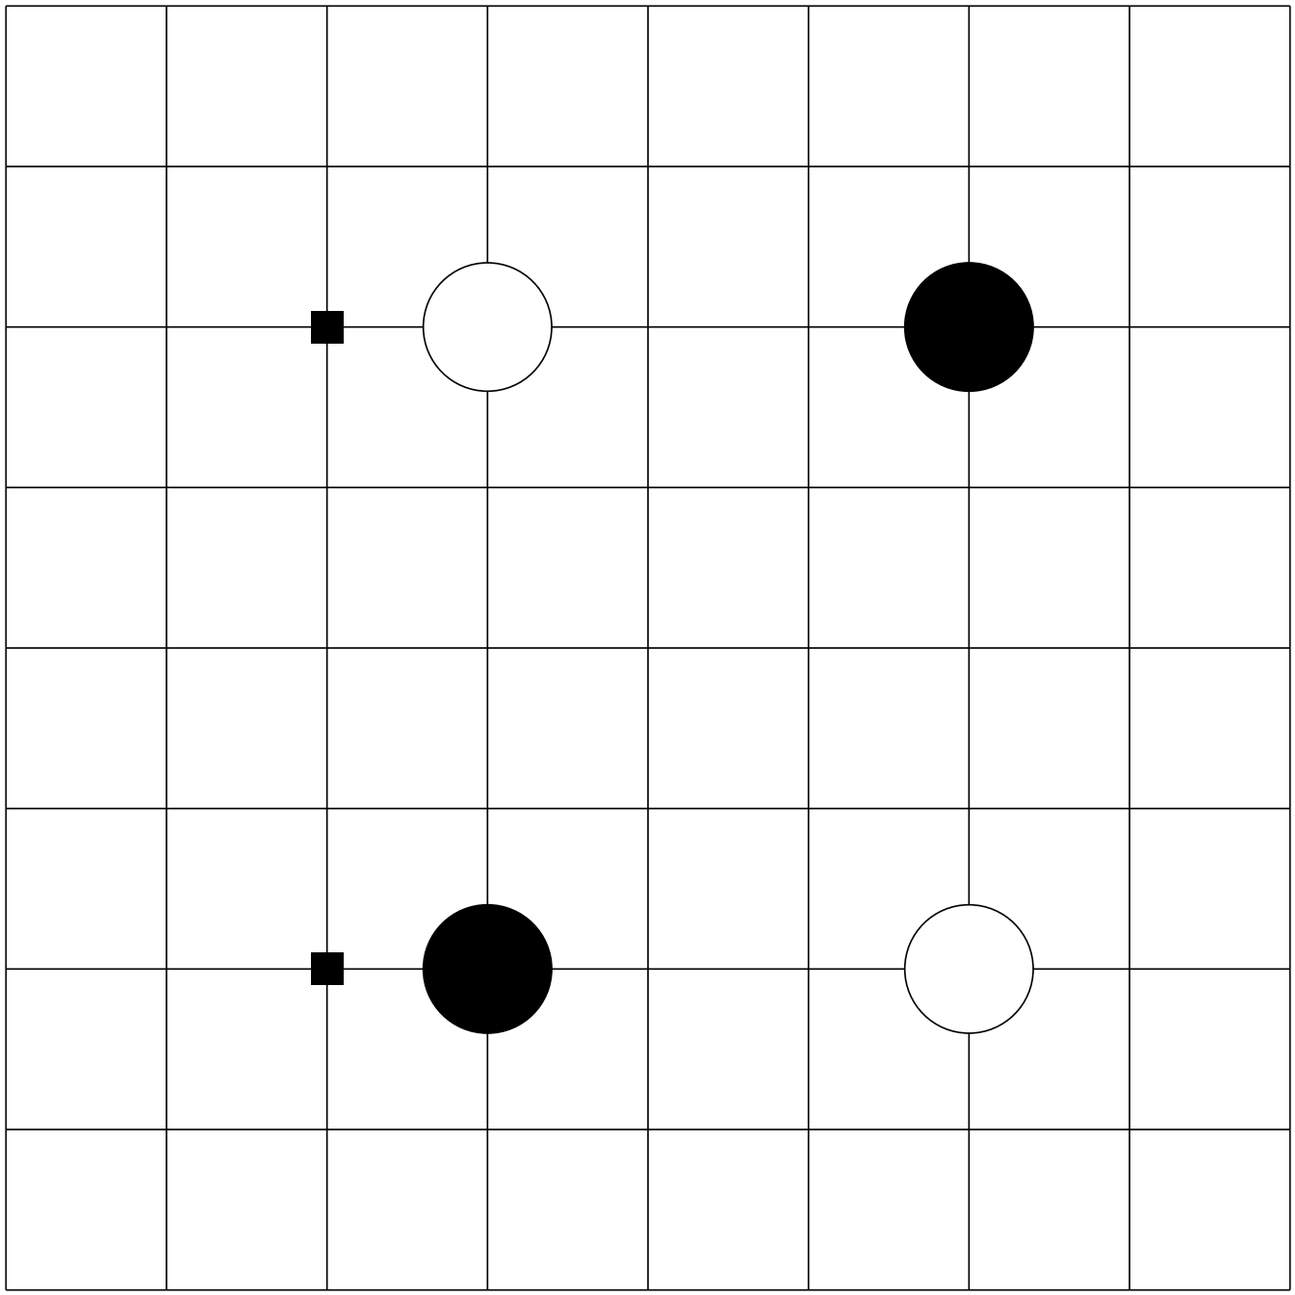
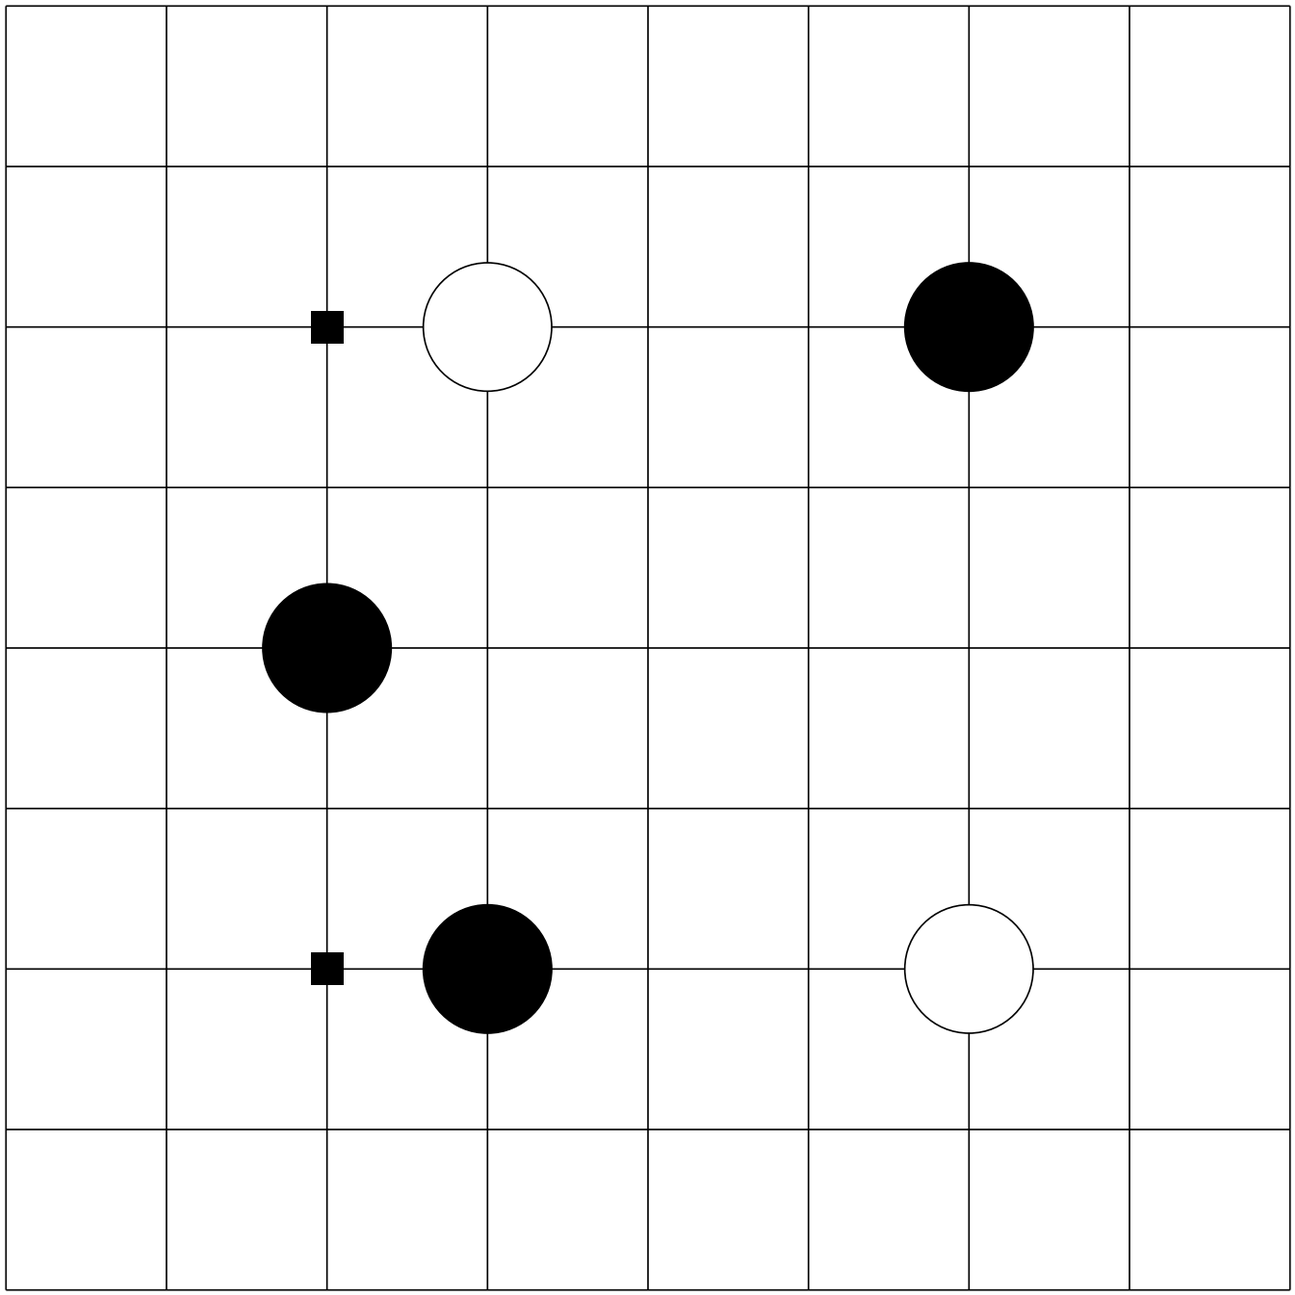
Standard opening move



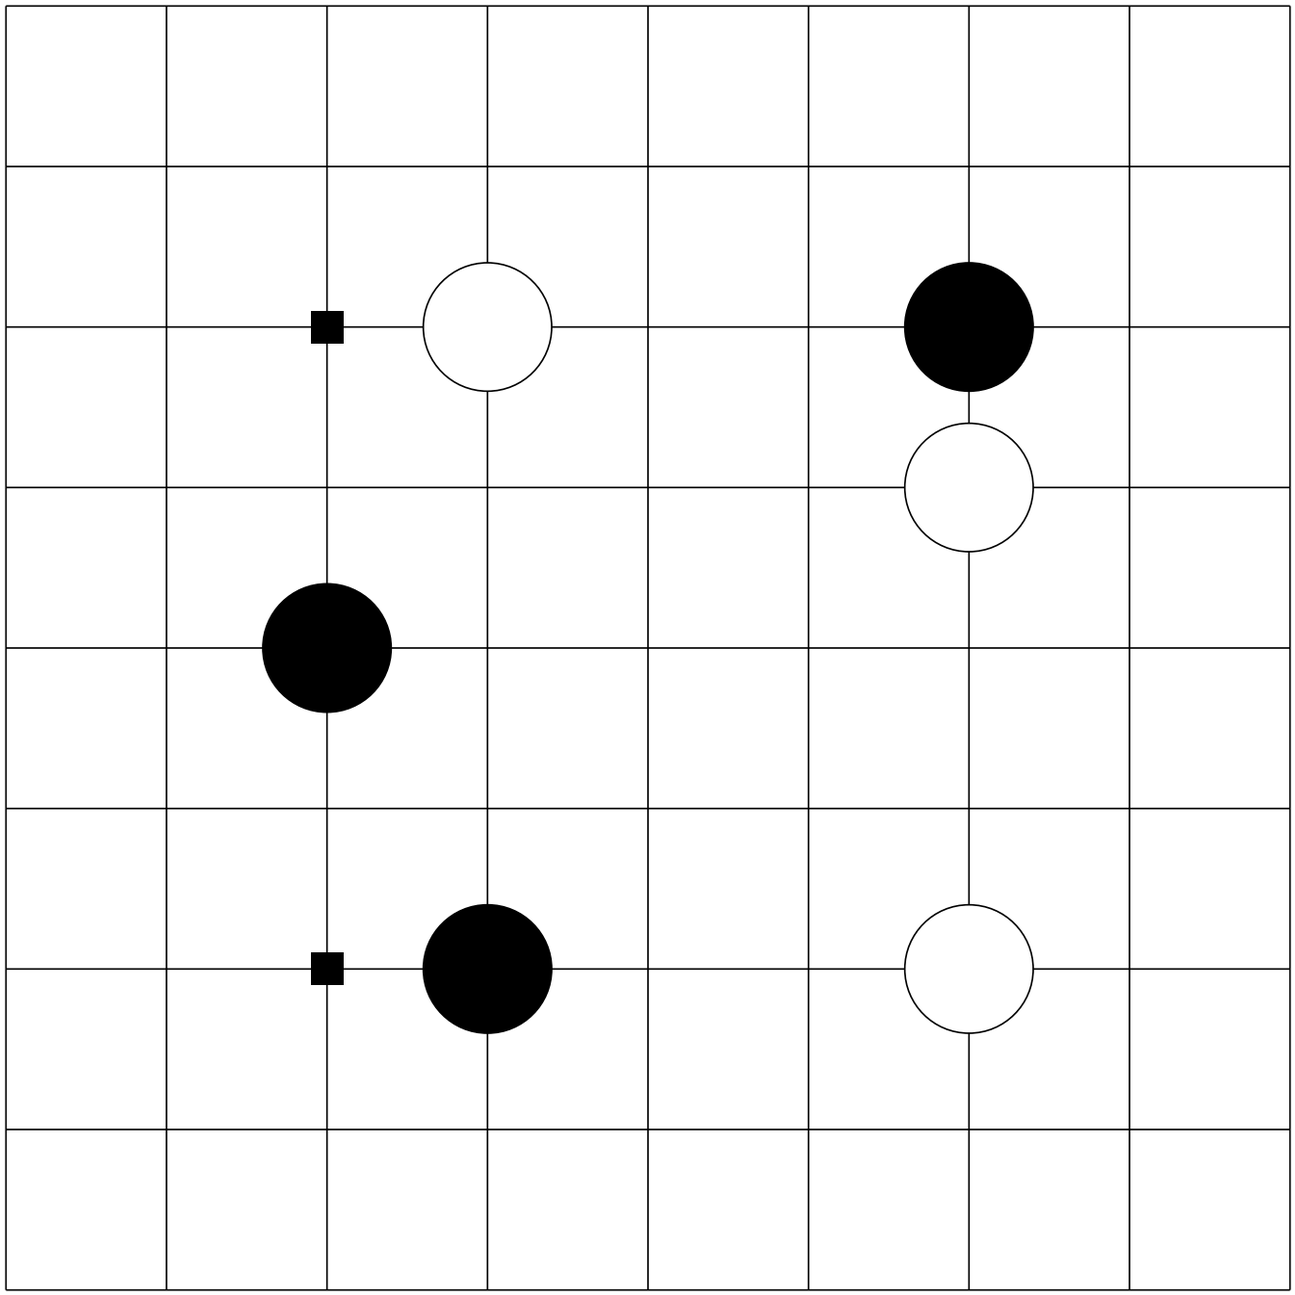




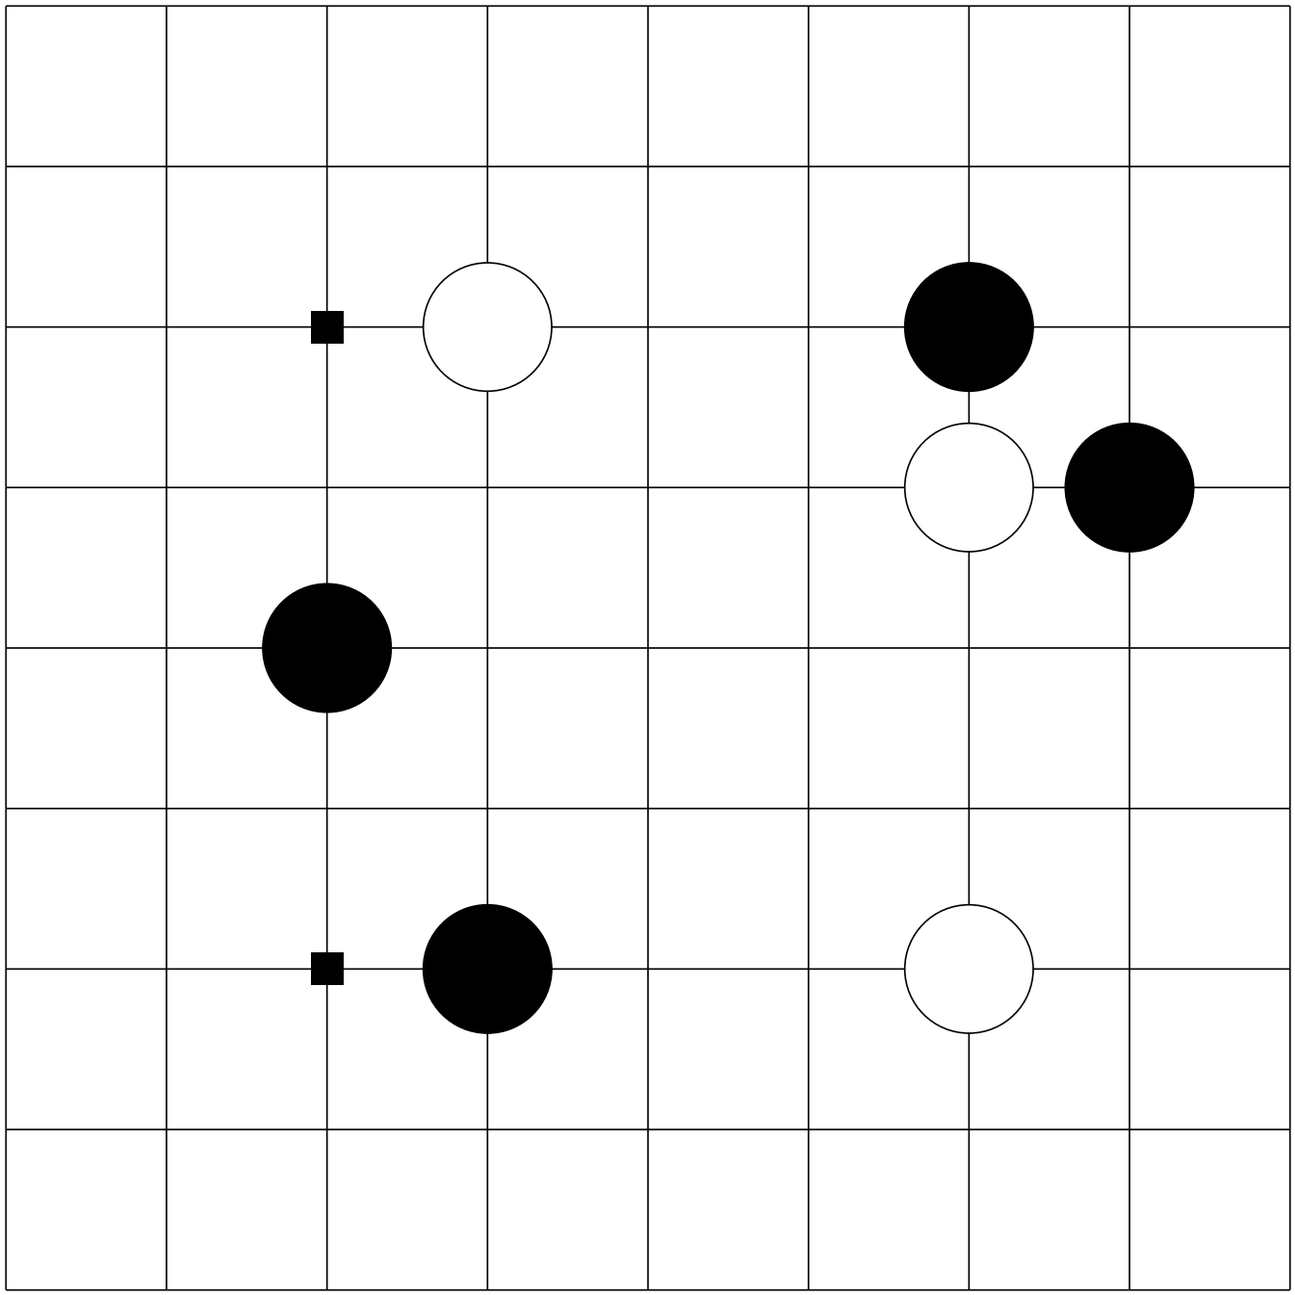
I just mirrow



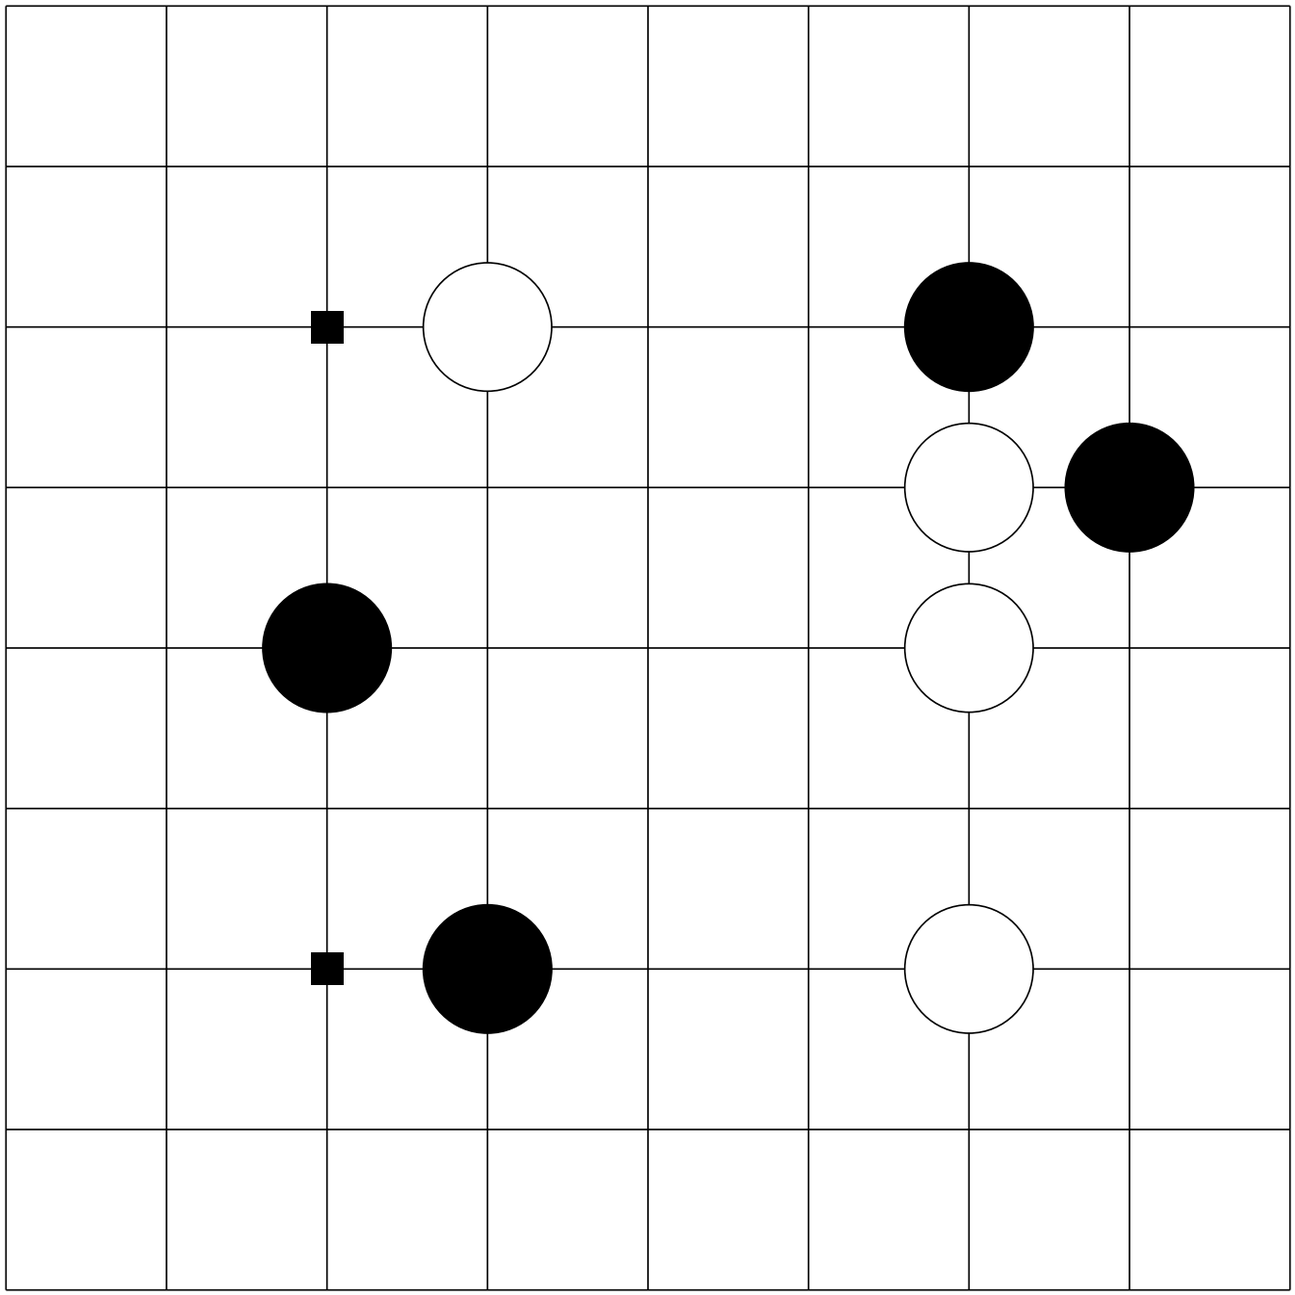
Symmetry is broken now



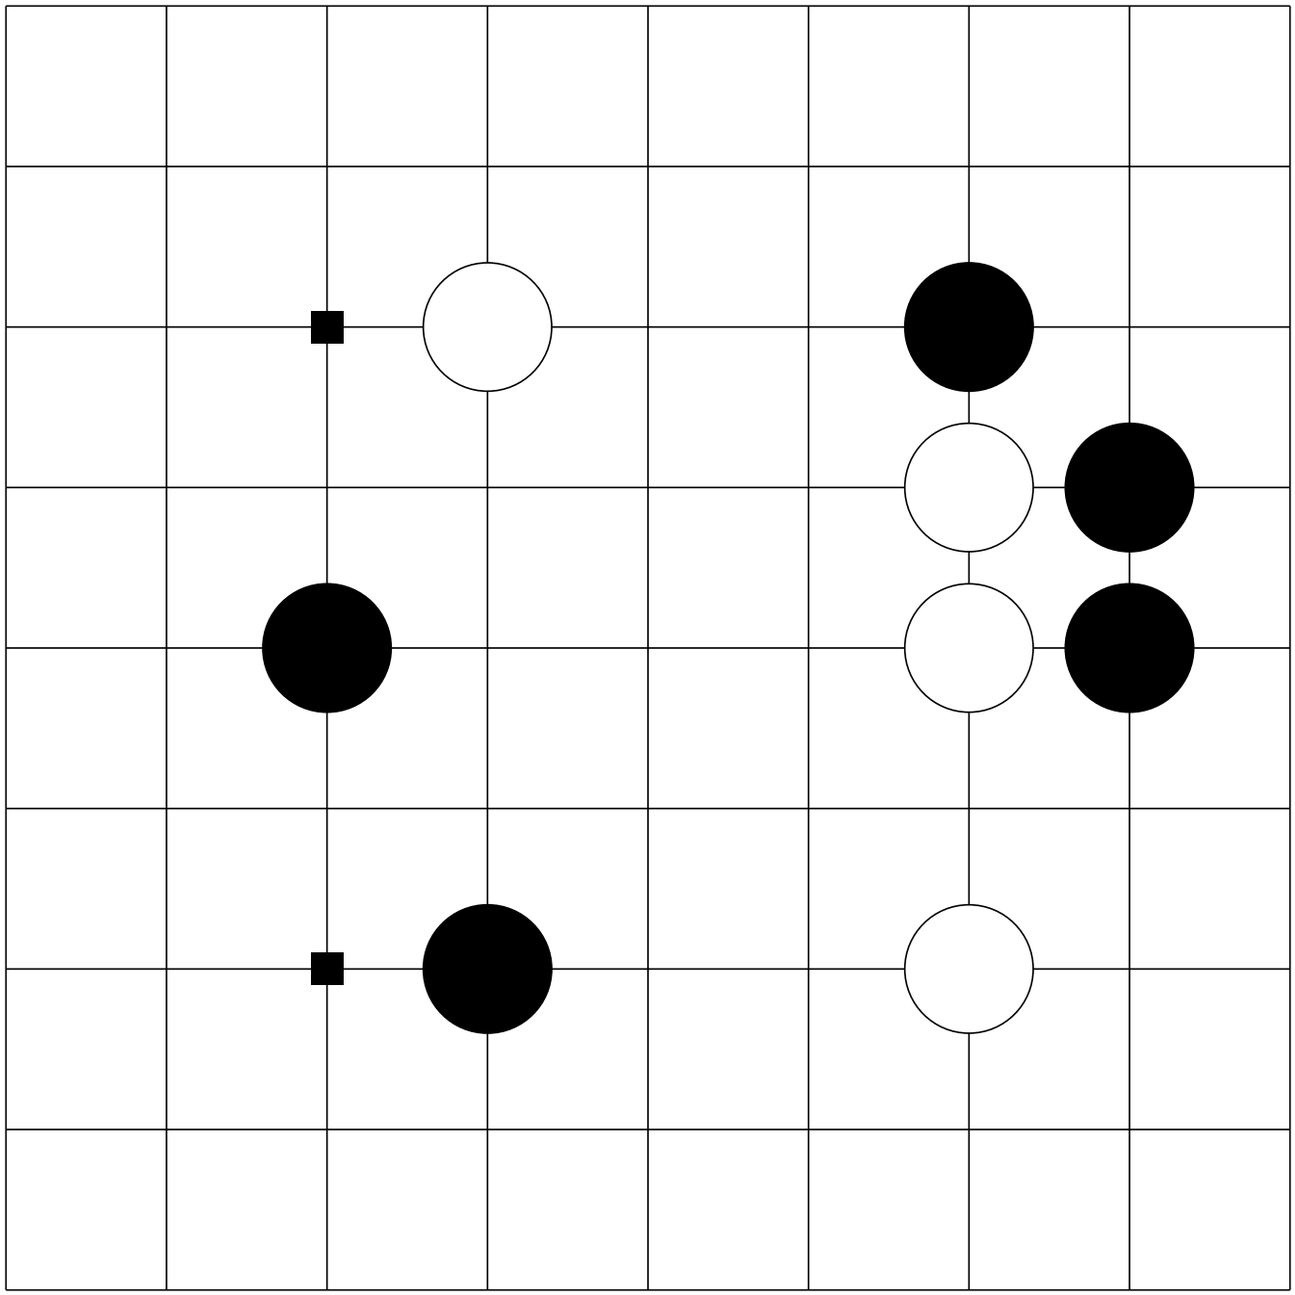
A rather big jump

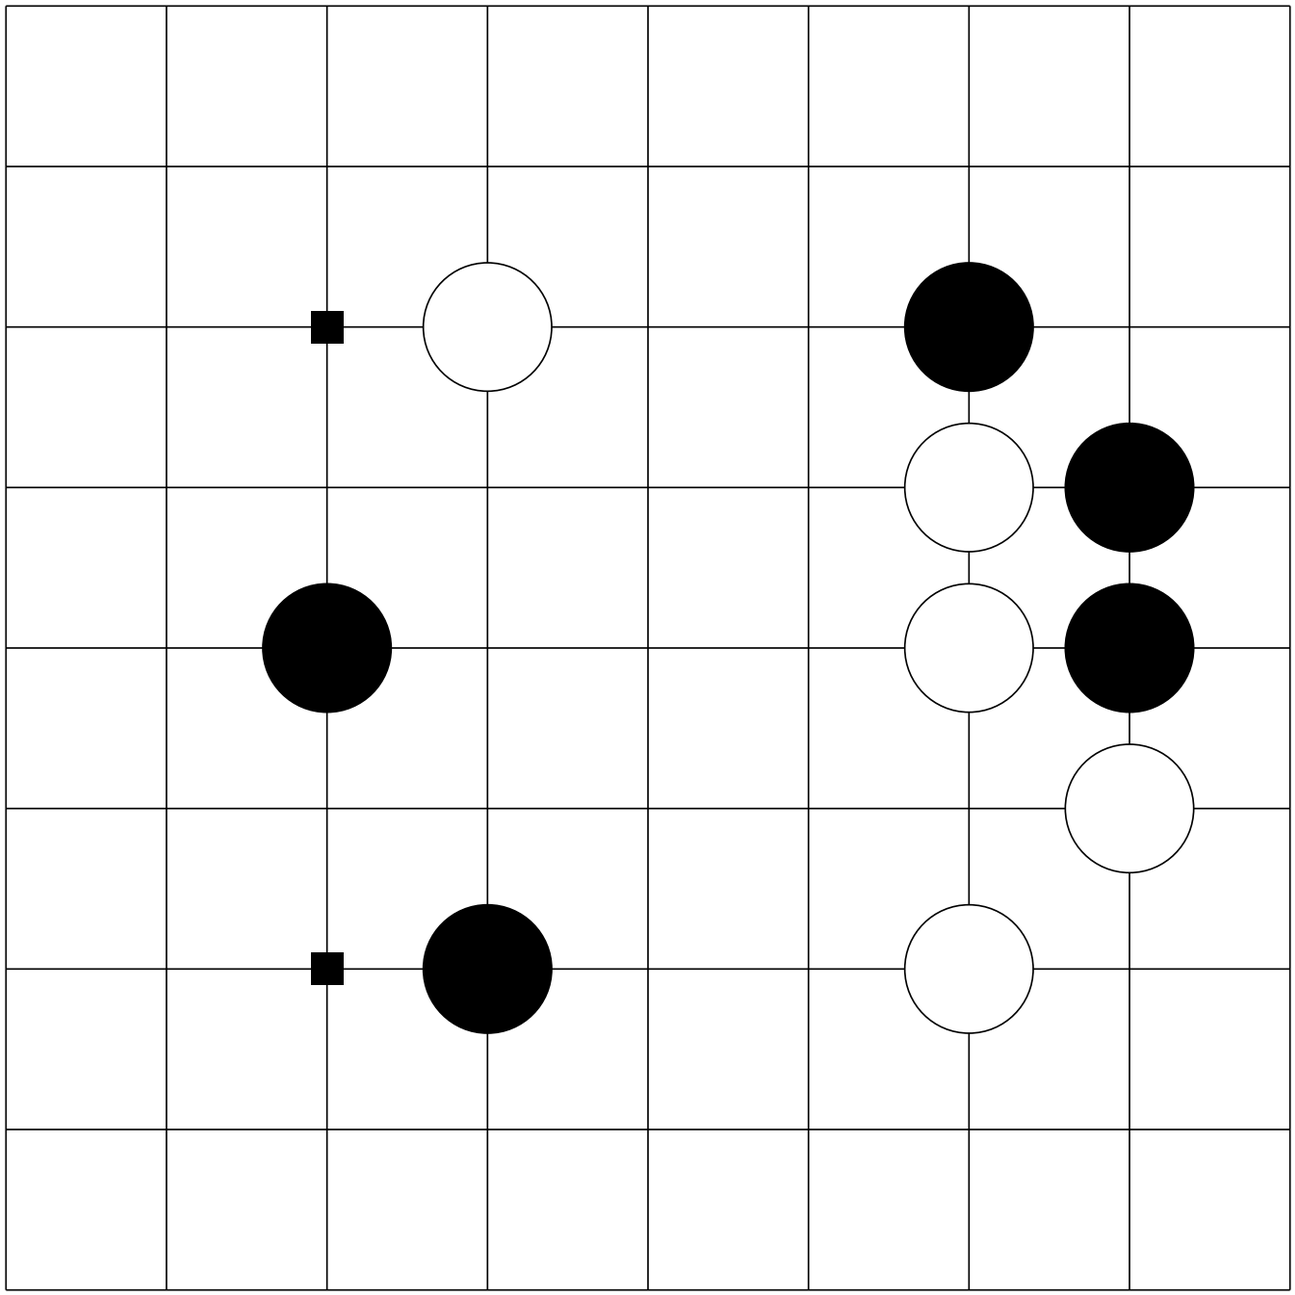


The proper defence

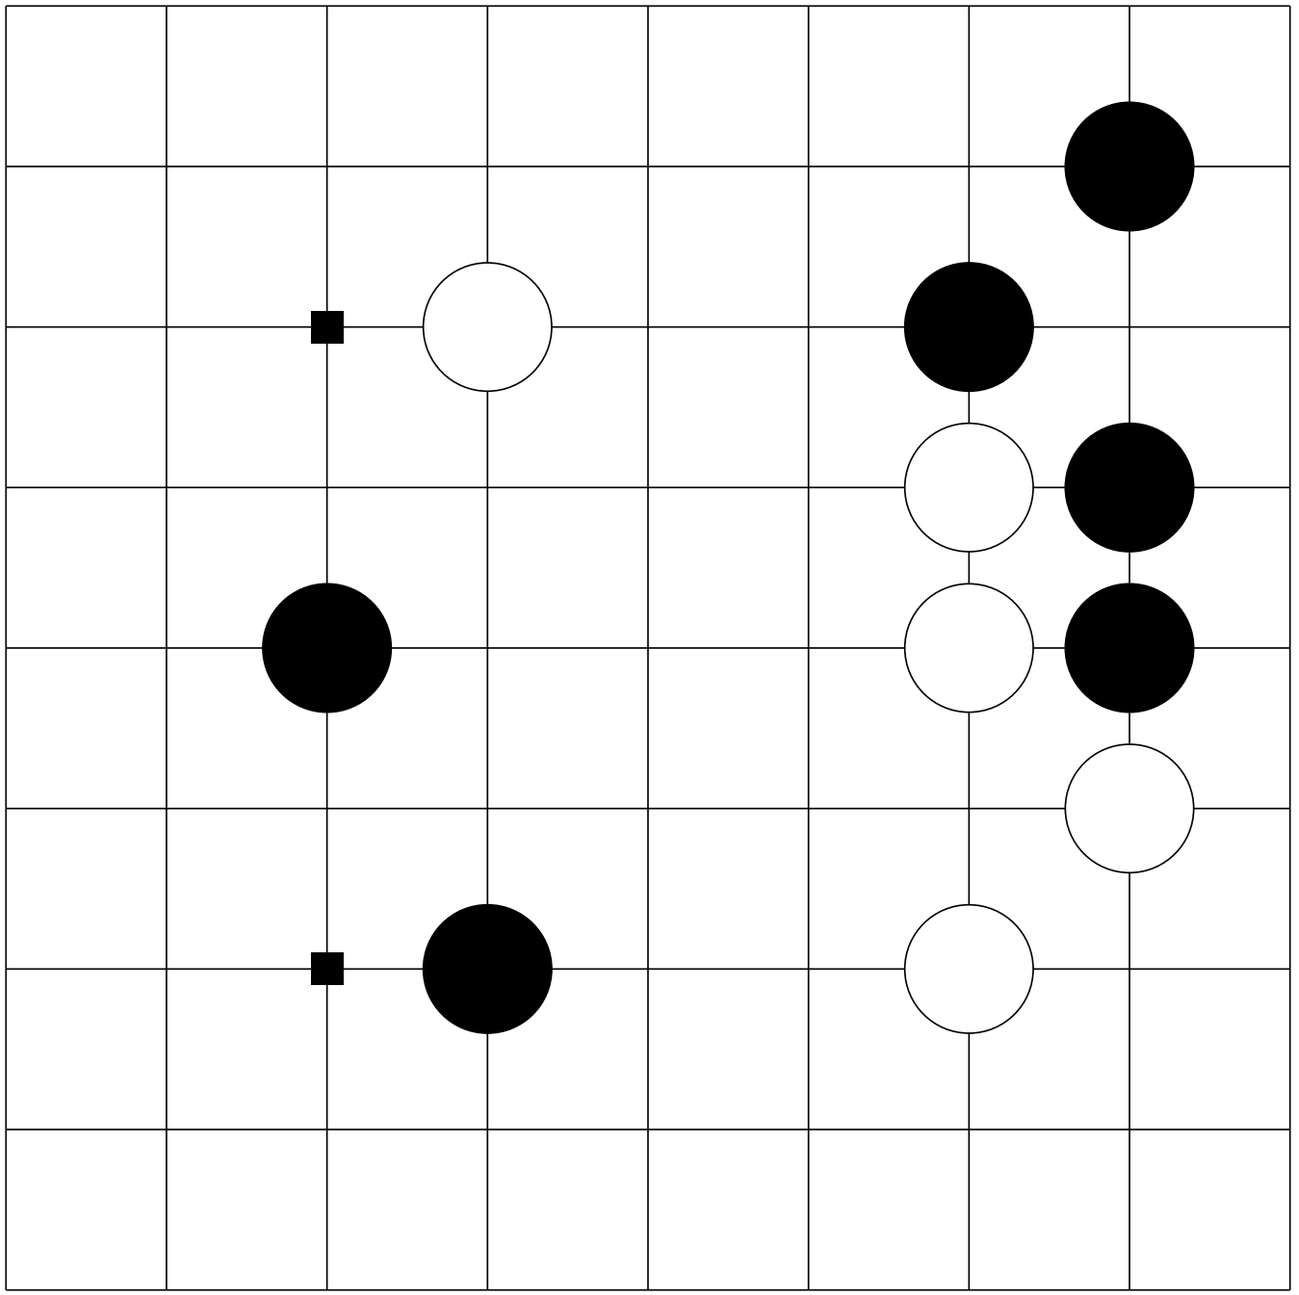


I connect

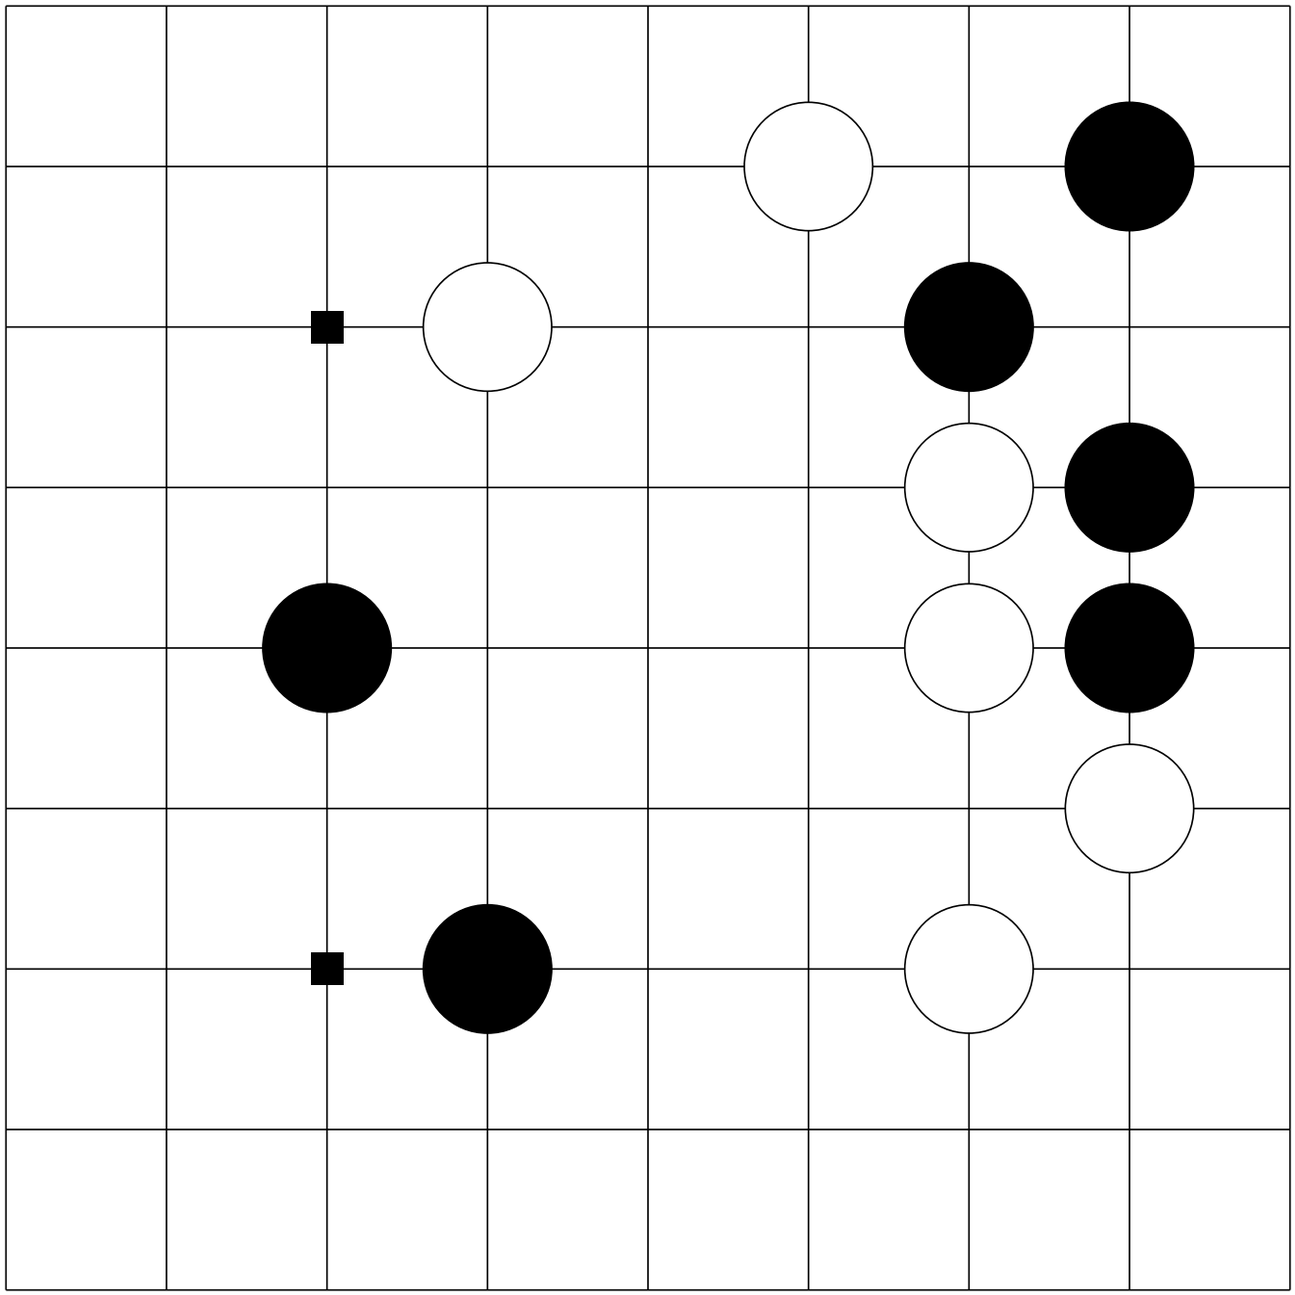




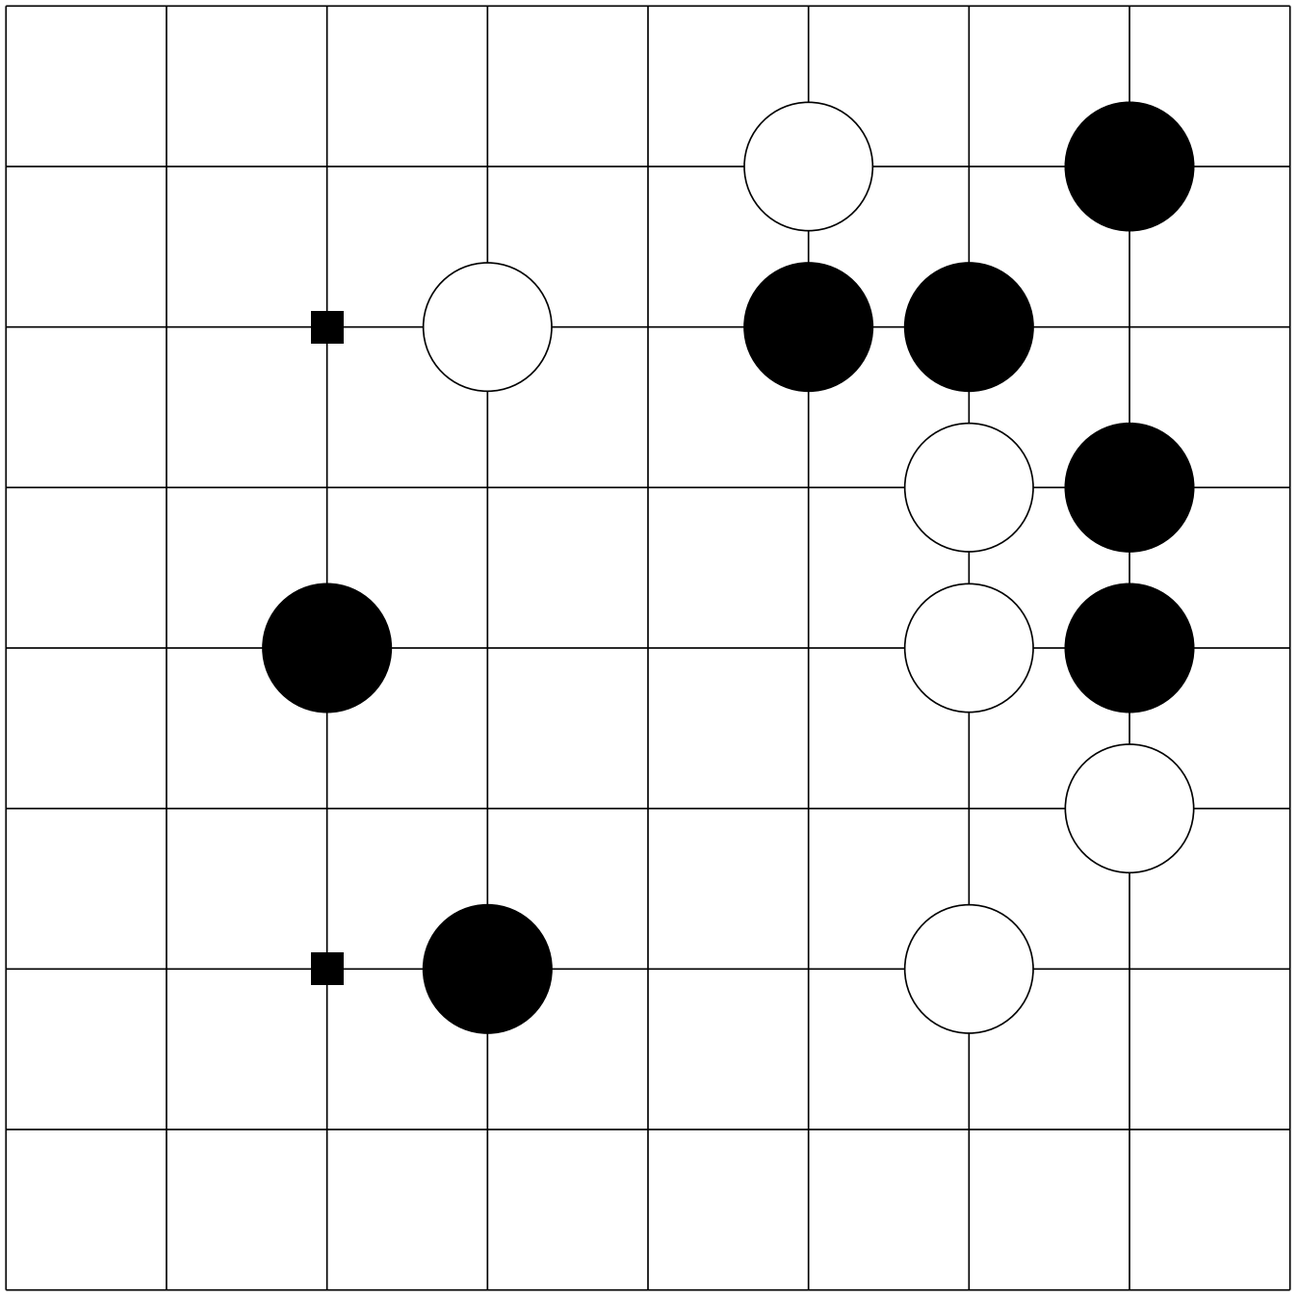
I cut if off



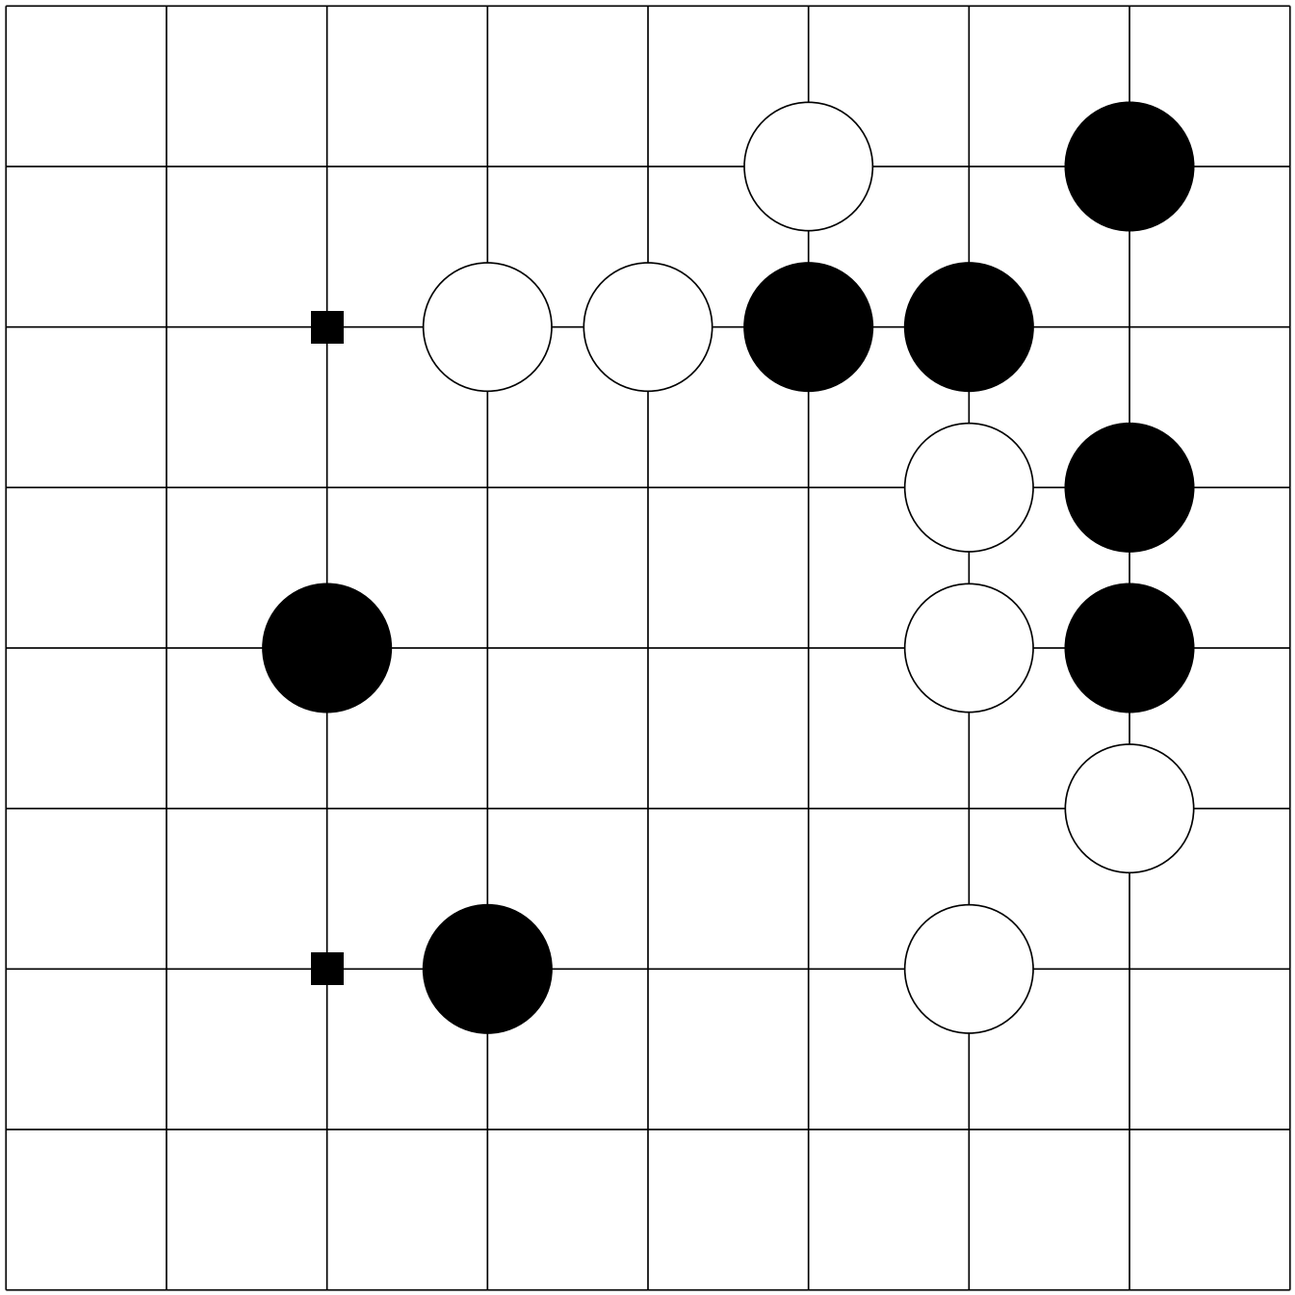
This makes it a small group



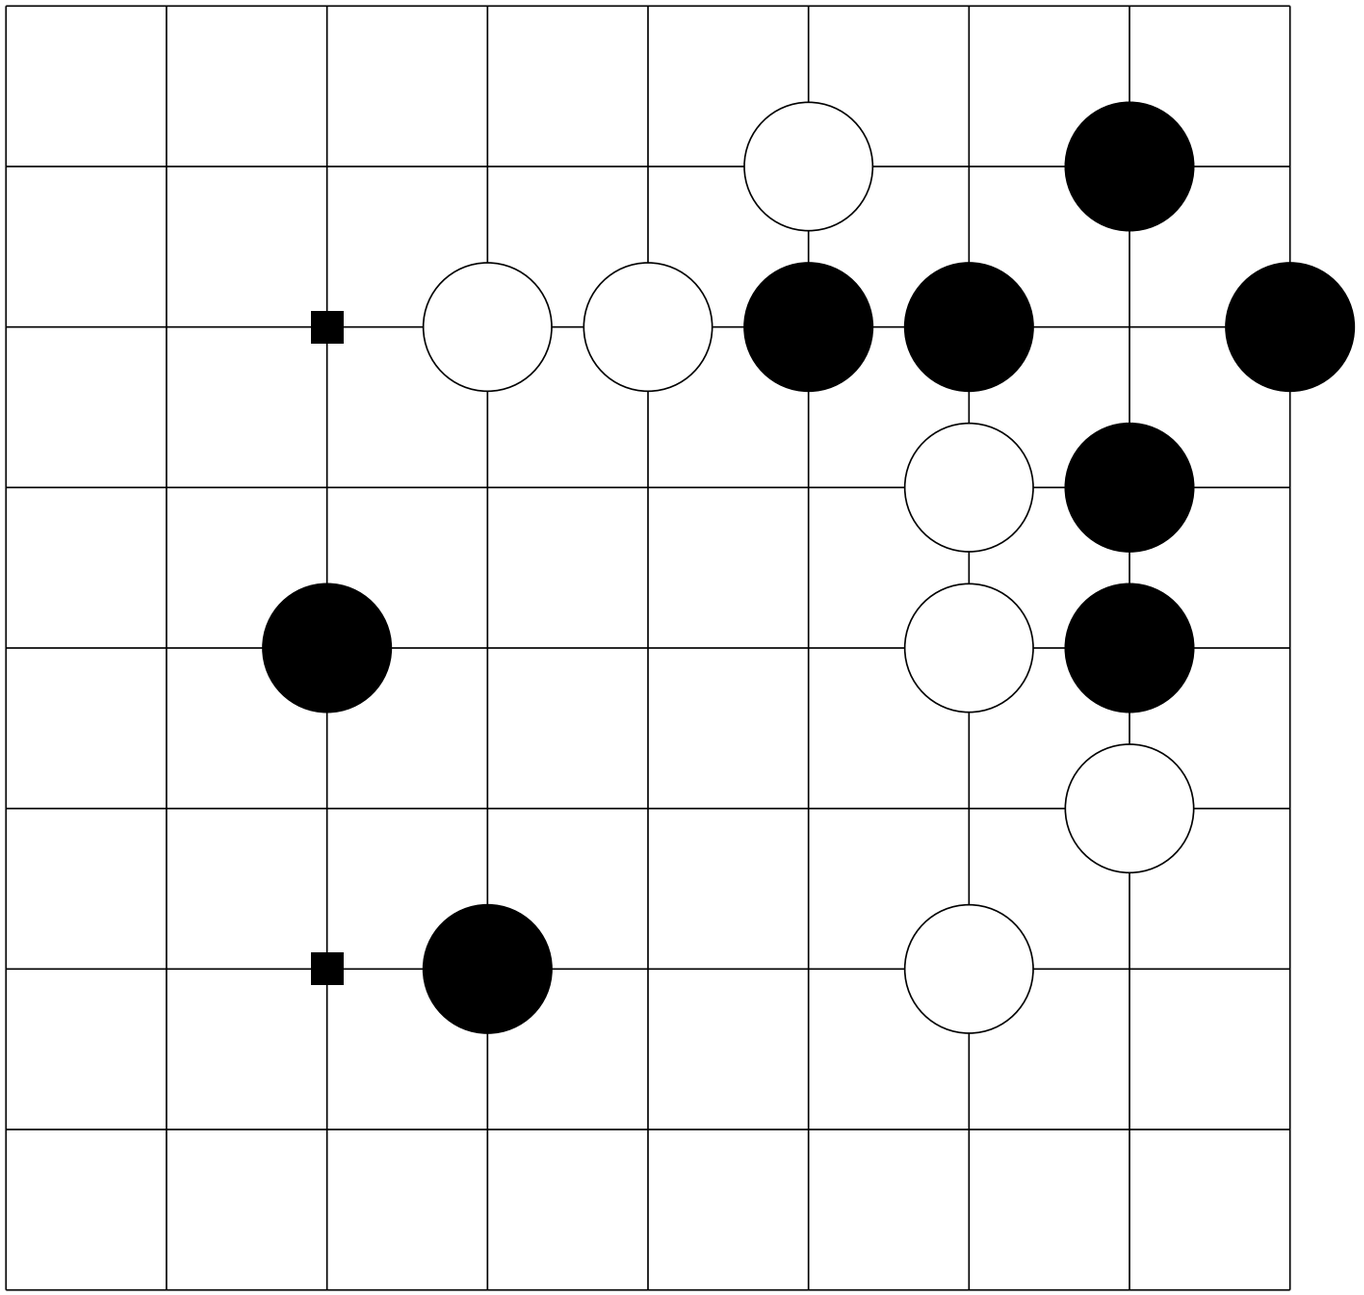
To keep it small



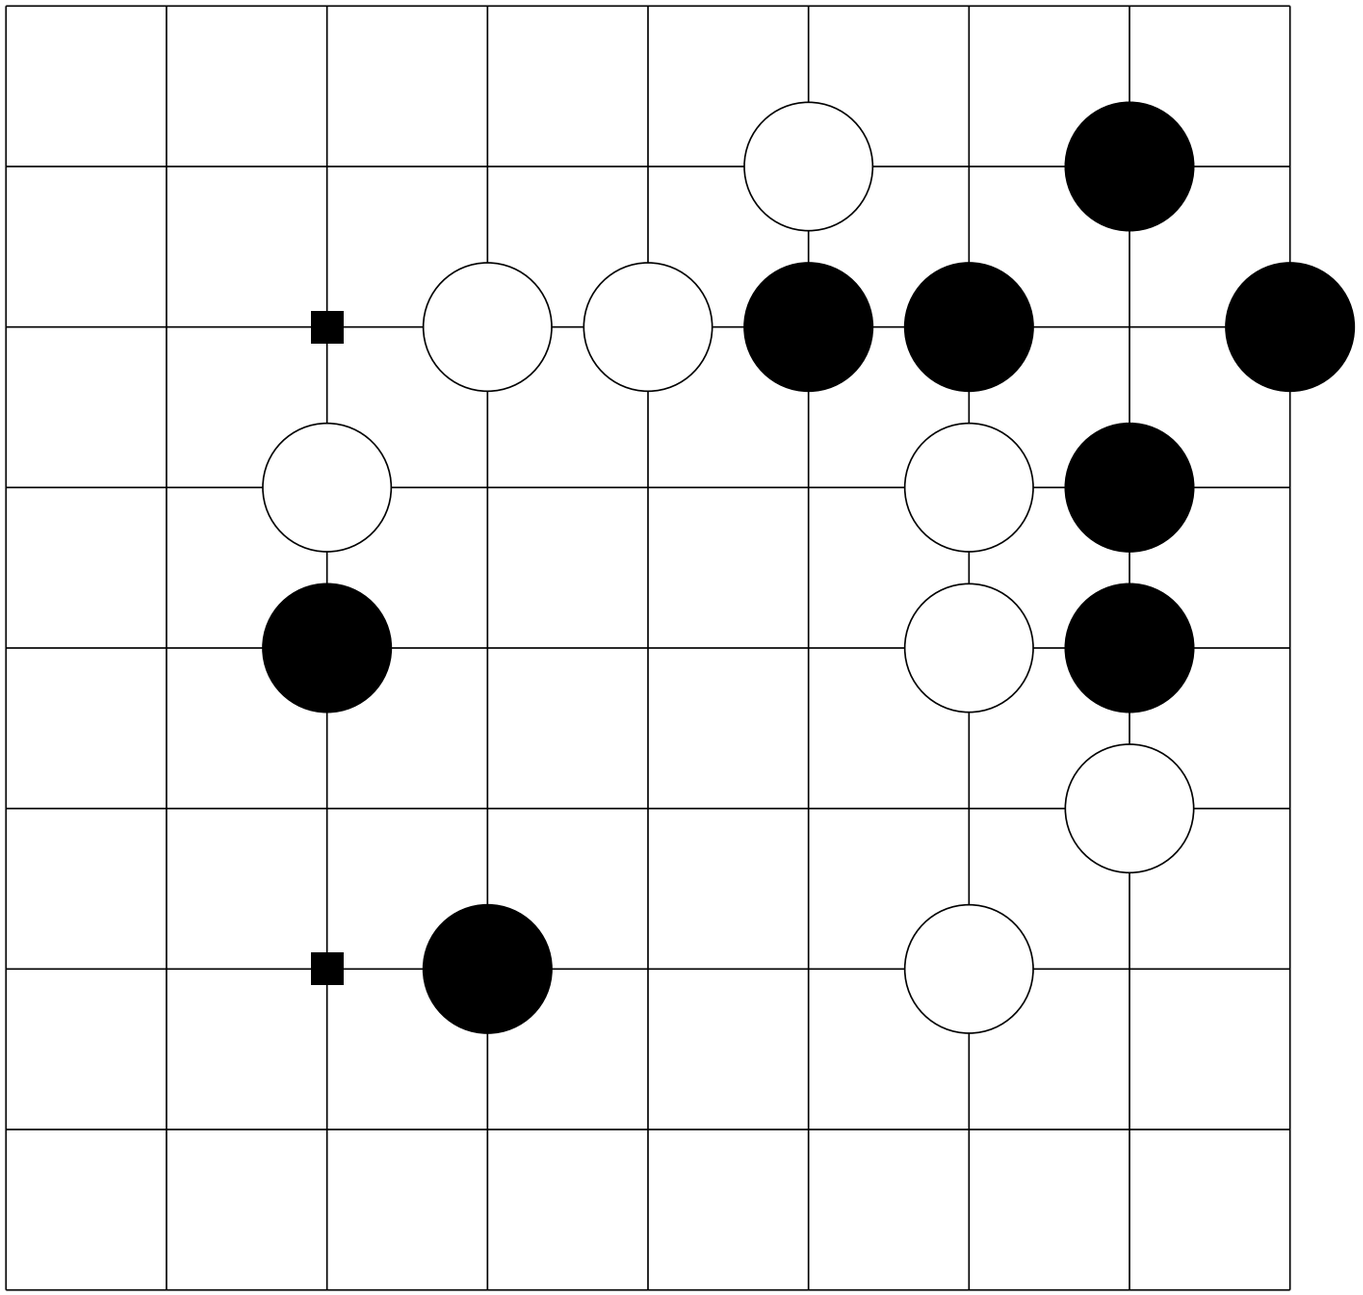
A cut ?



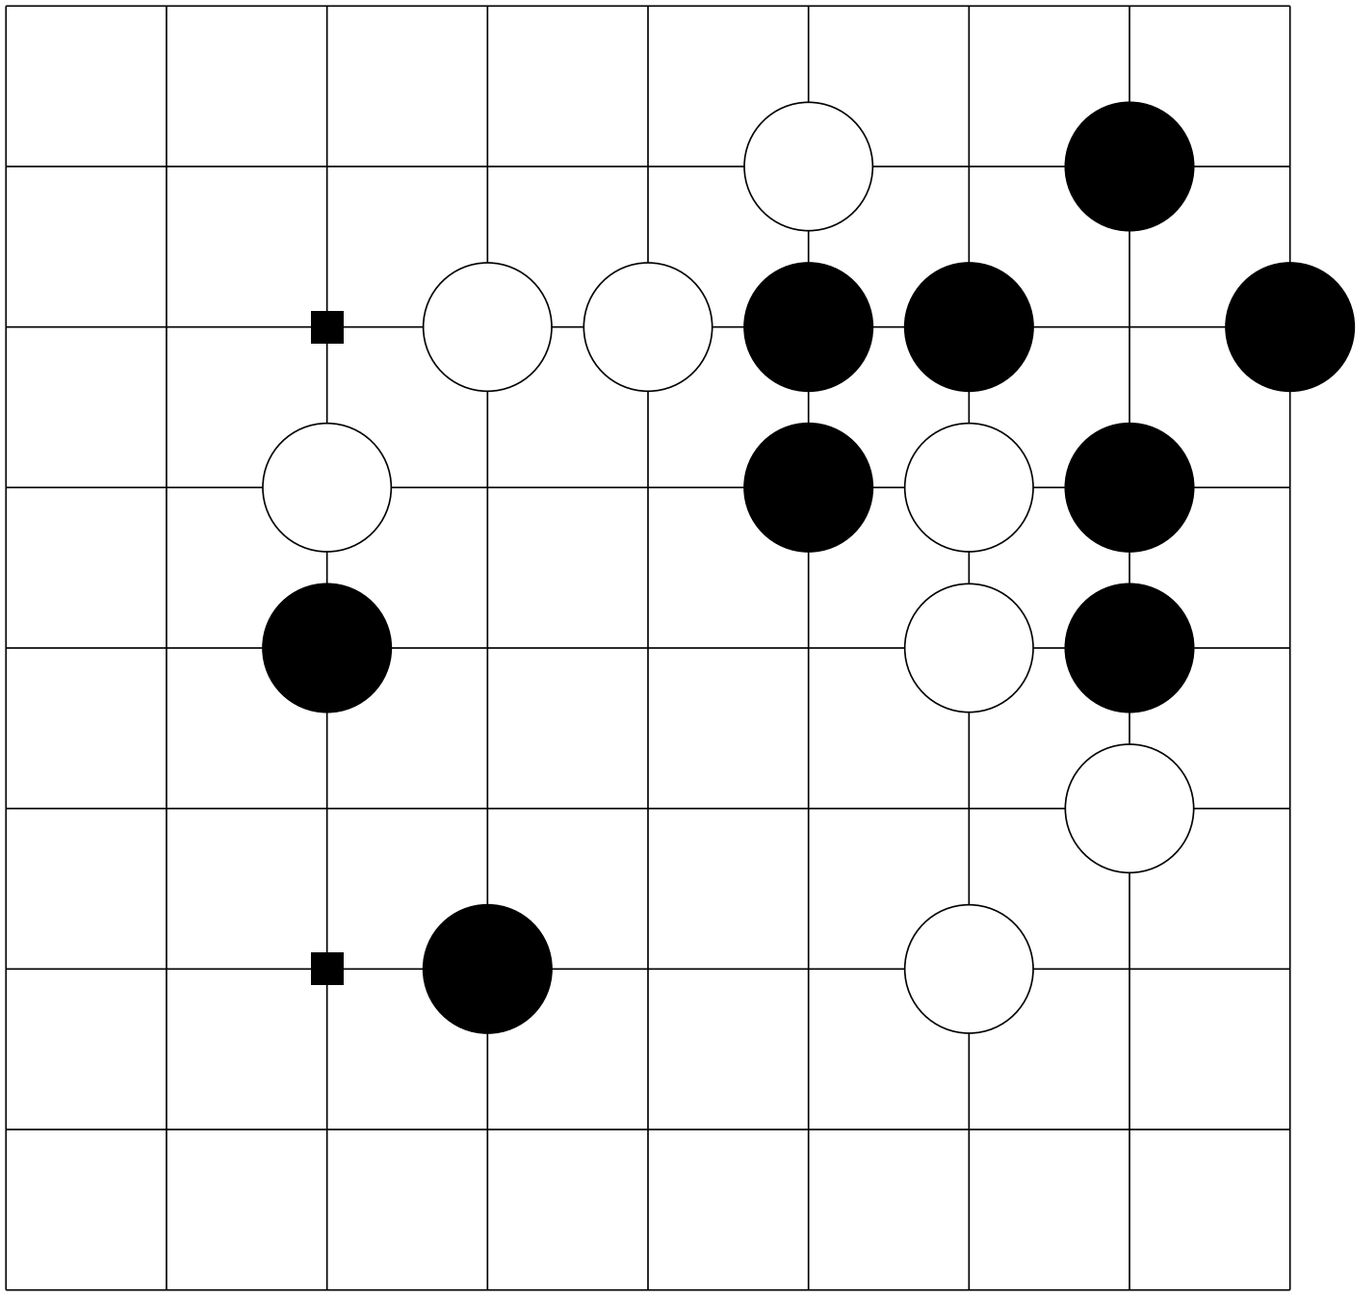
Lets stop it



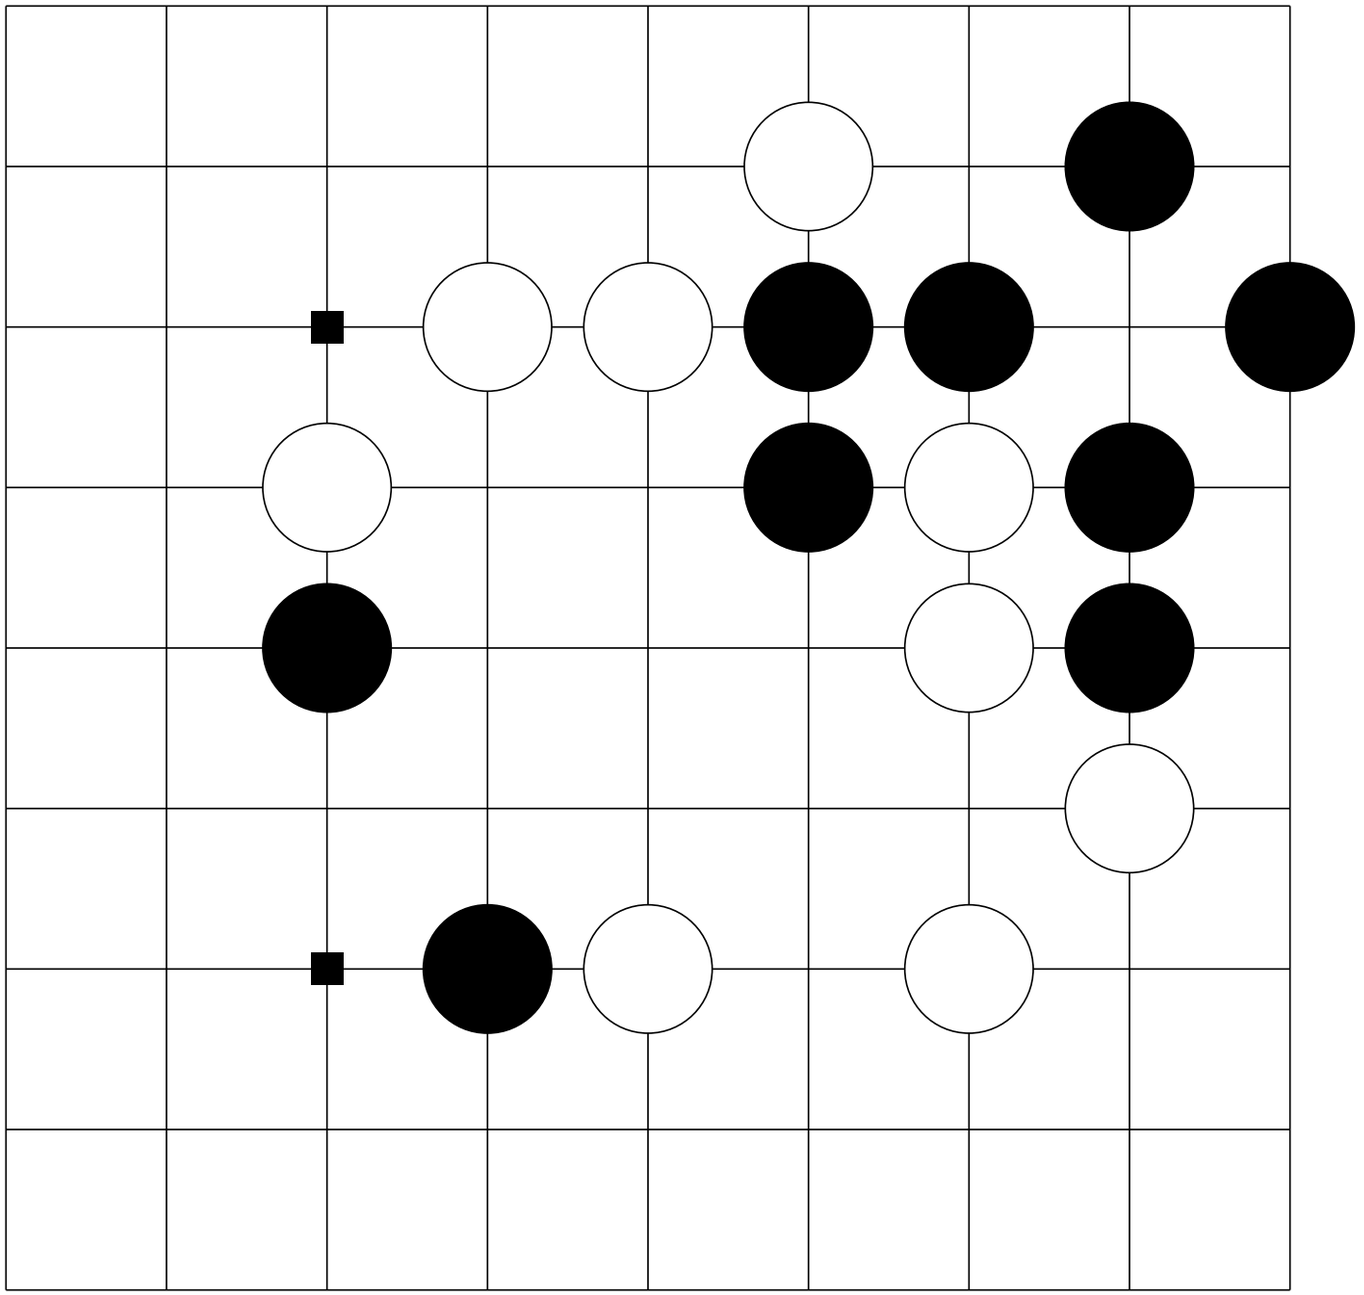
Group has to stay alive



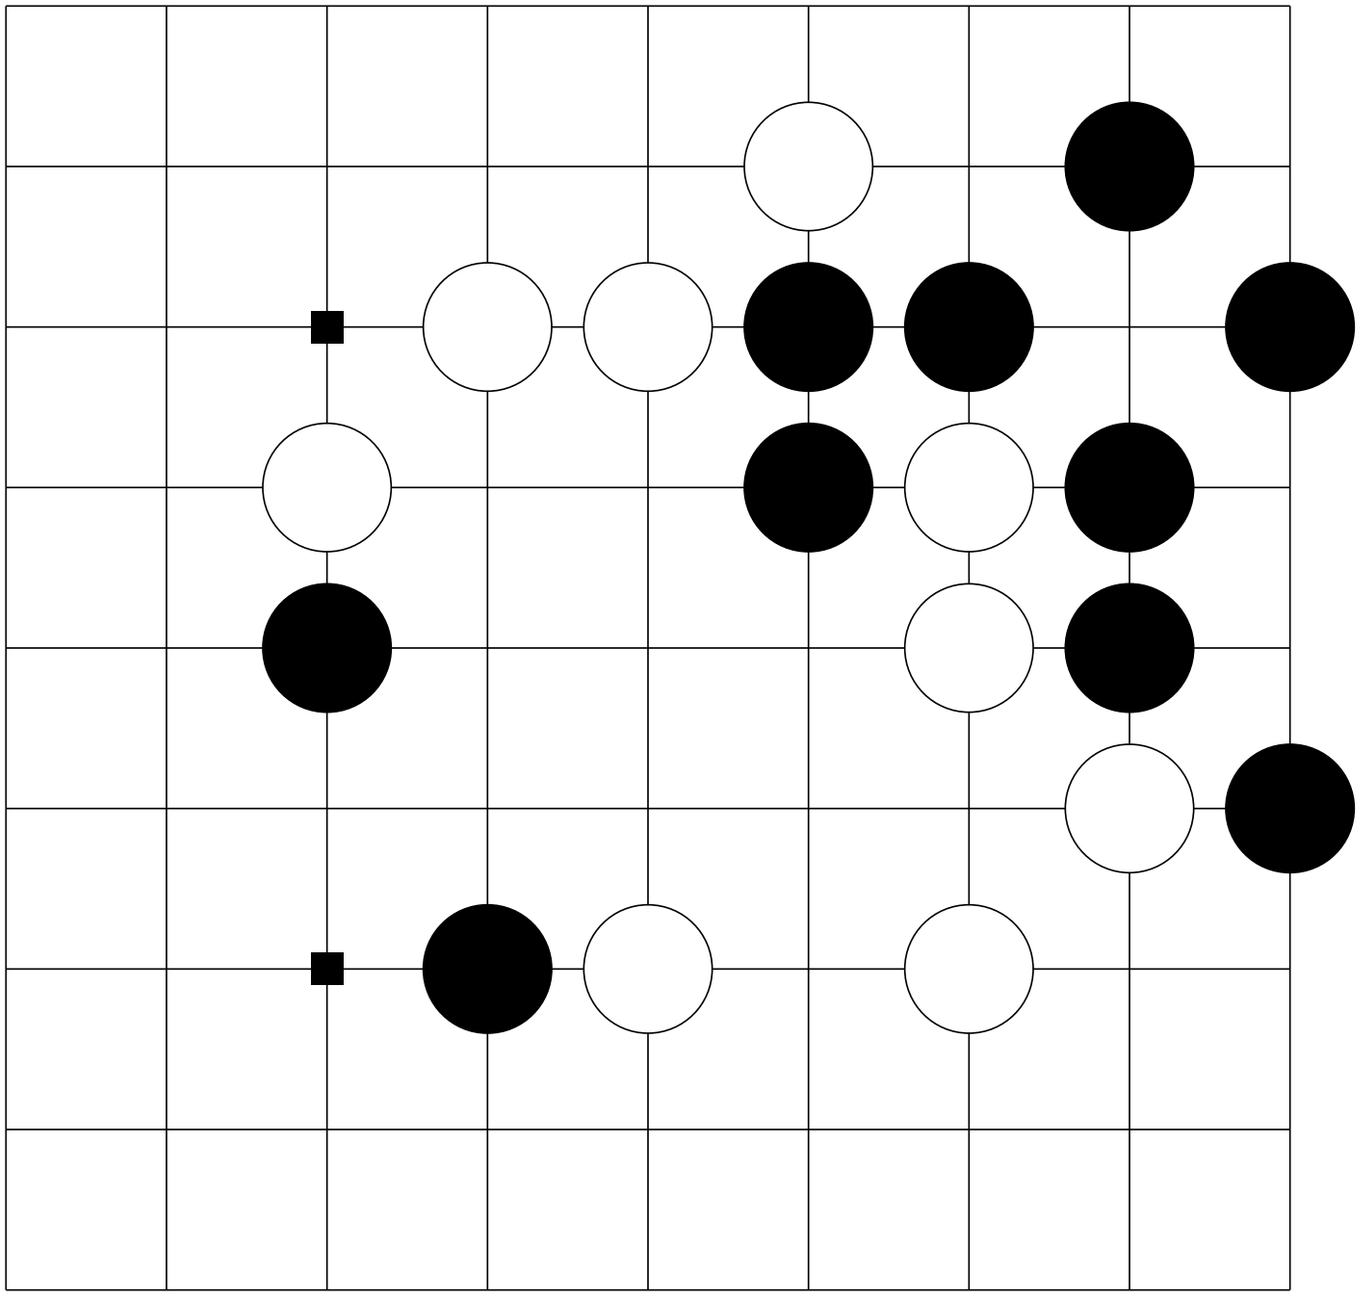
Take control of upper-left corner



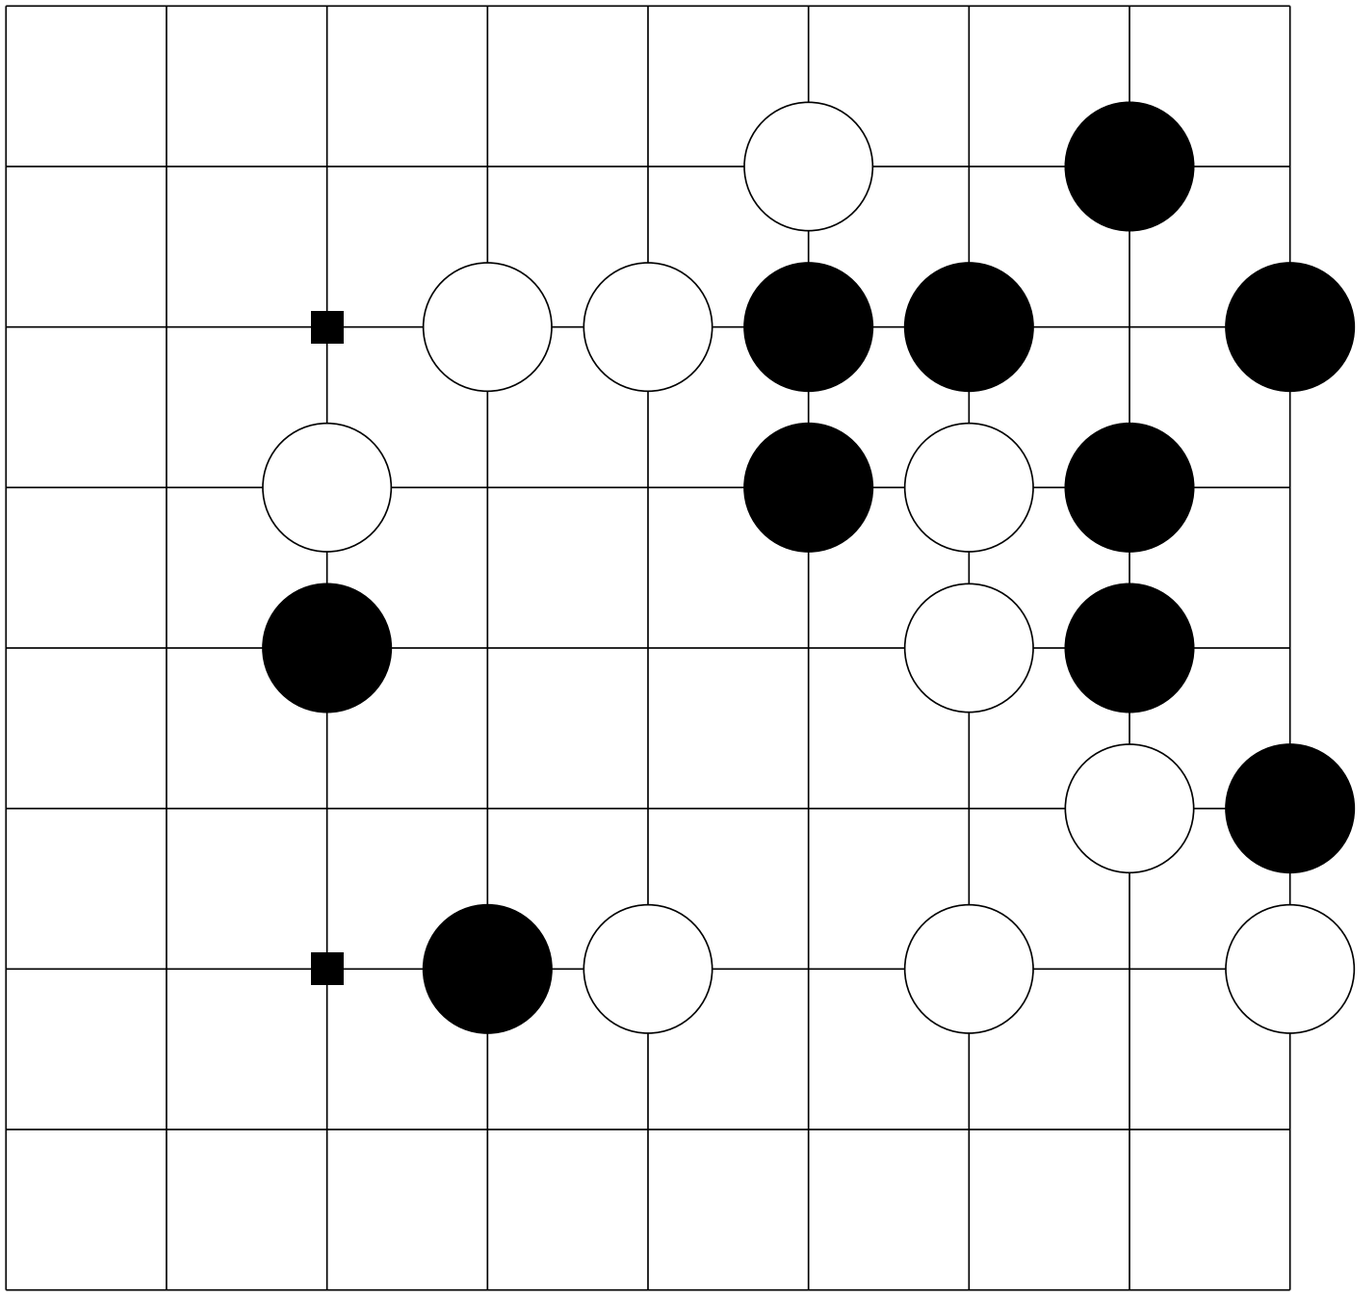
Cut again ?



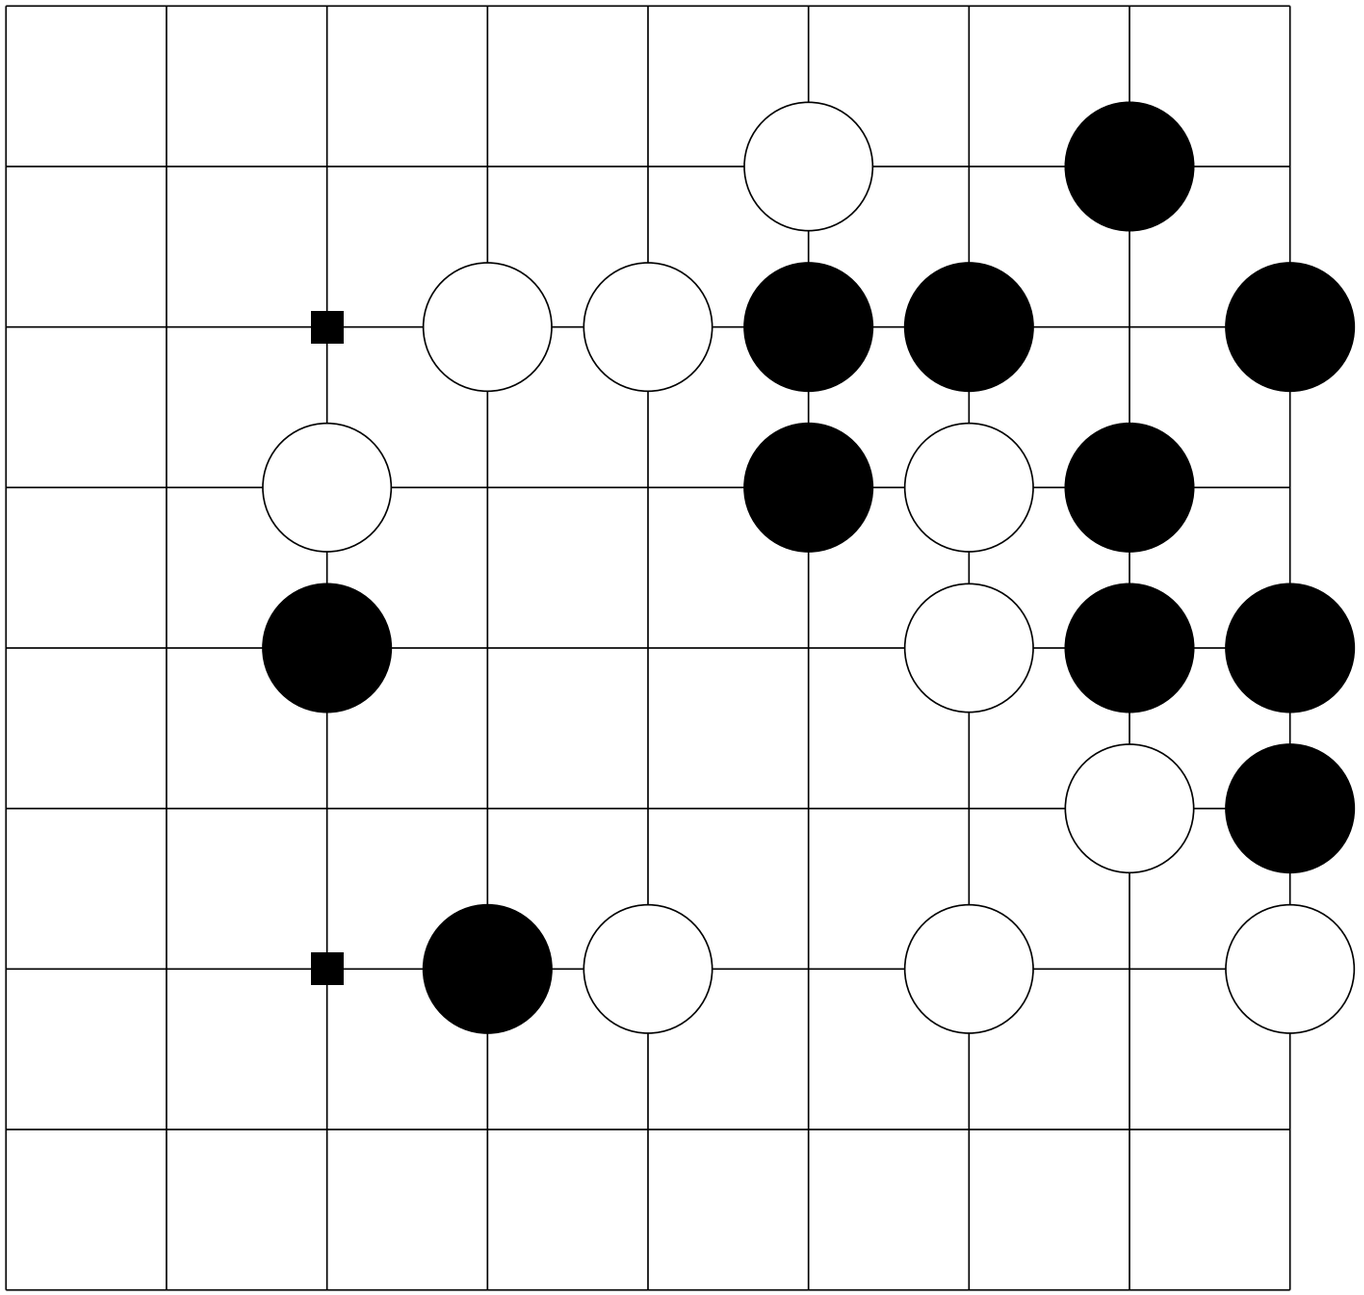
Take control of lower-right corner

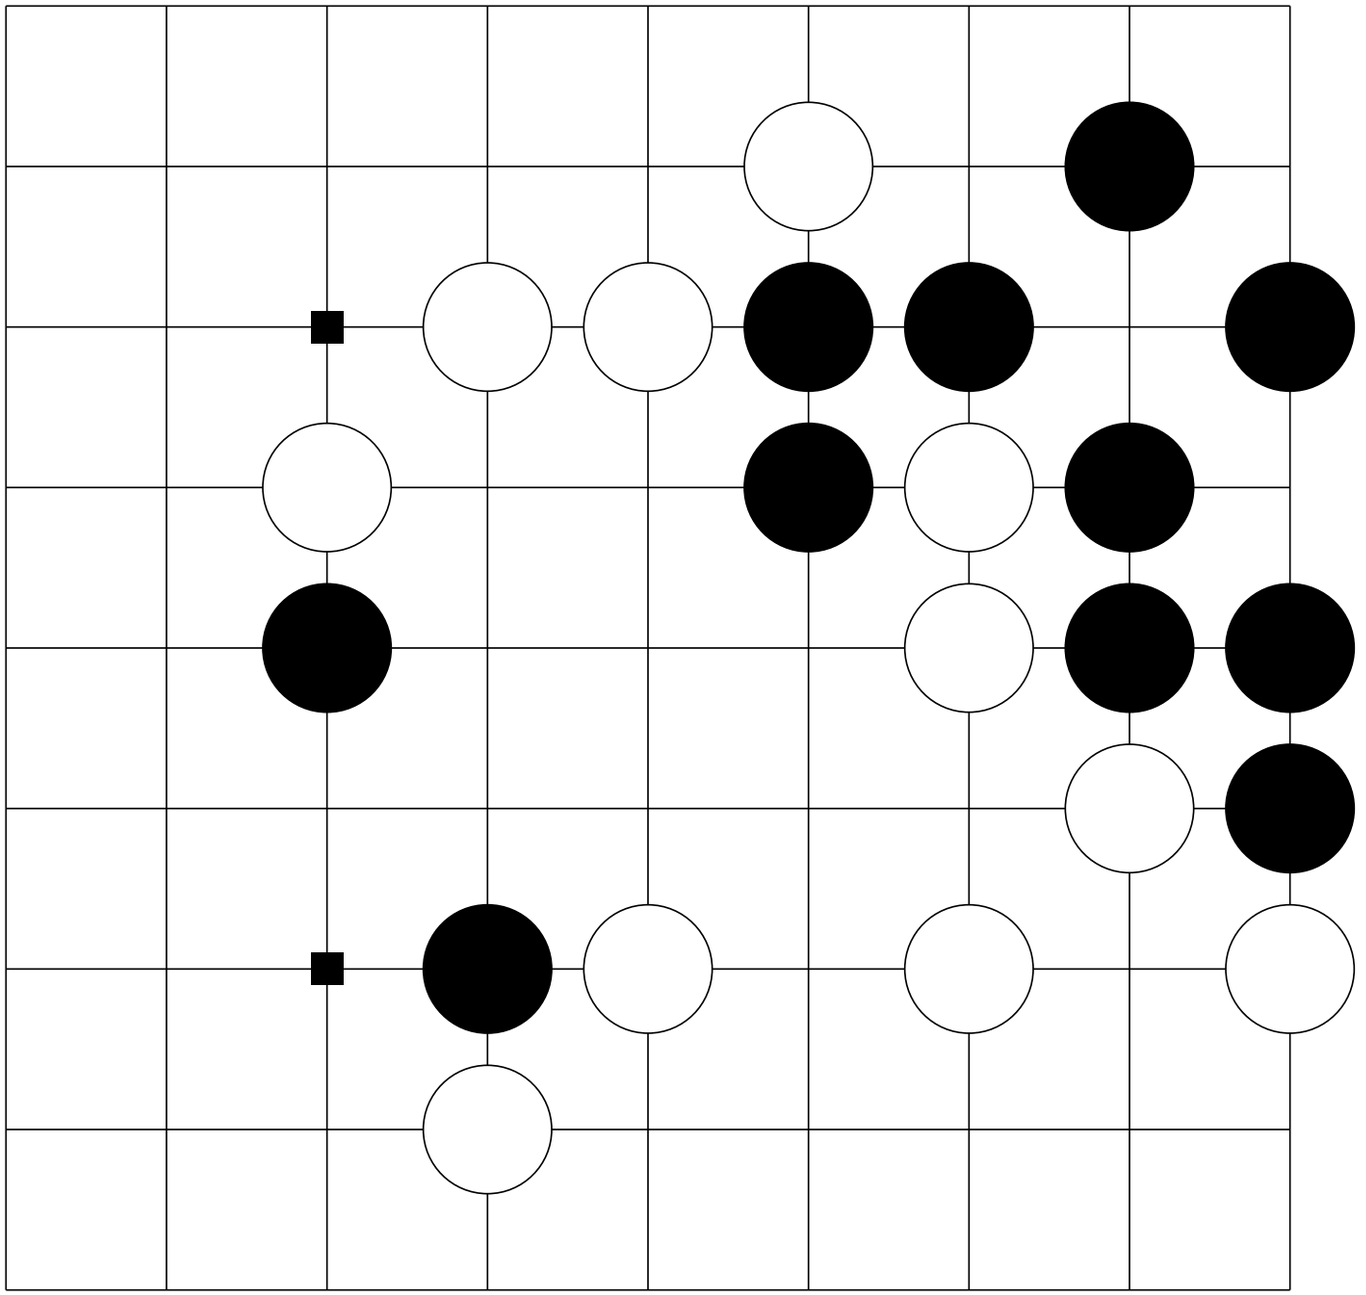


A treat

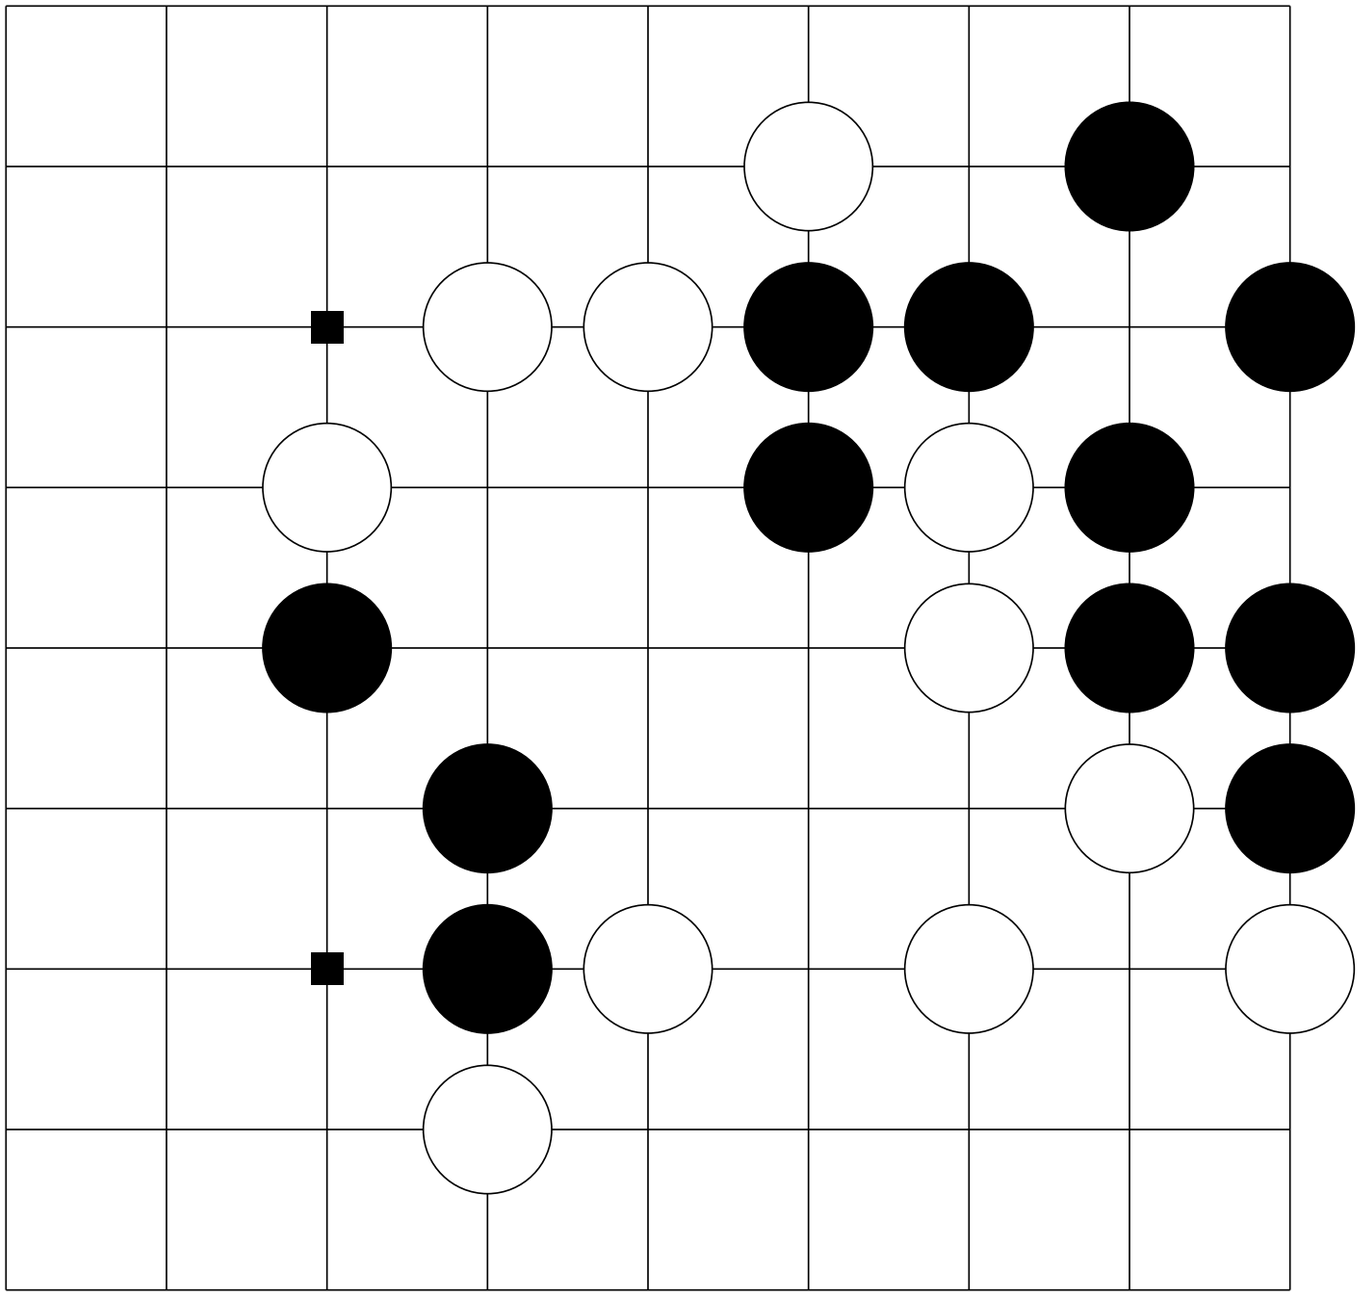


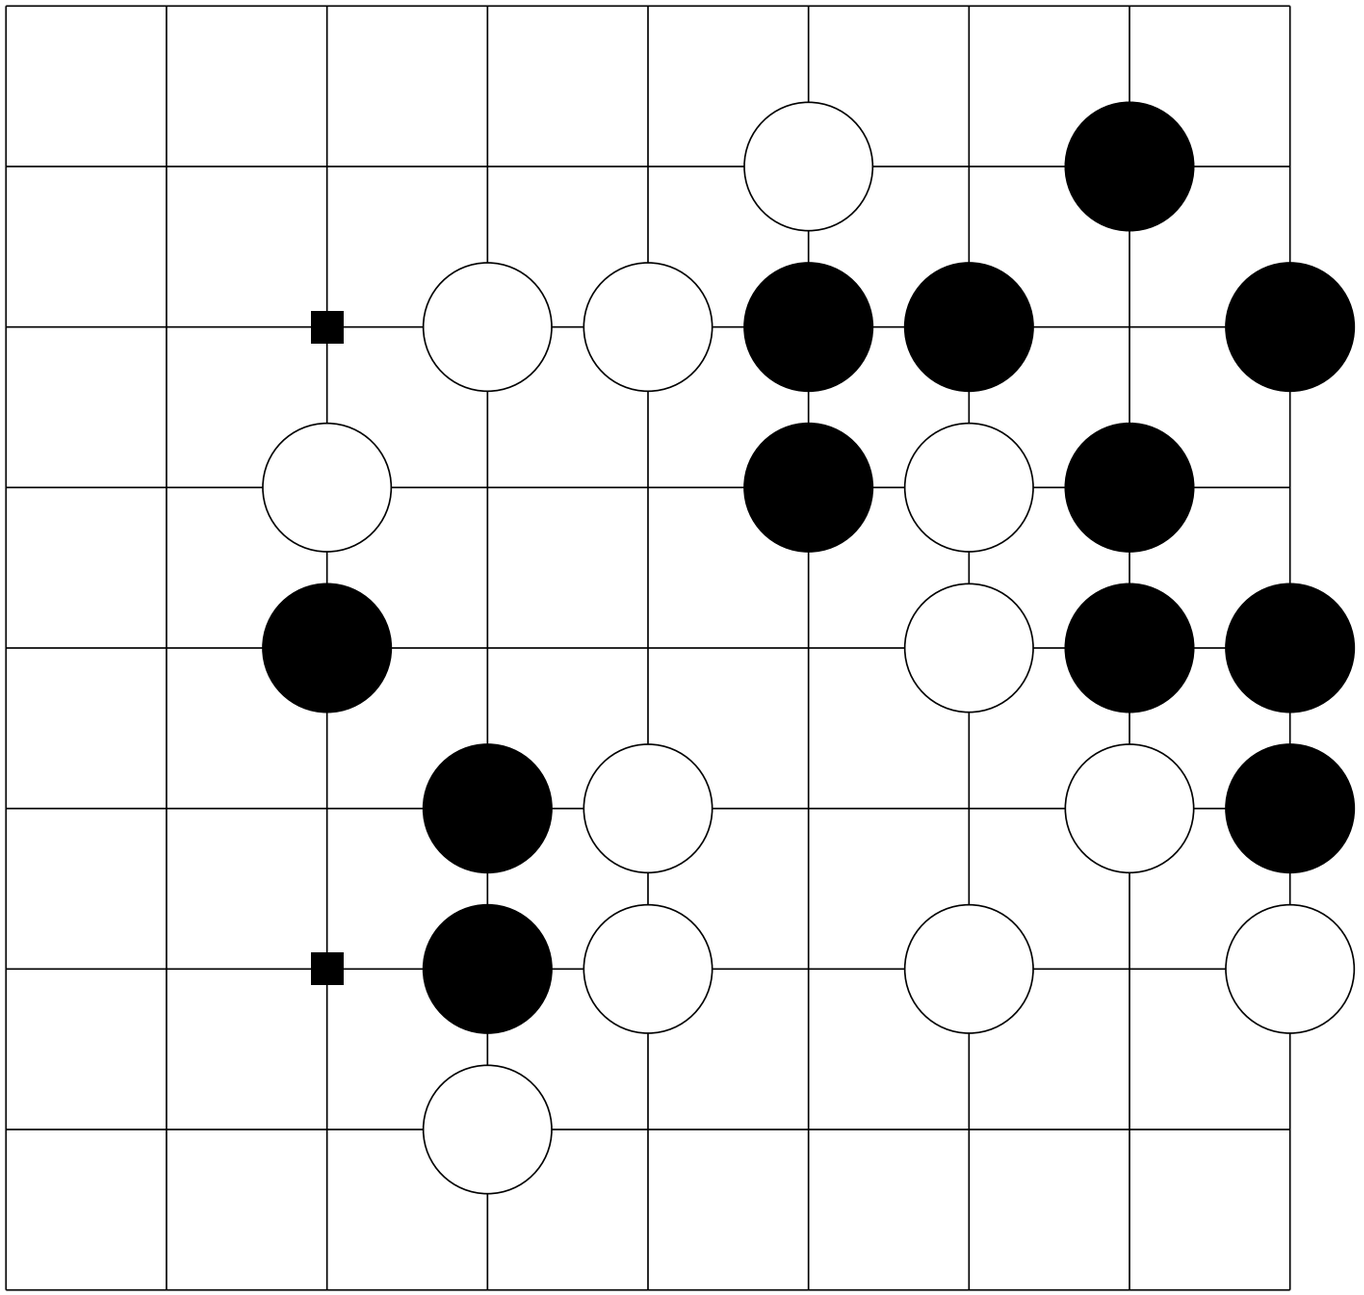
Bad defence move



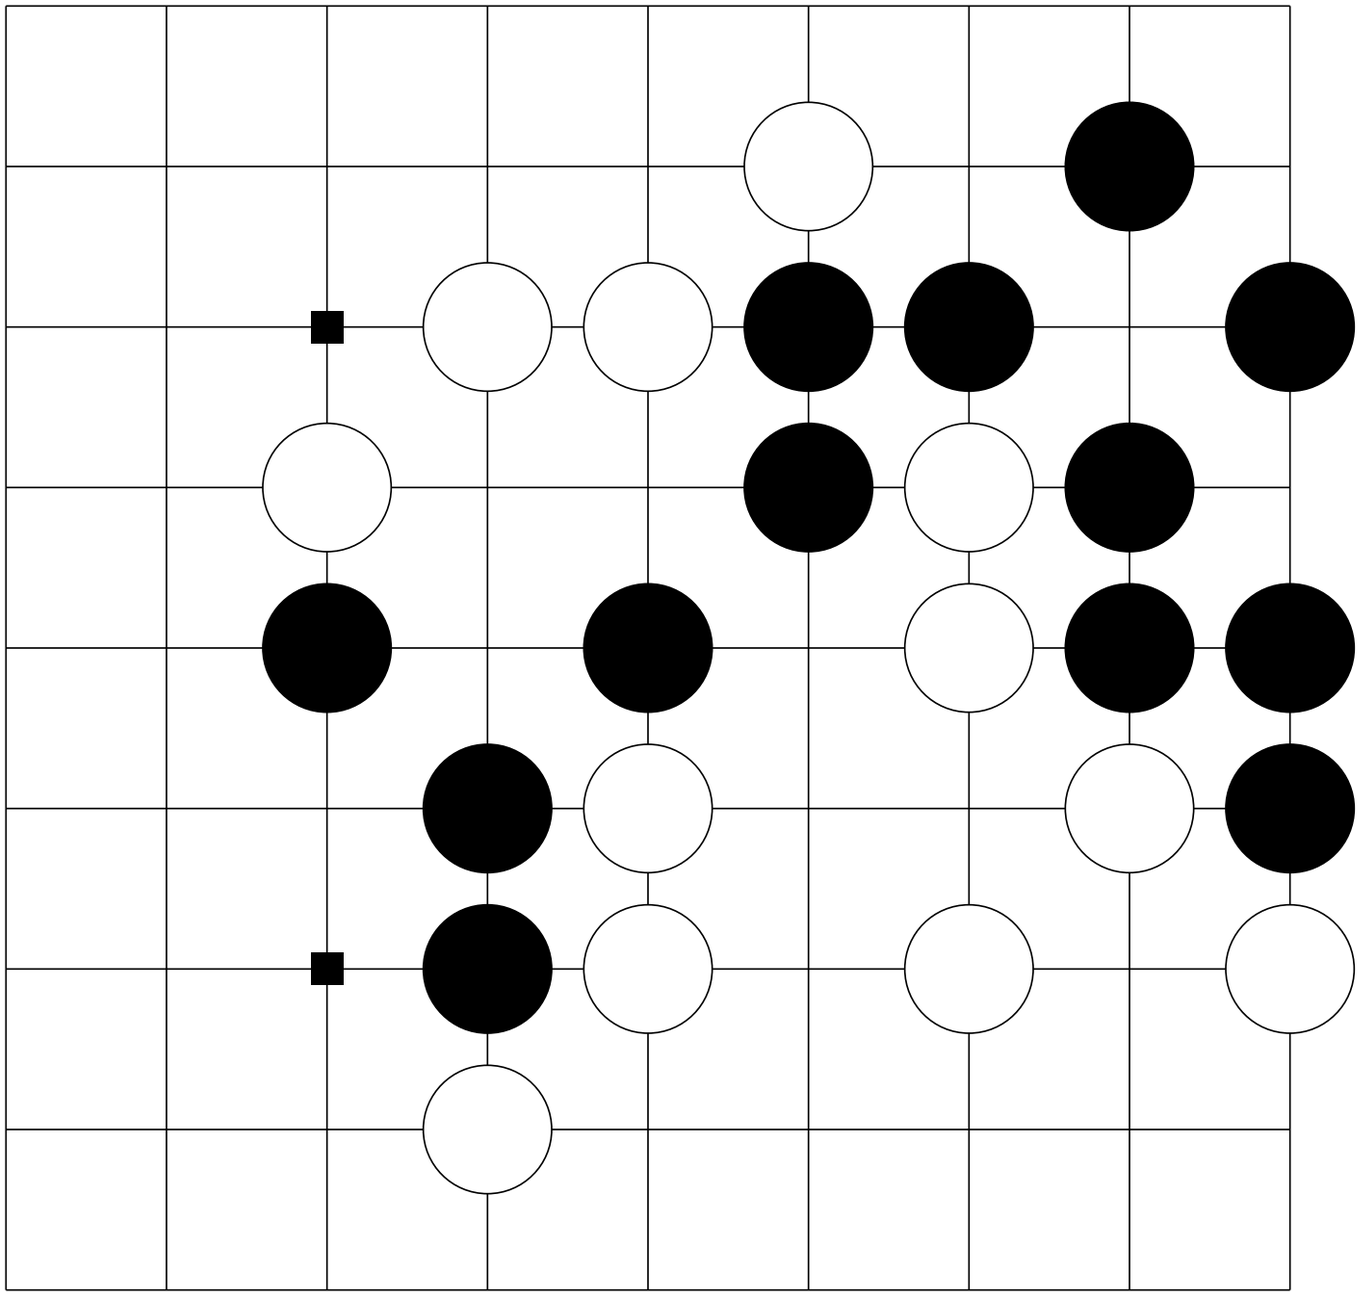


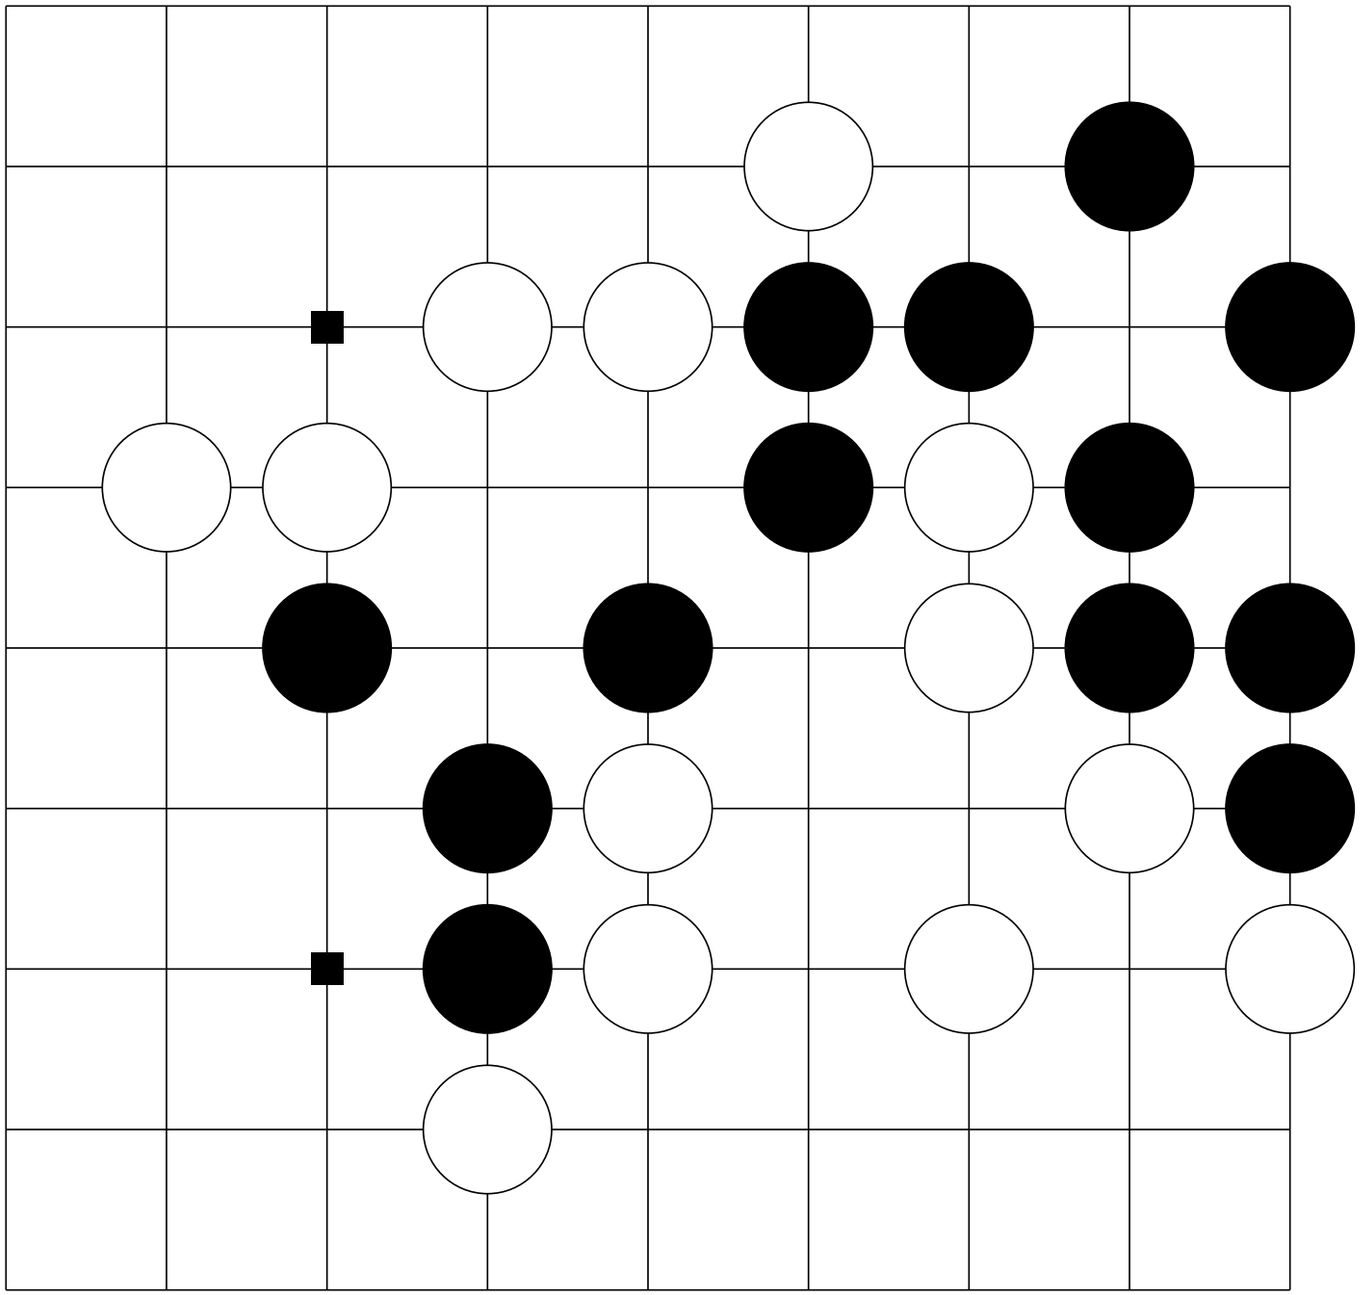
Extend it further

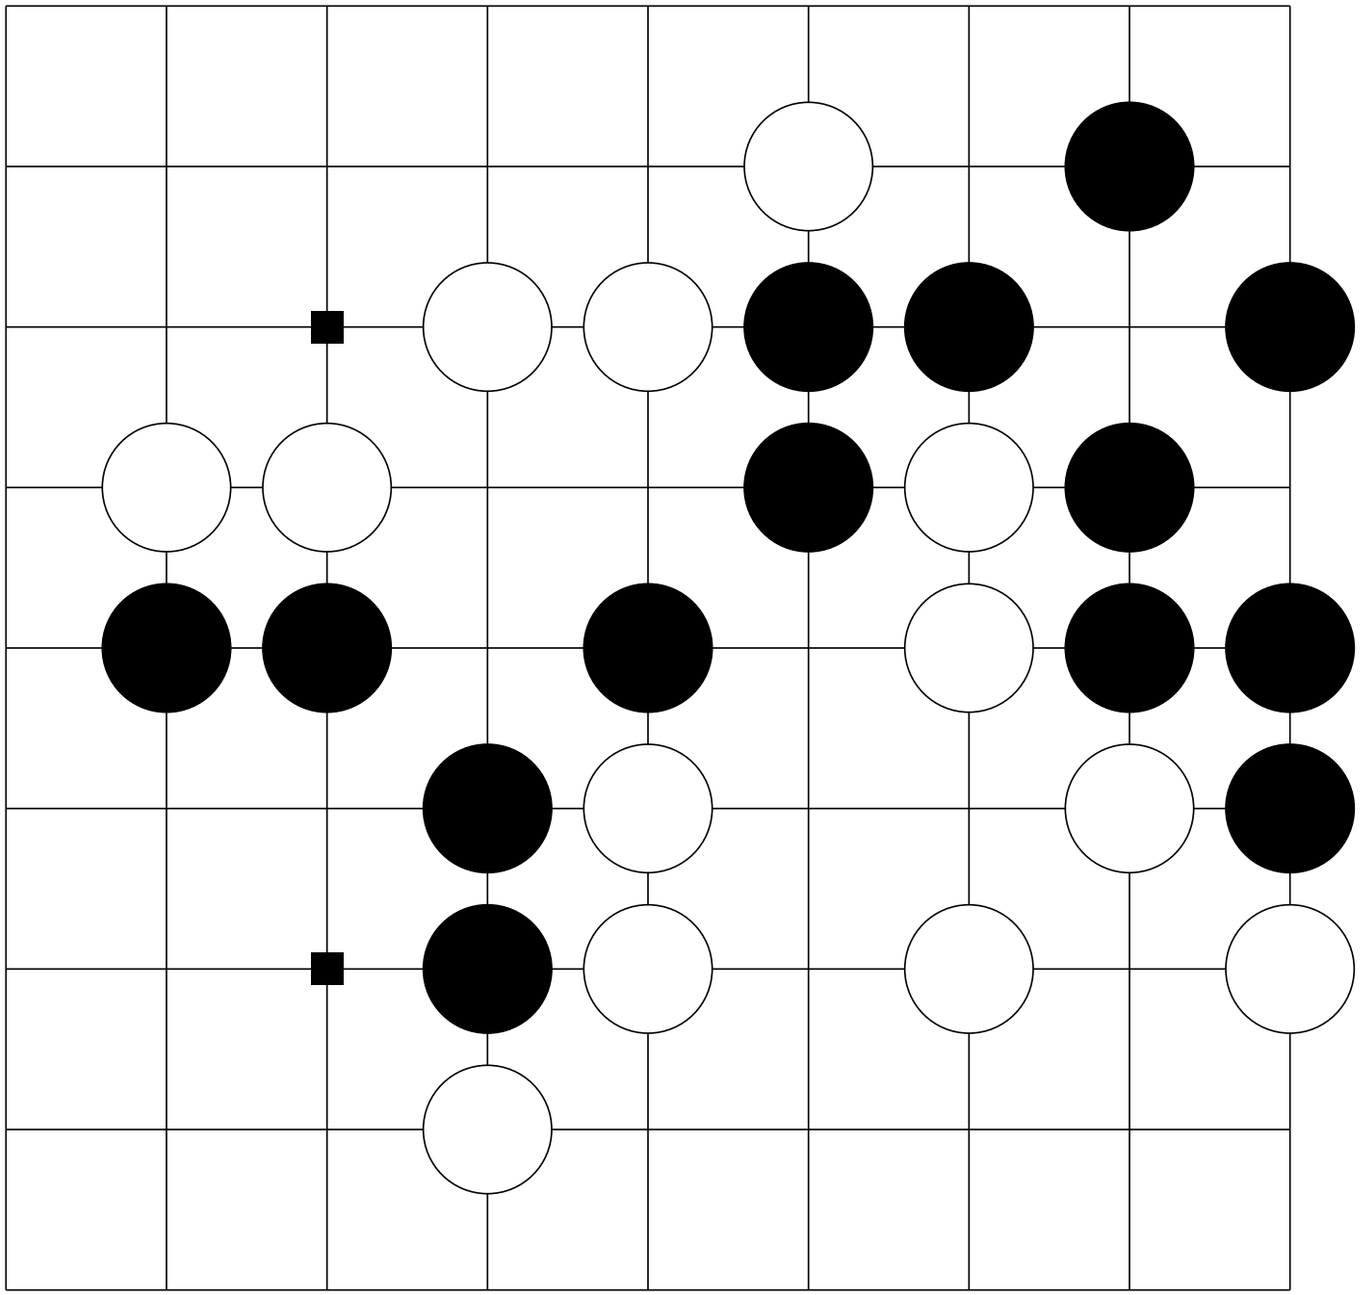


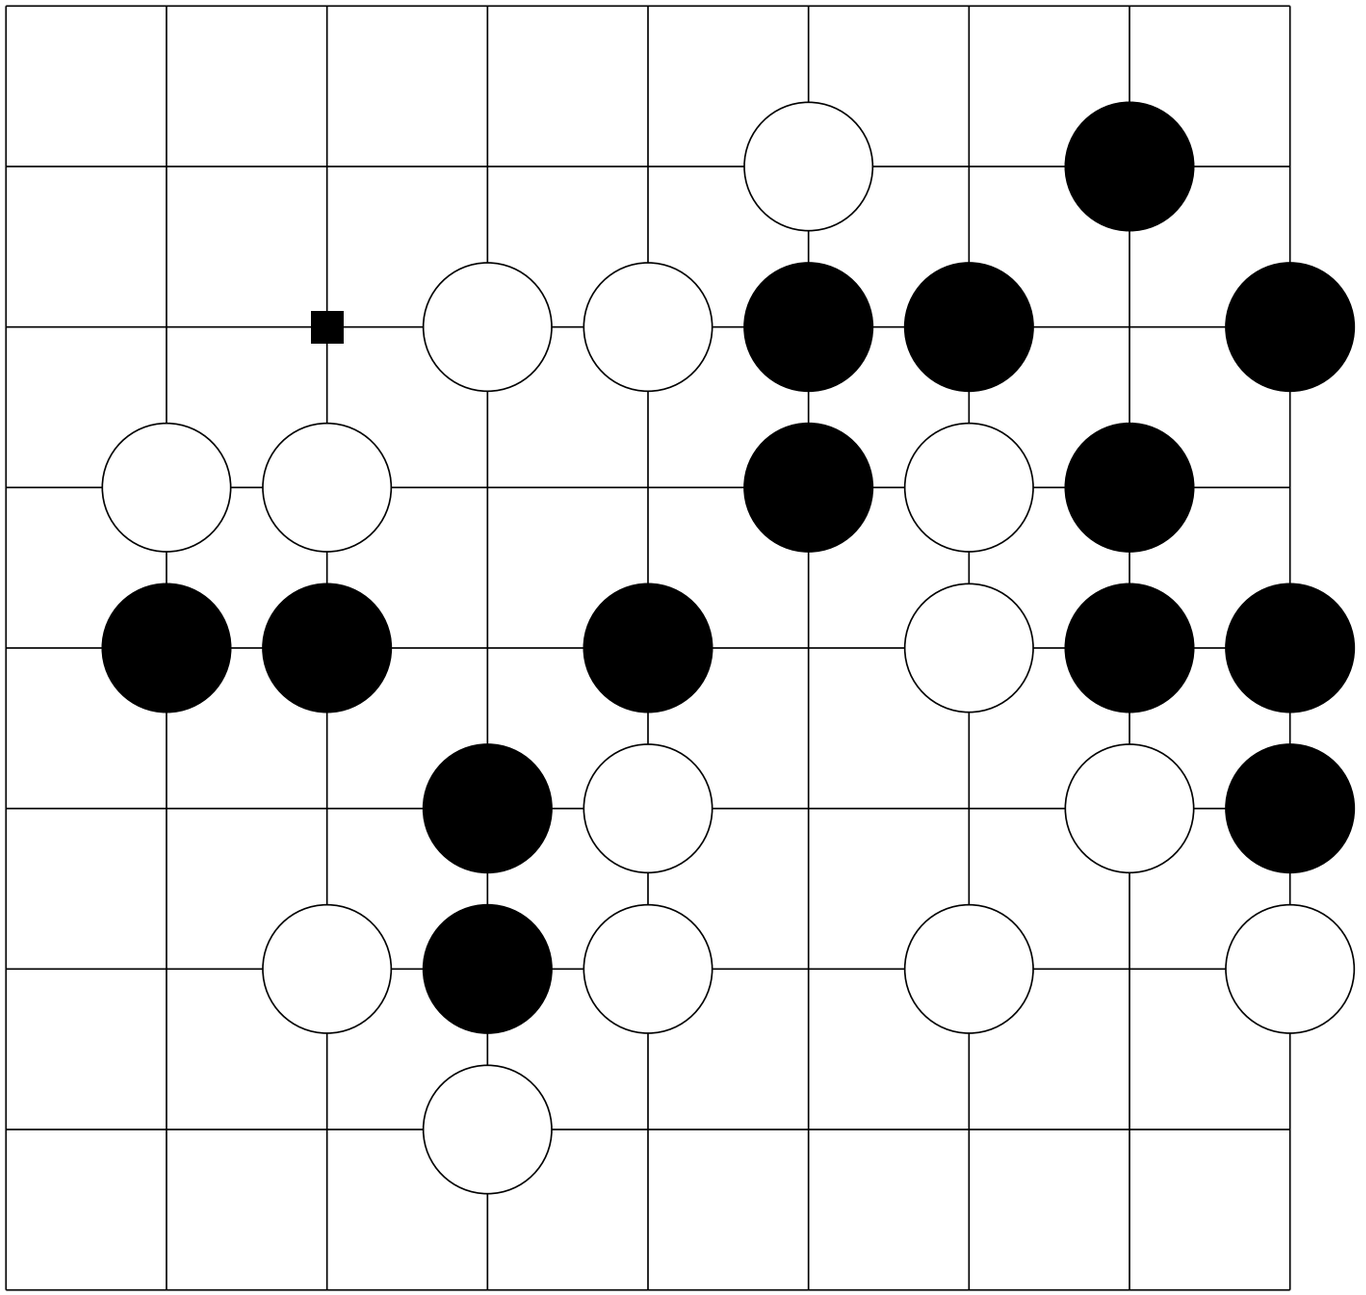


Extend to the middle

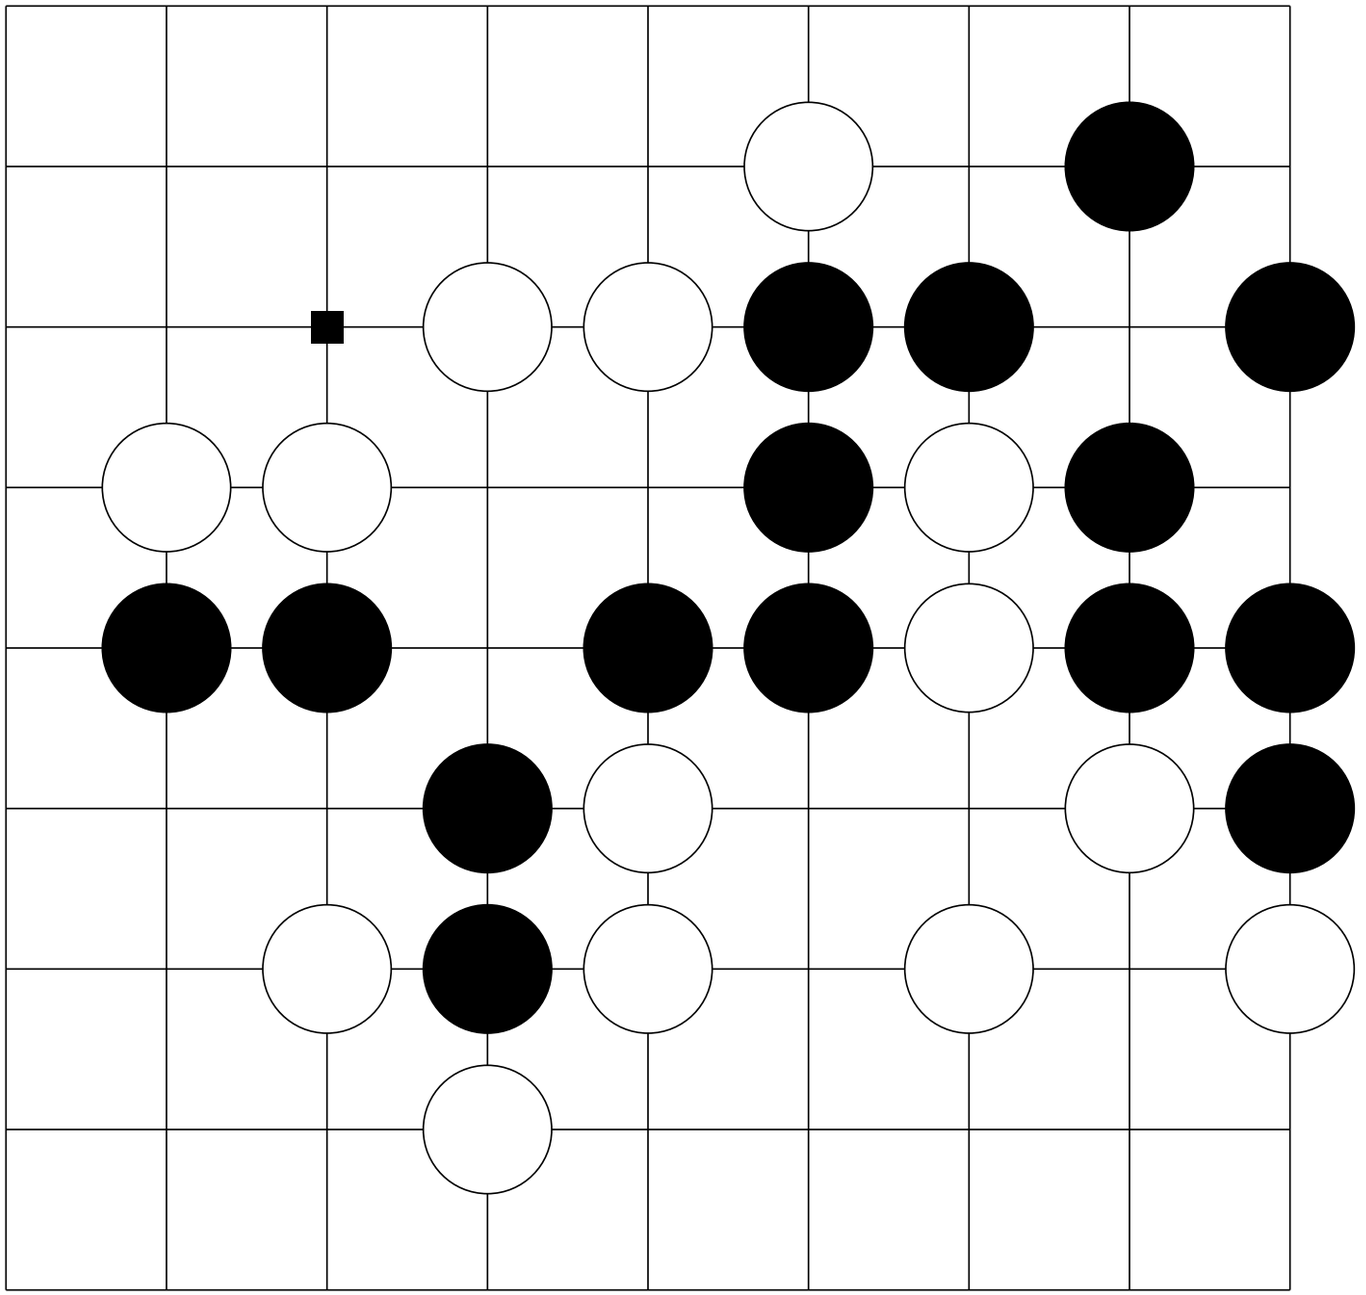




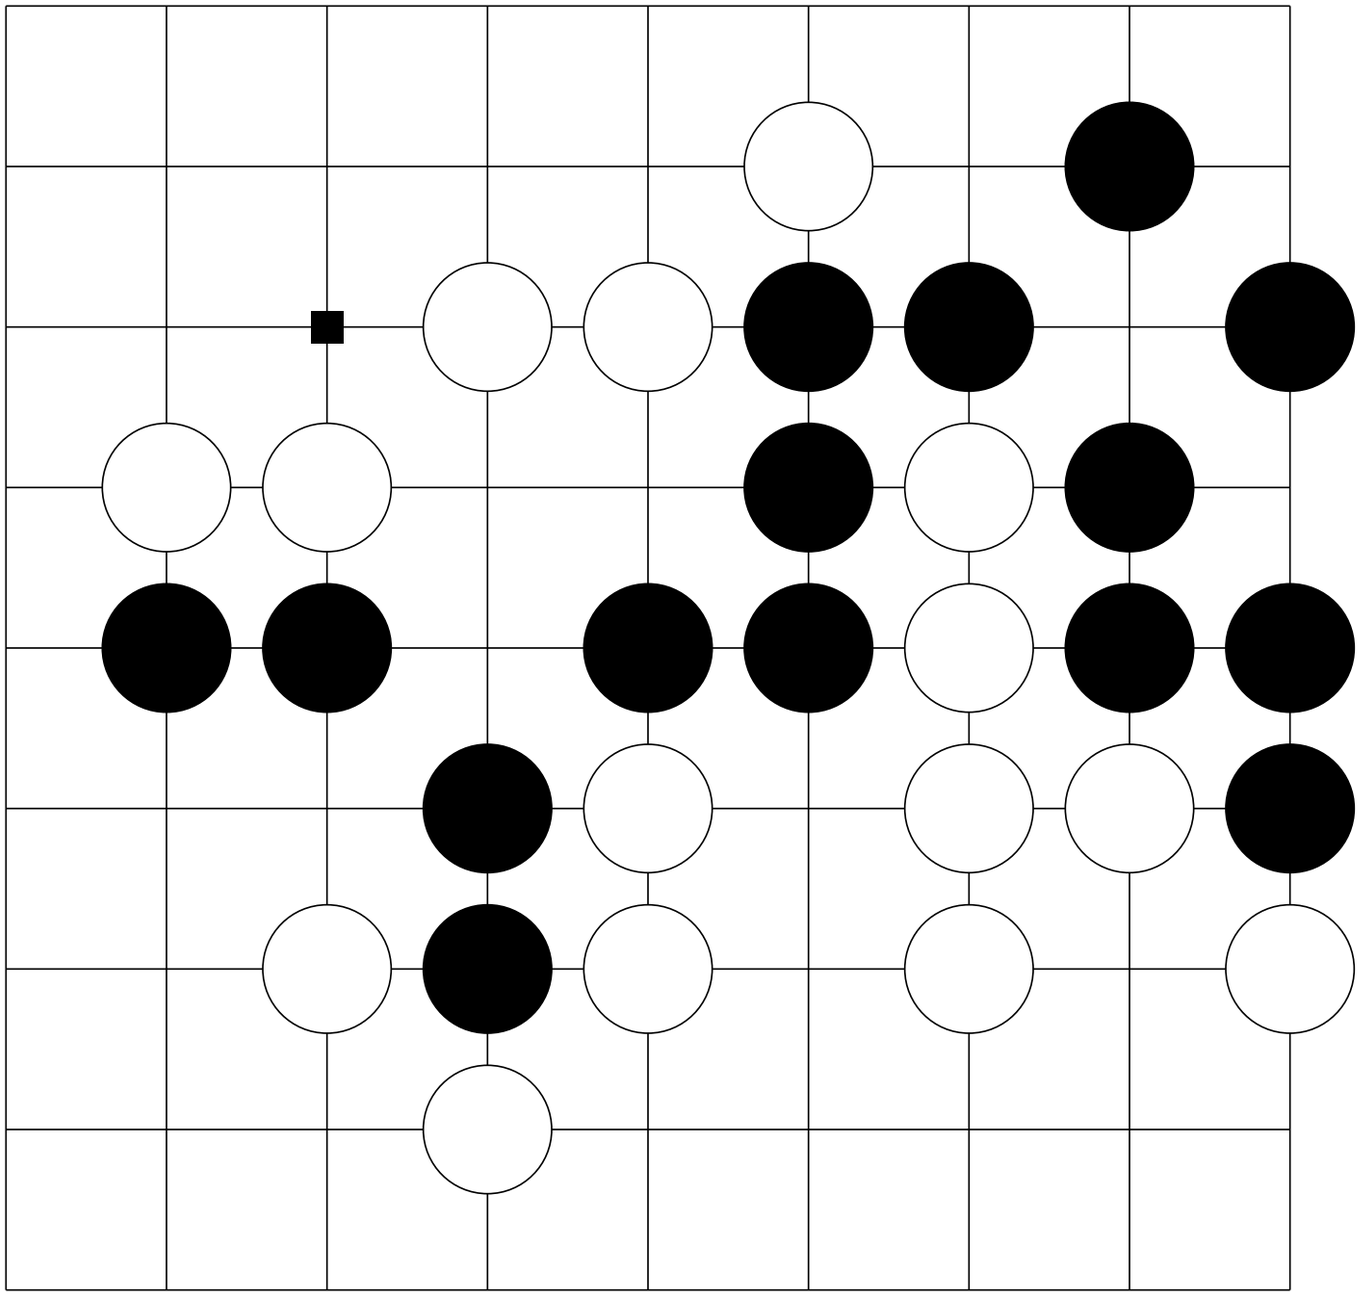




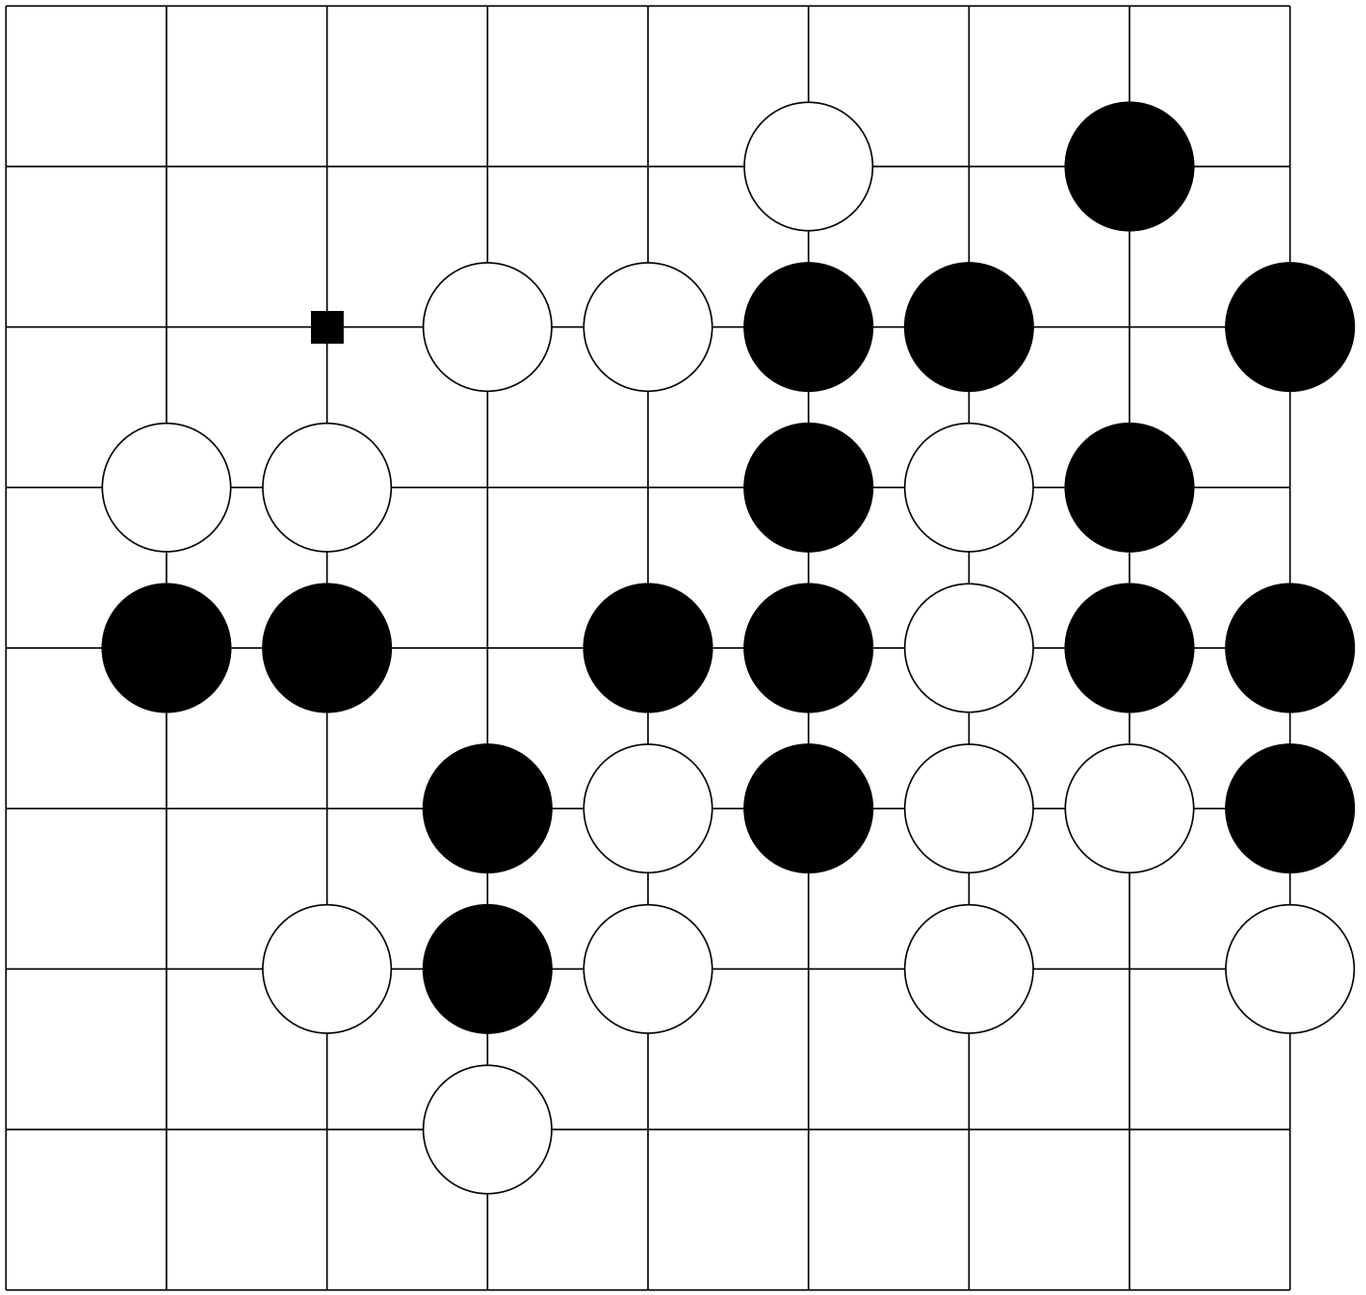
Try to treat this small group

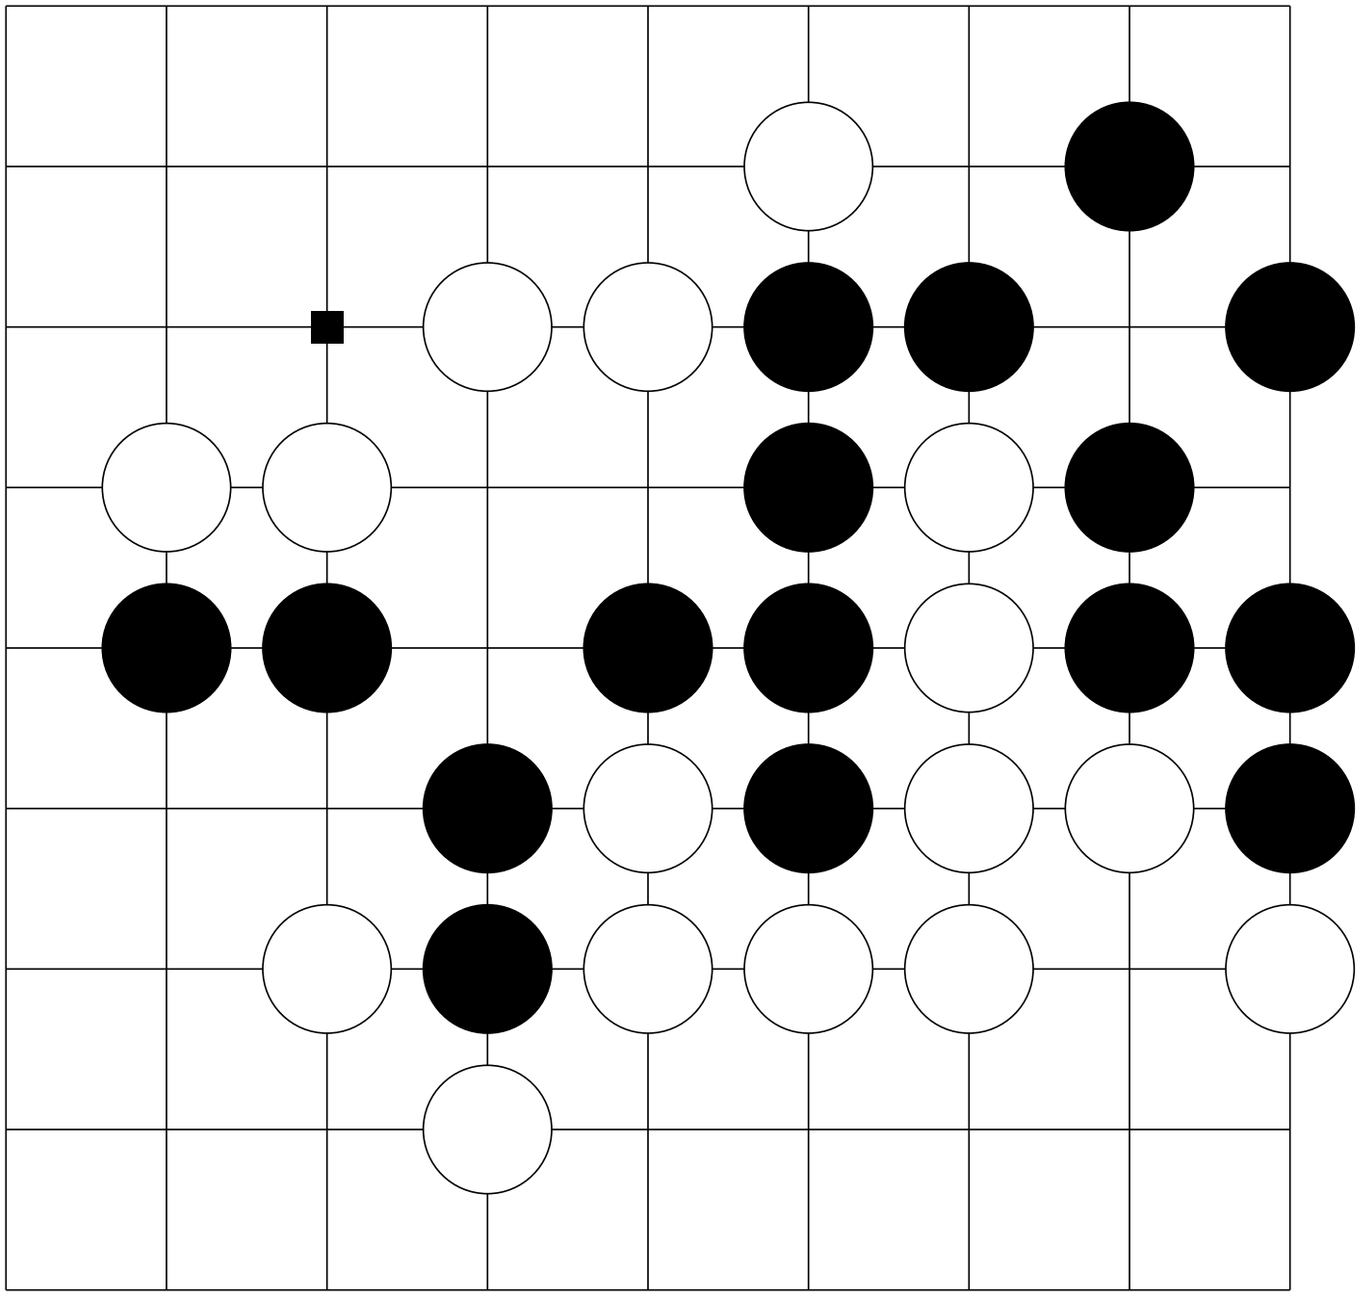


Connect all black stones

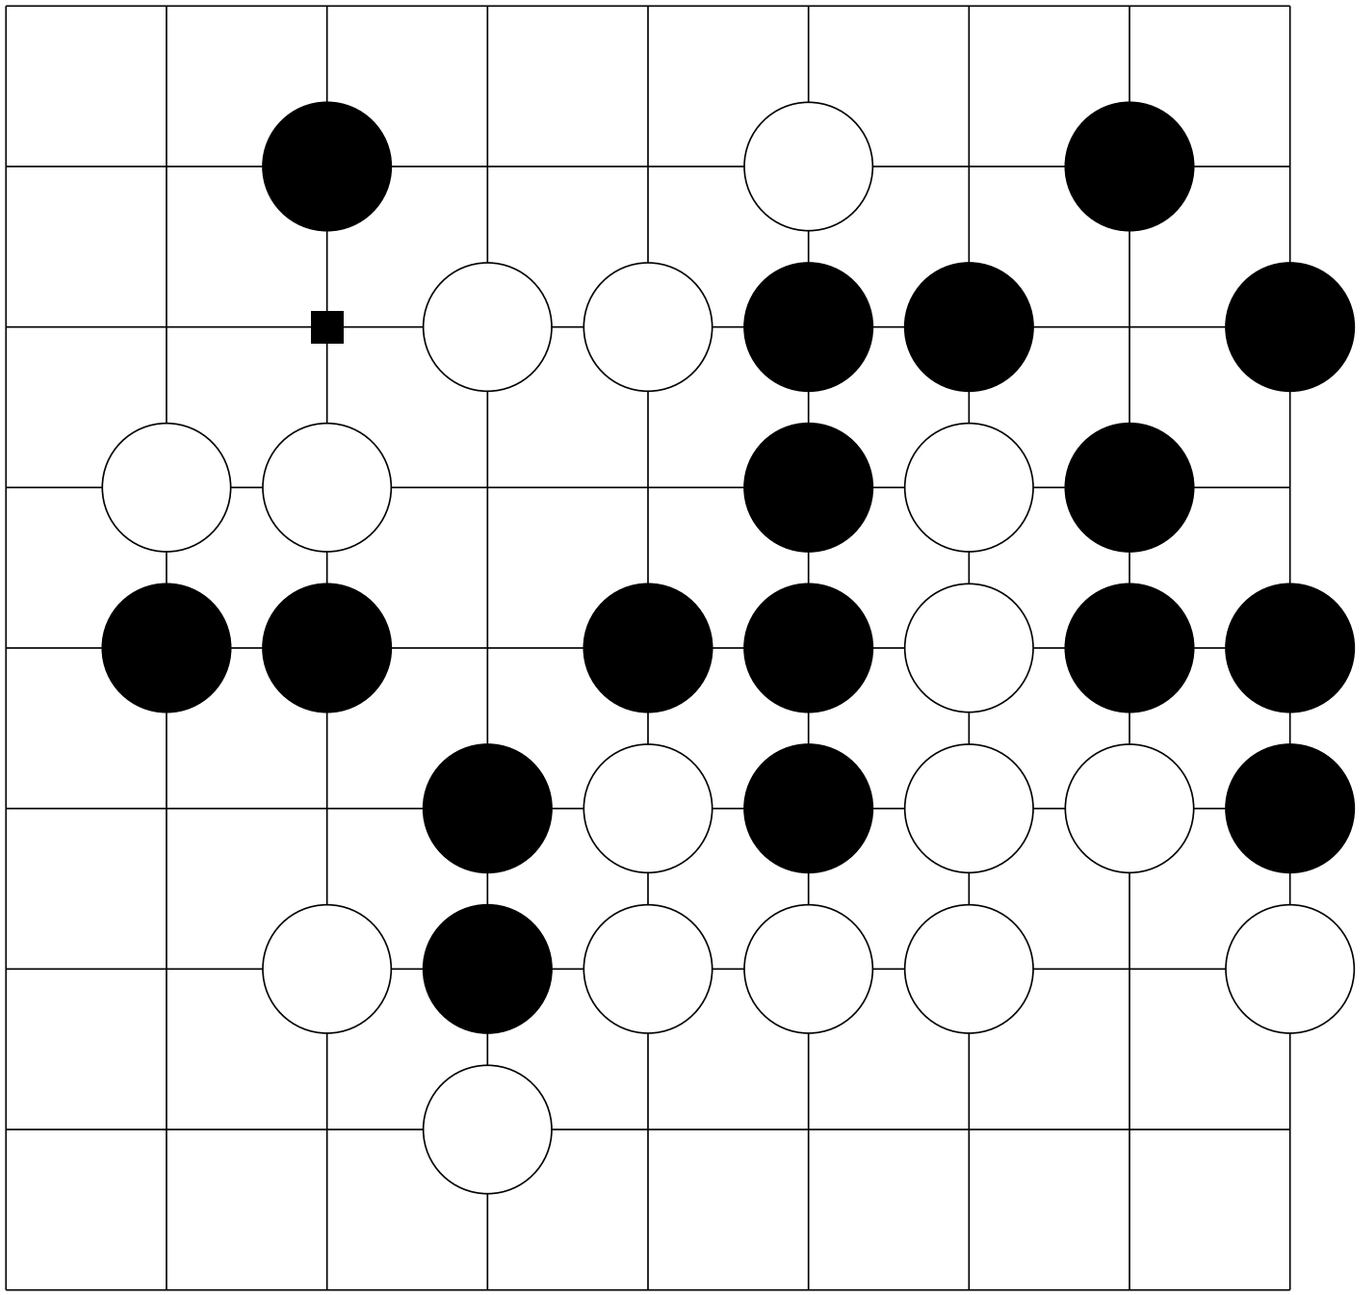


Defend move

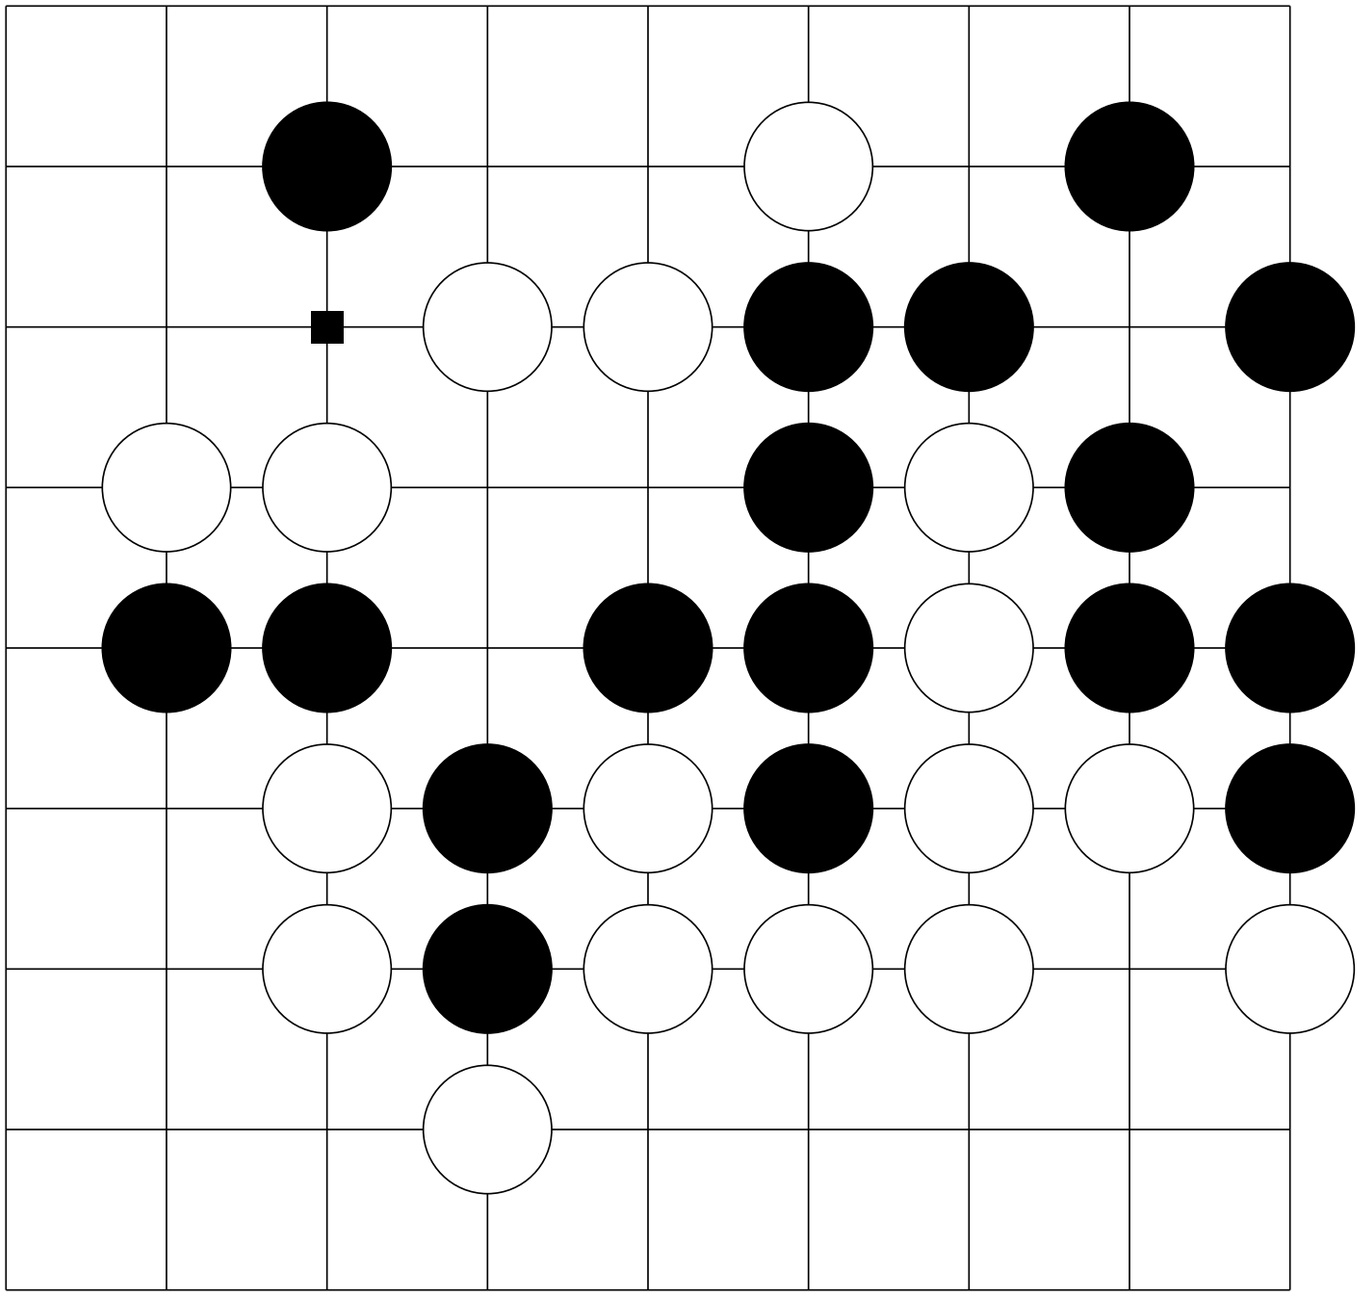




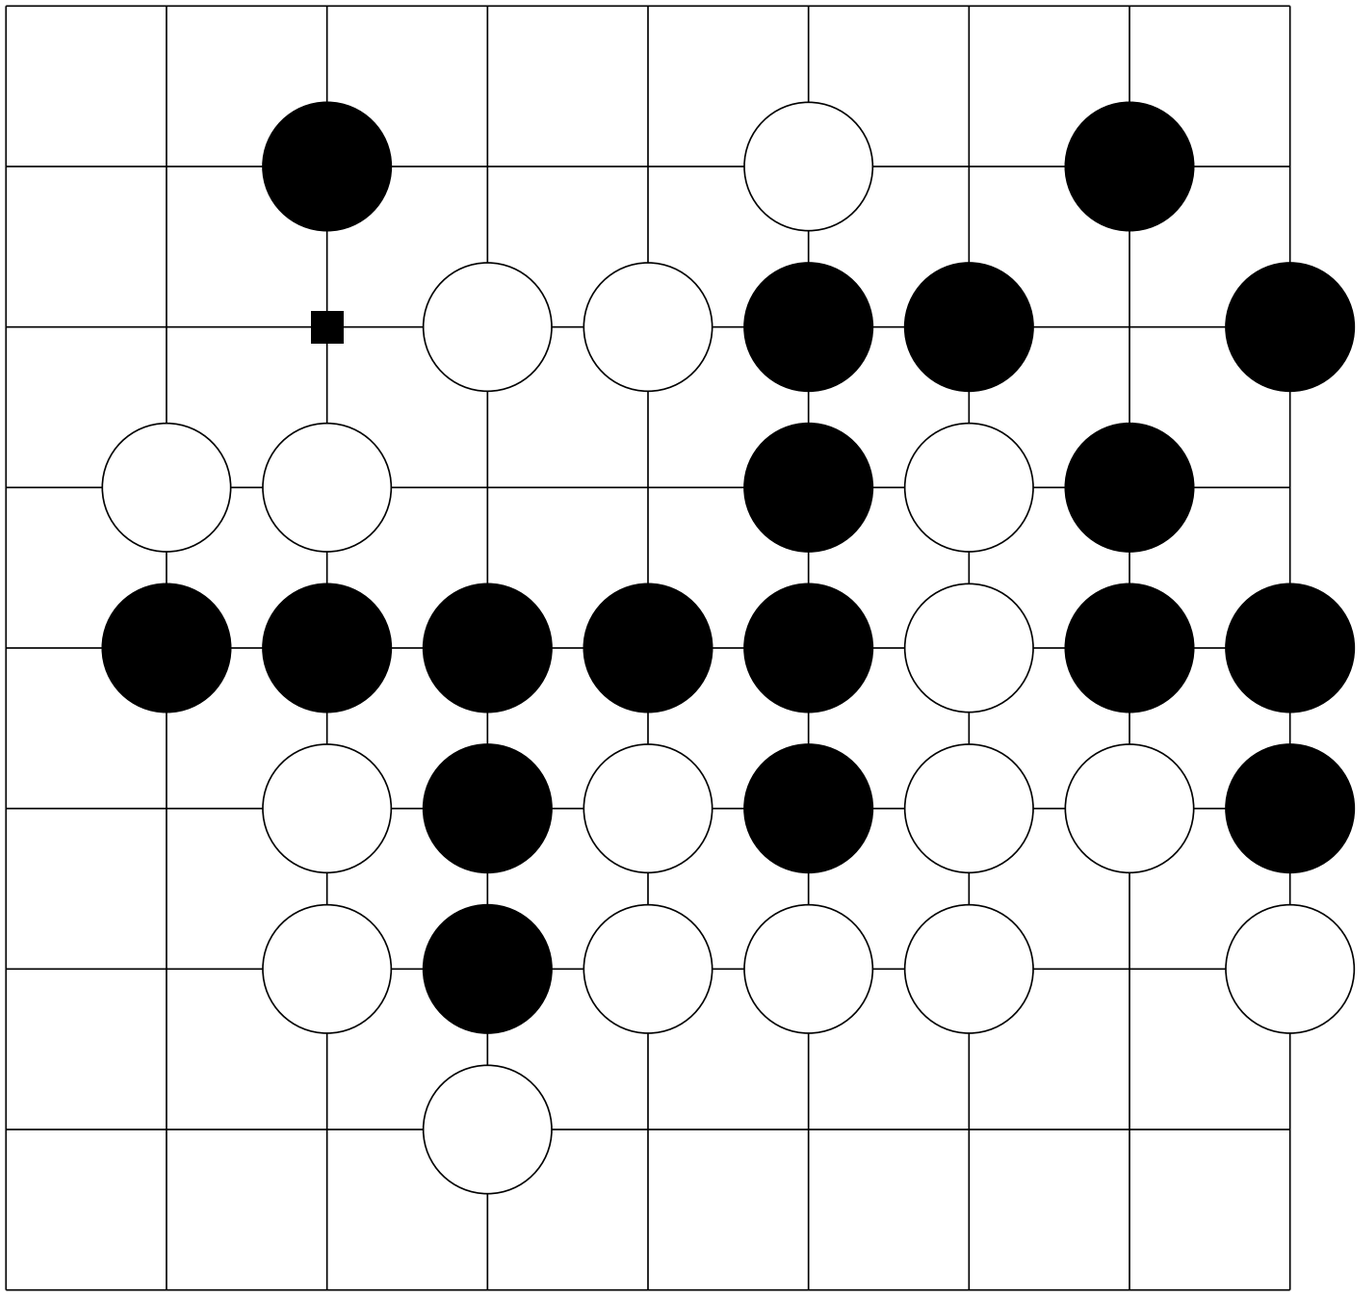
Close it



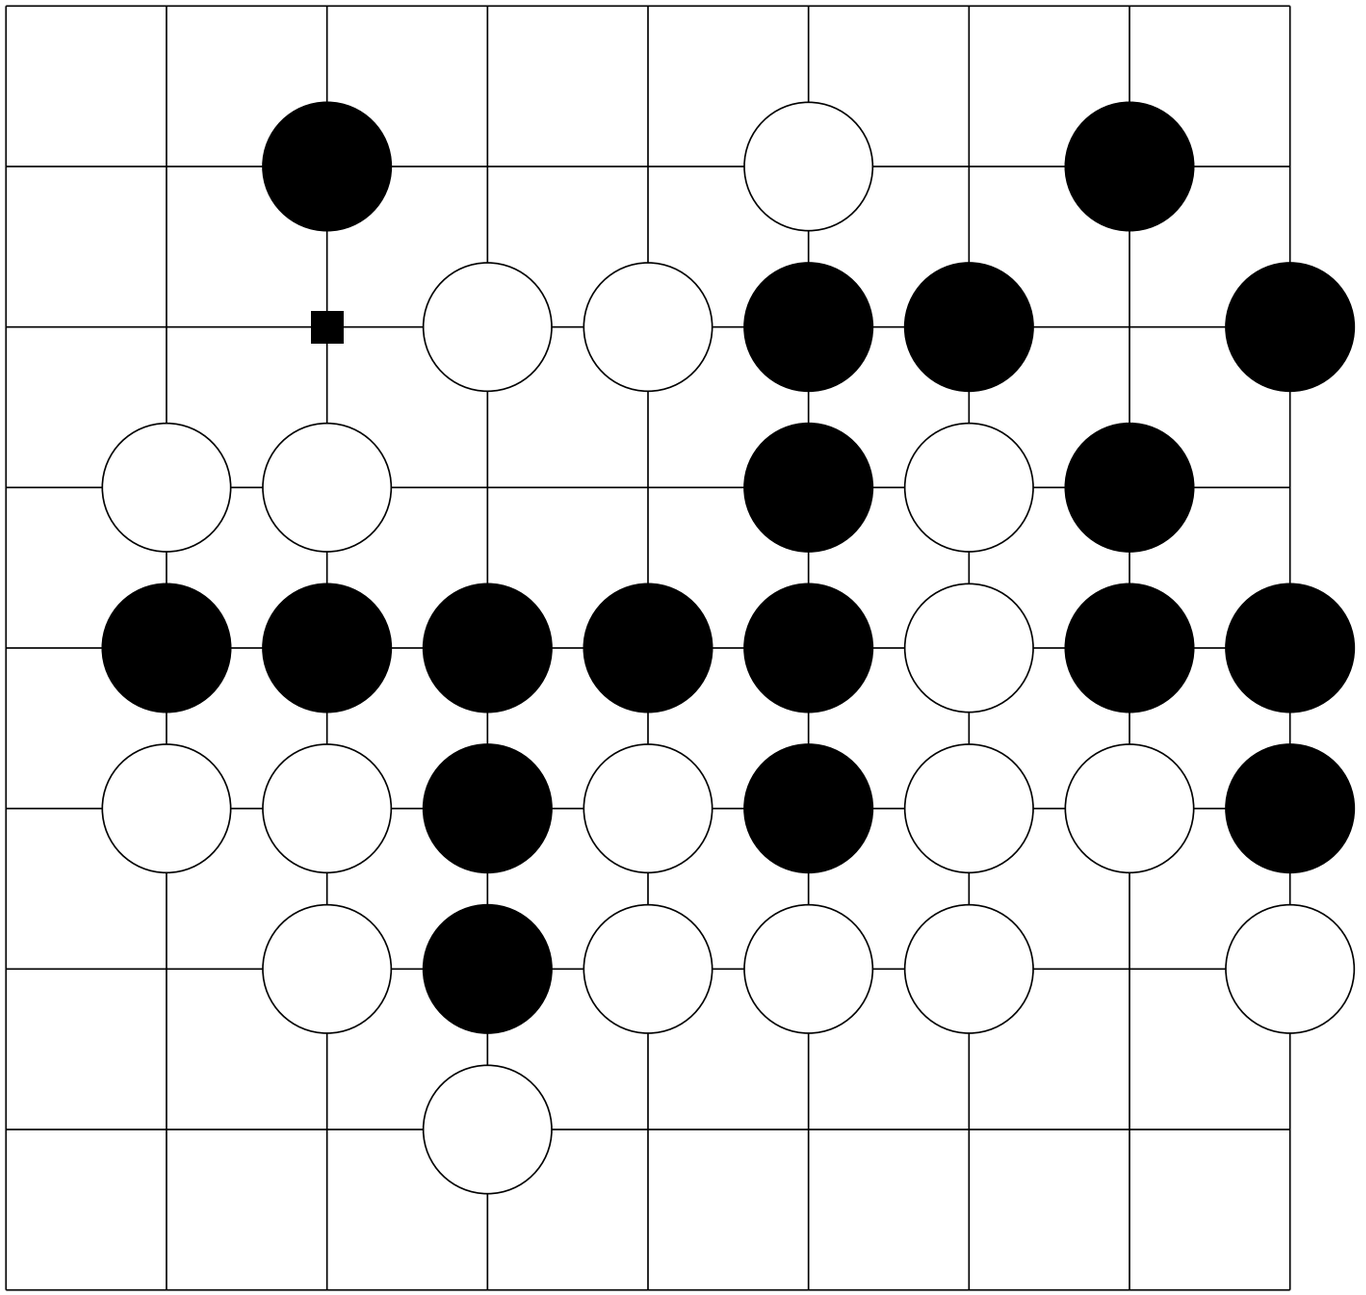
Very strange move to me.

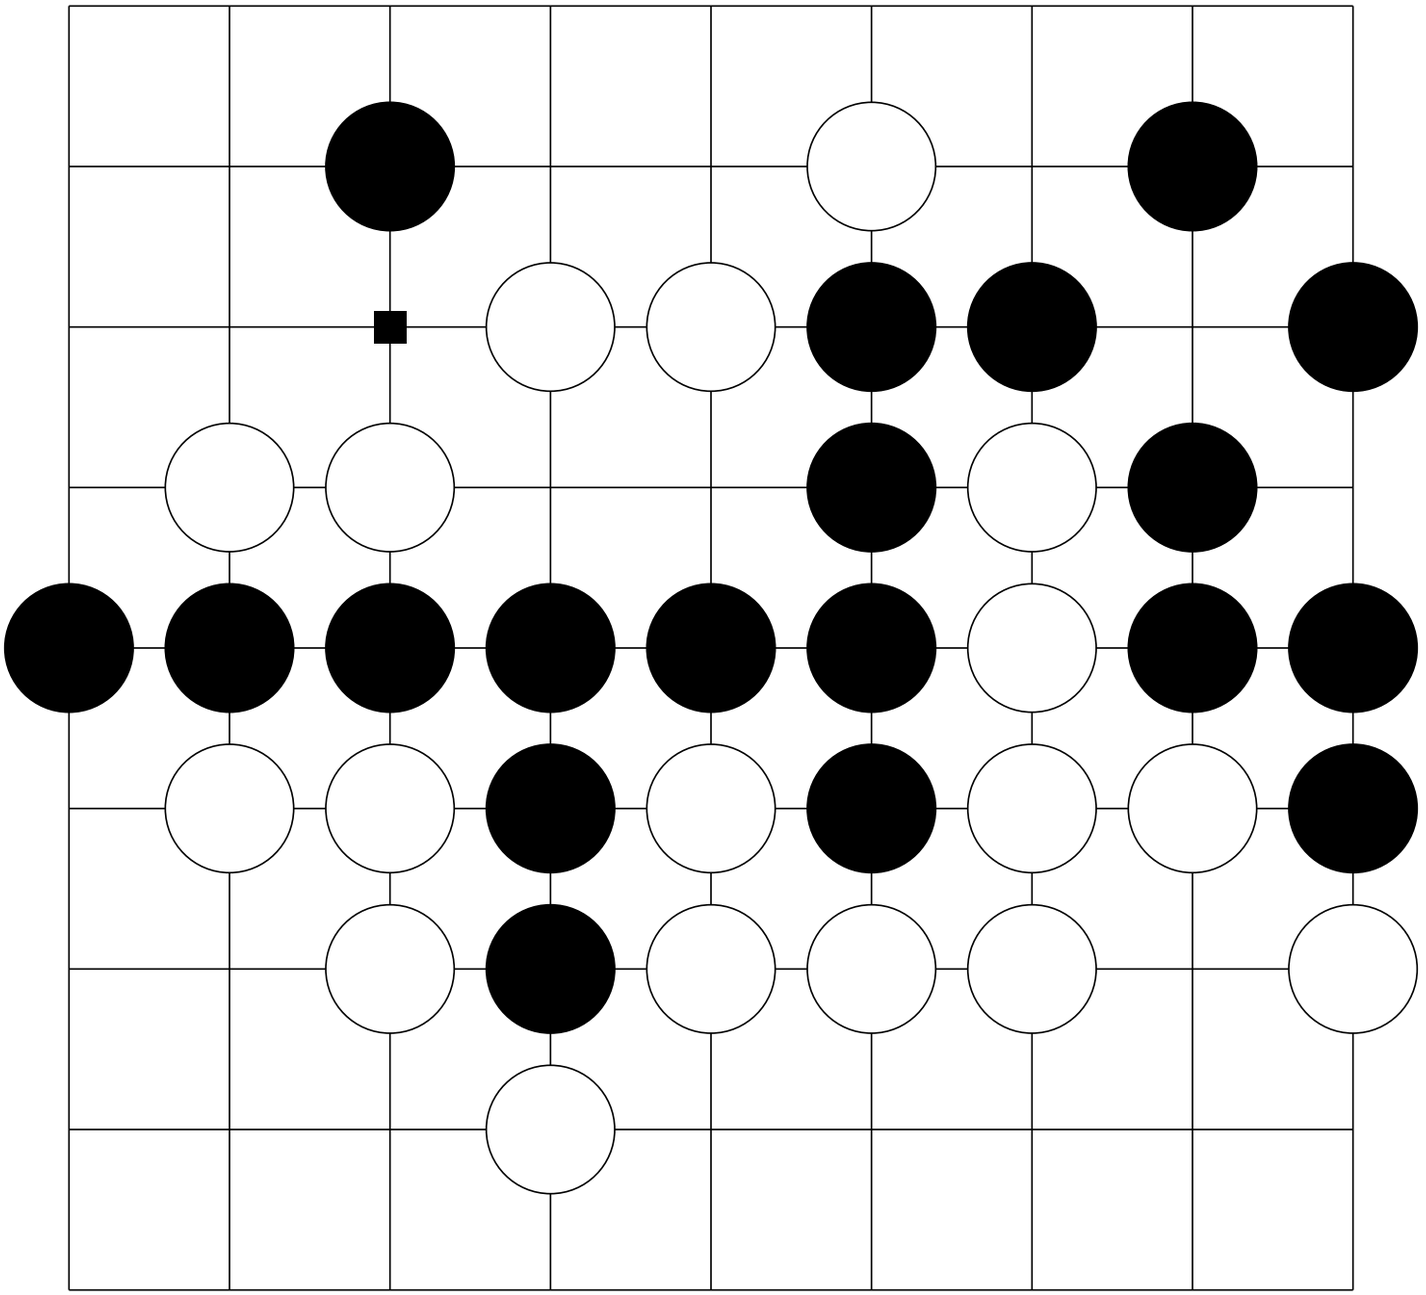


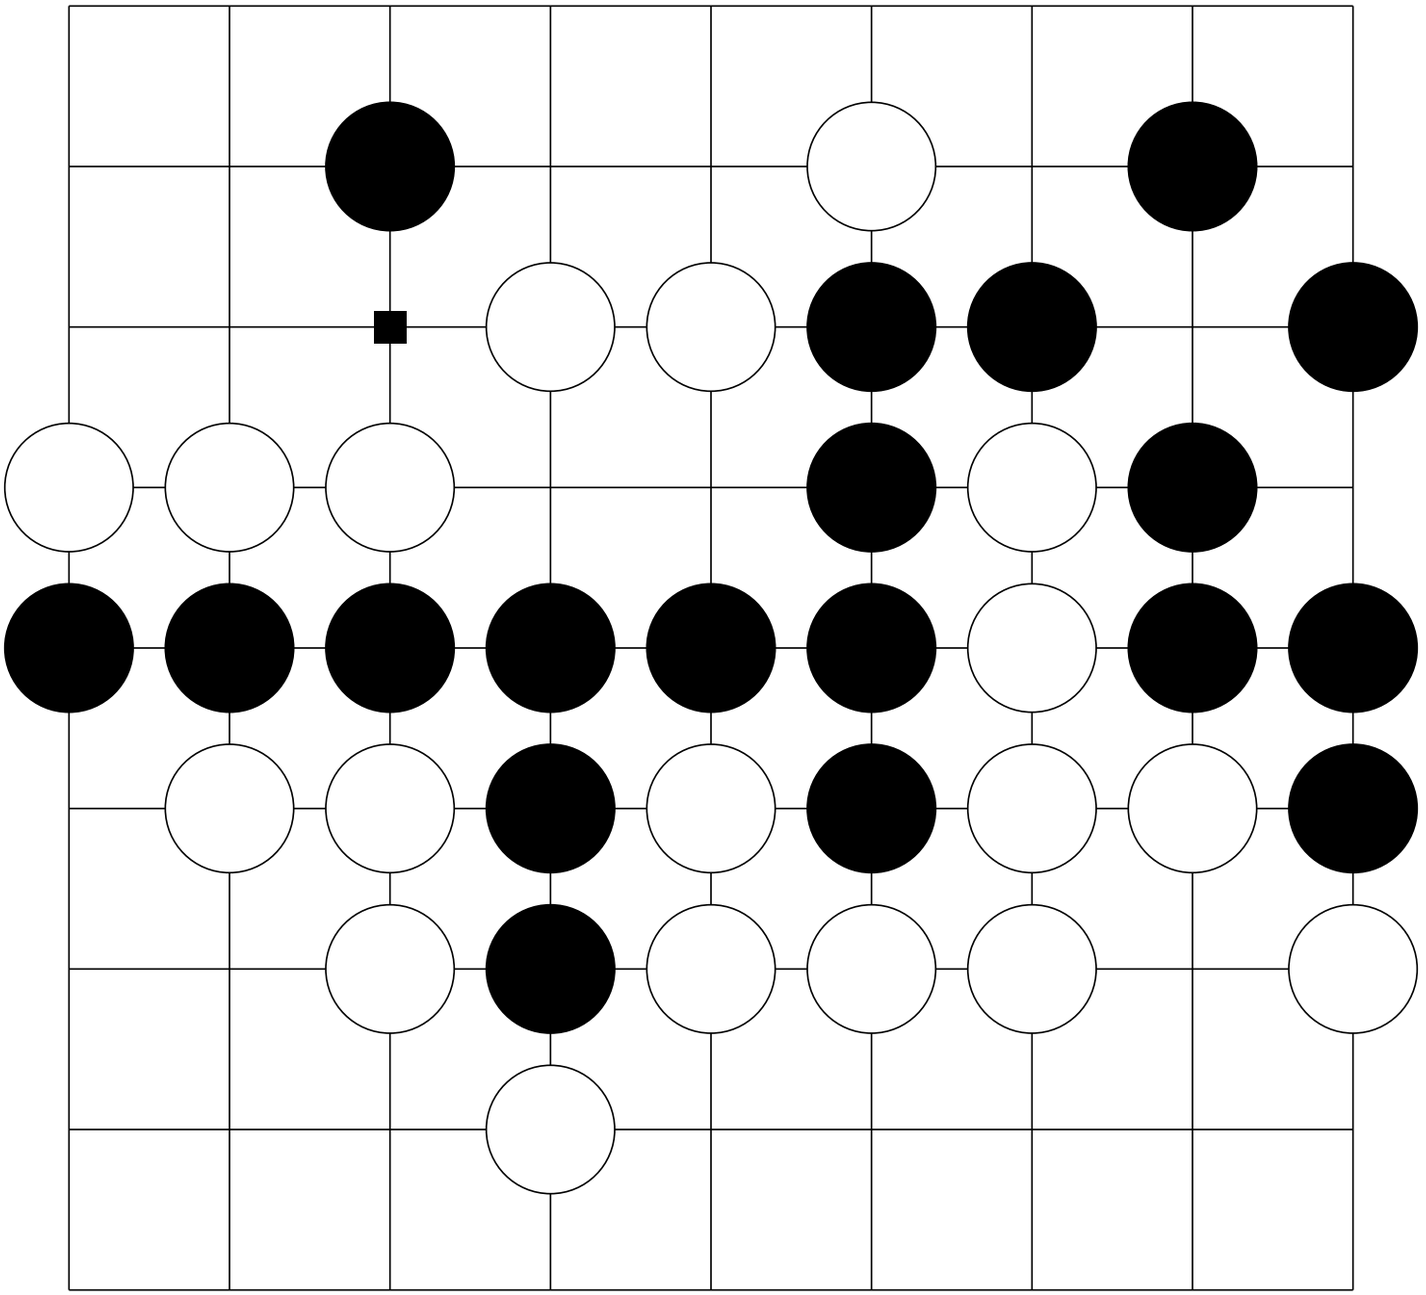
So, I ignore it.

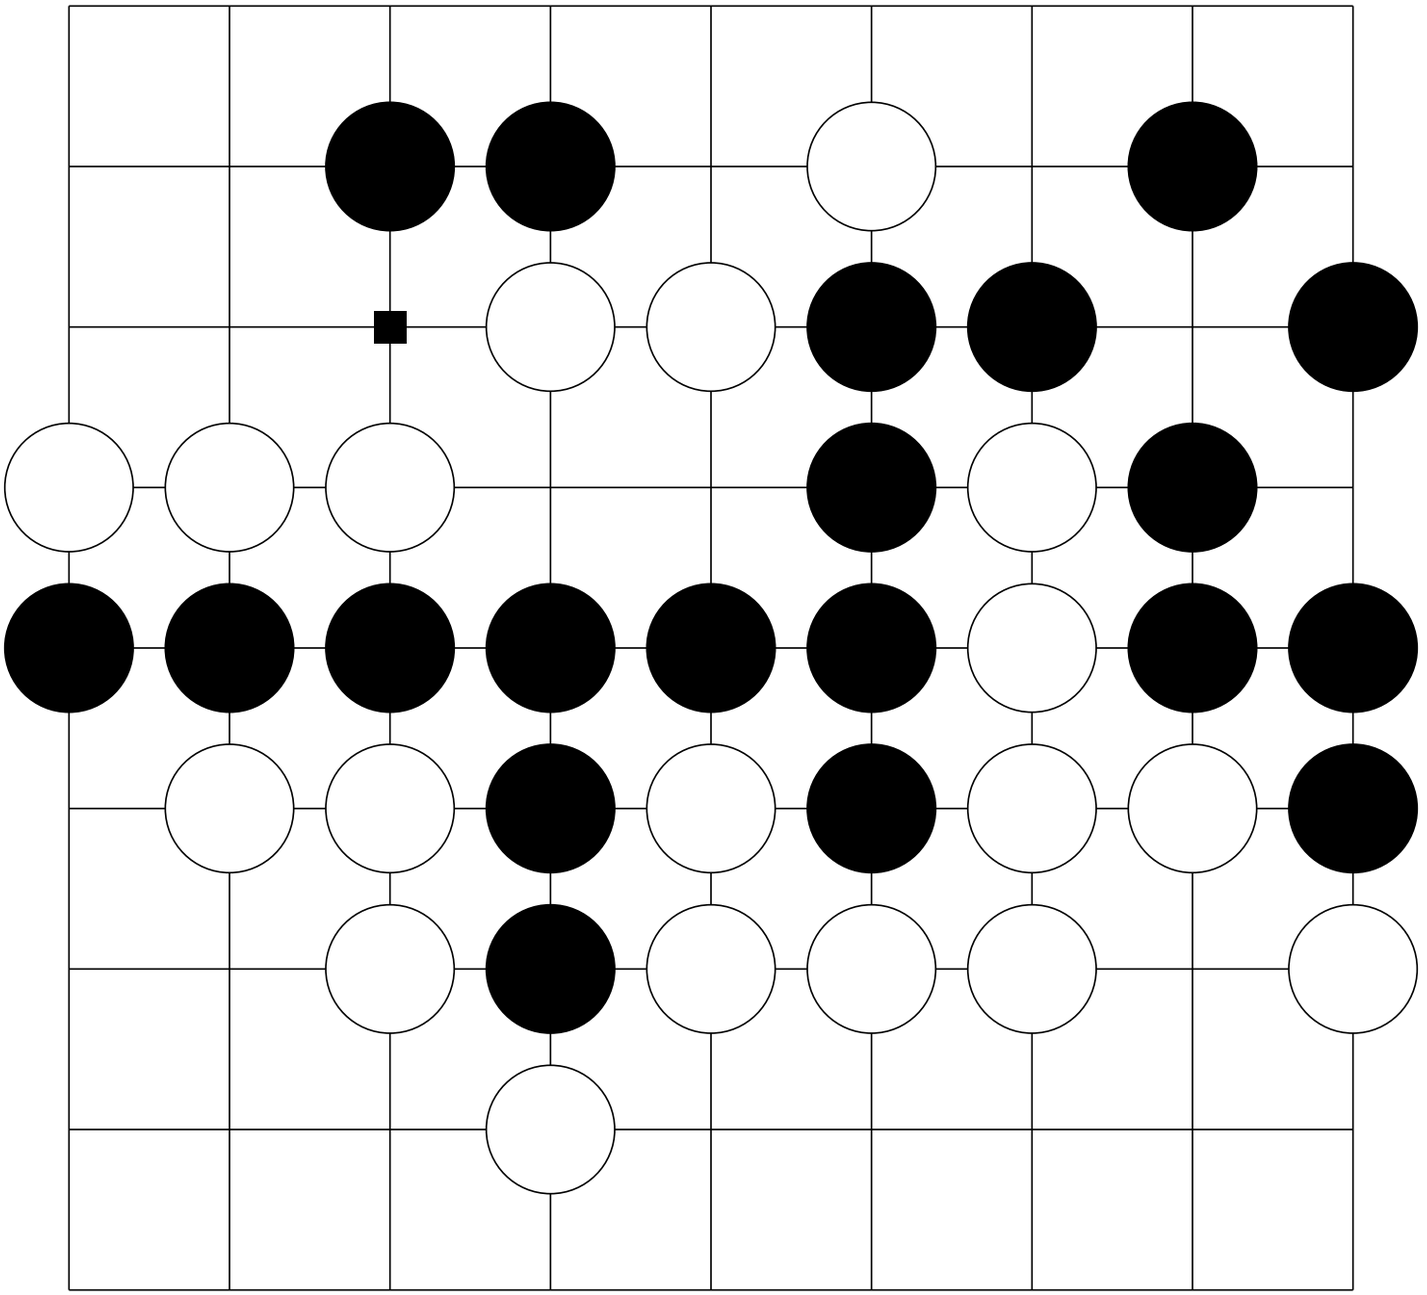


Only possible reply.

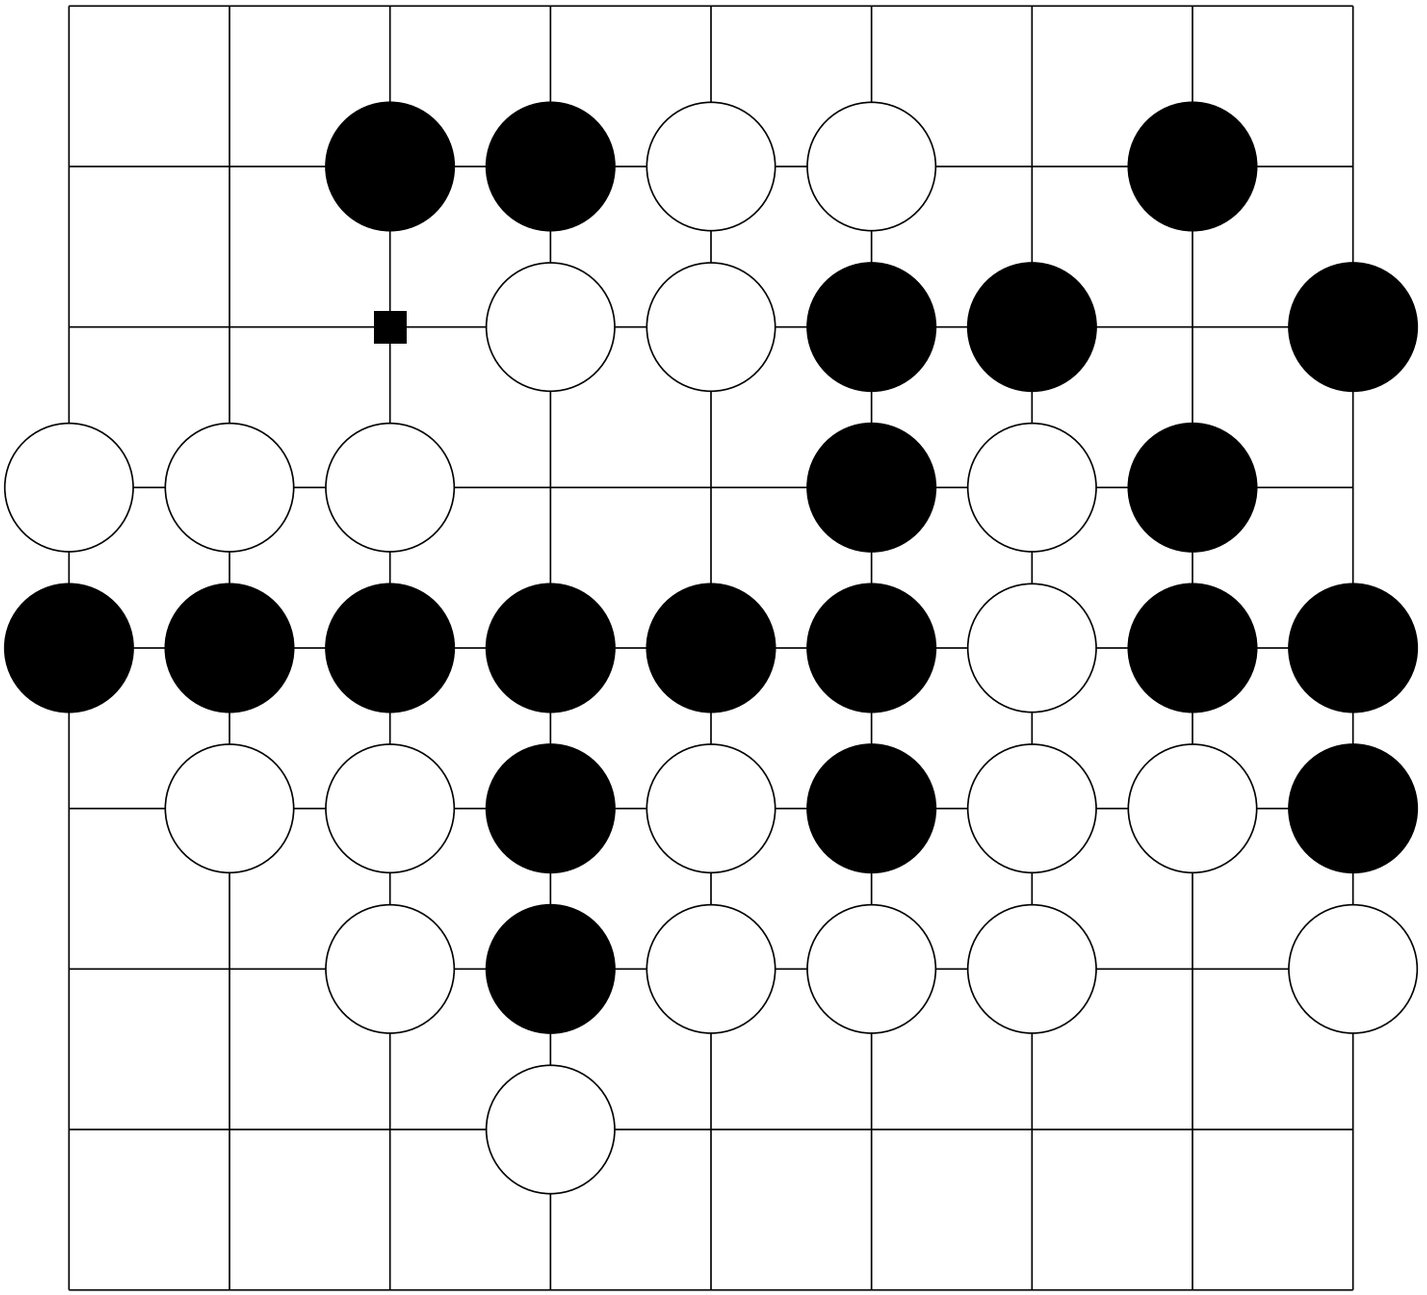




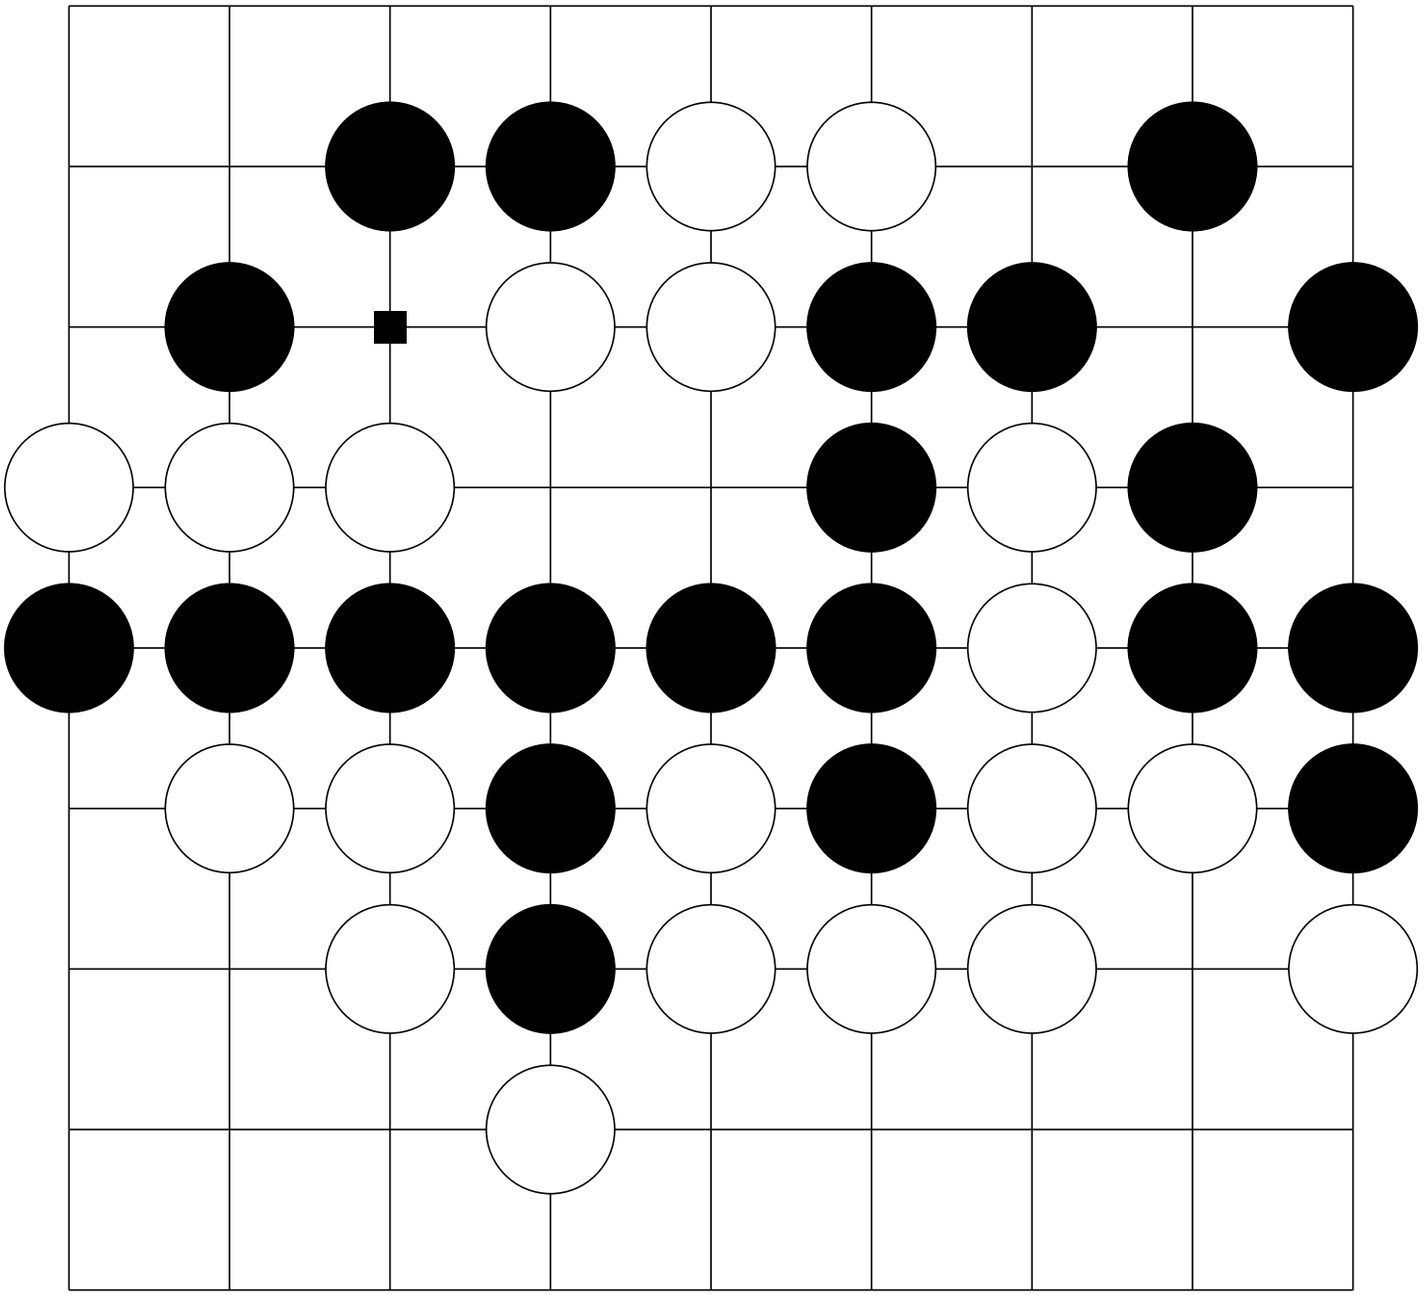




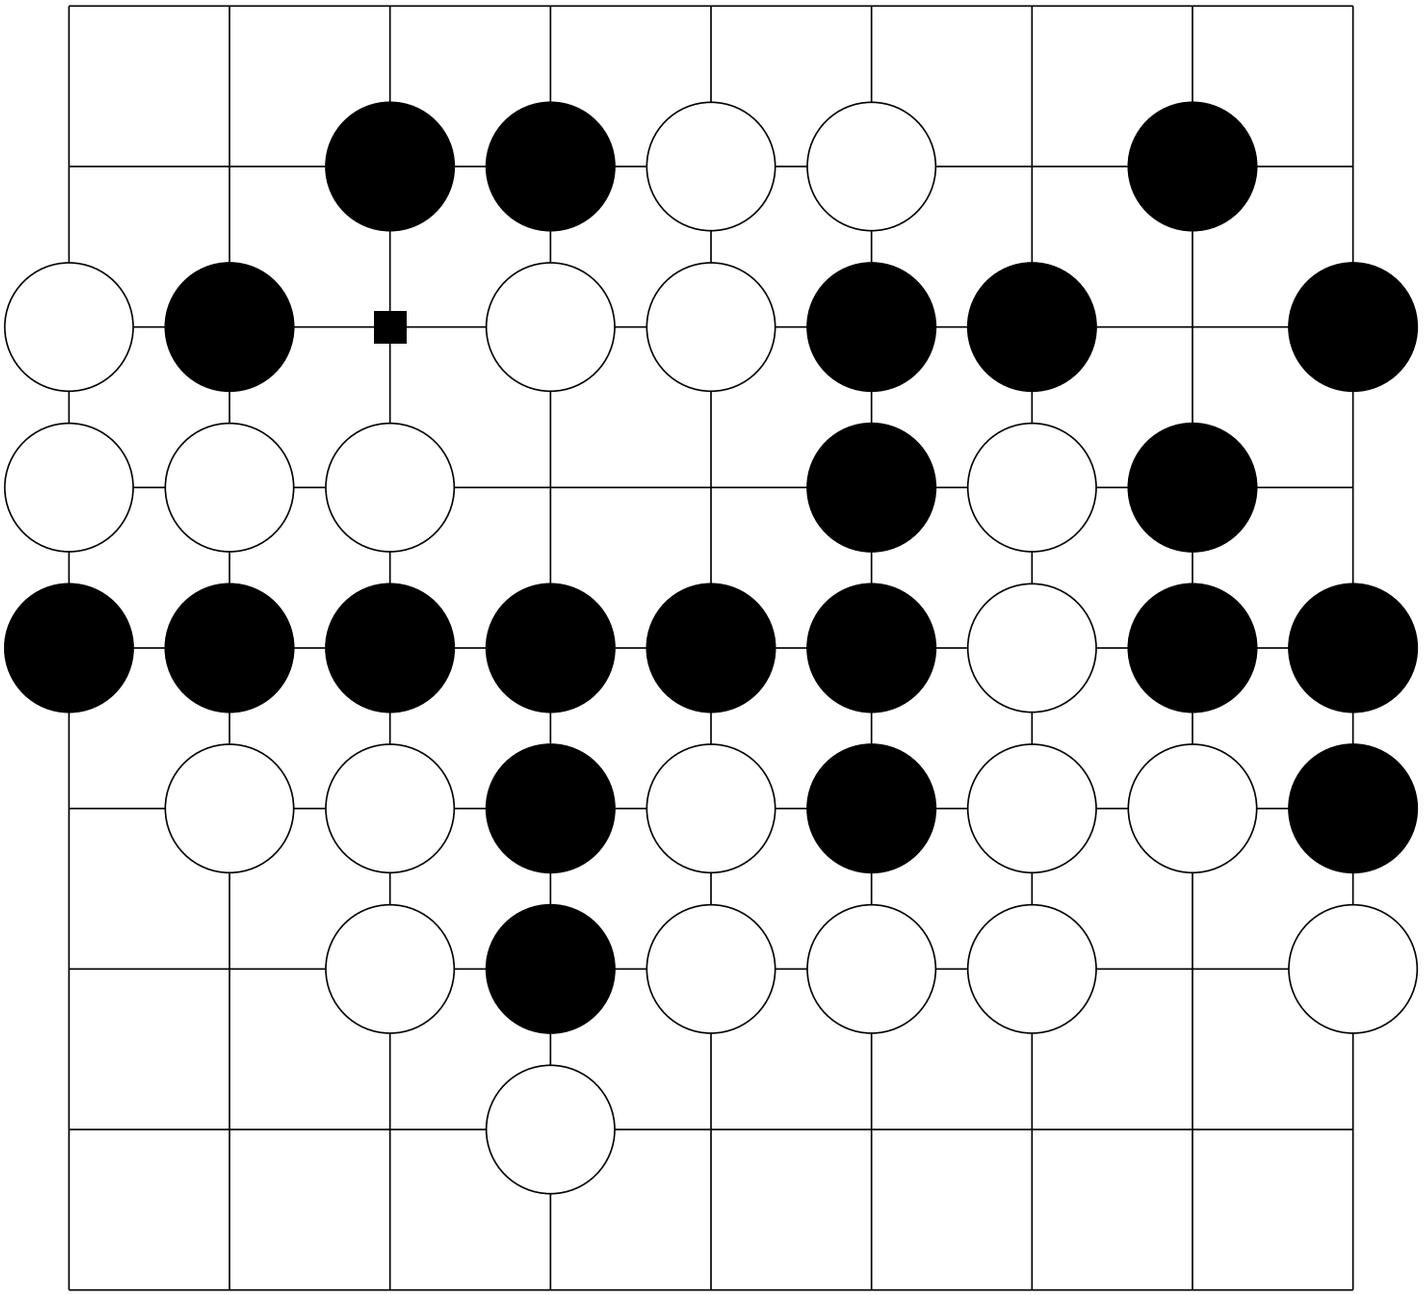
Black contiues with his attack



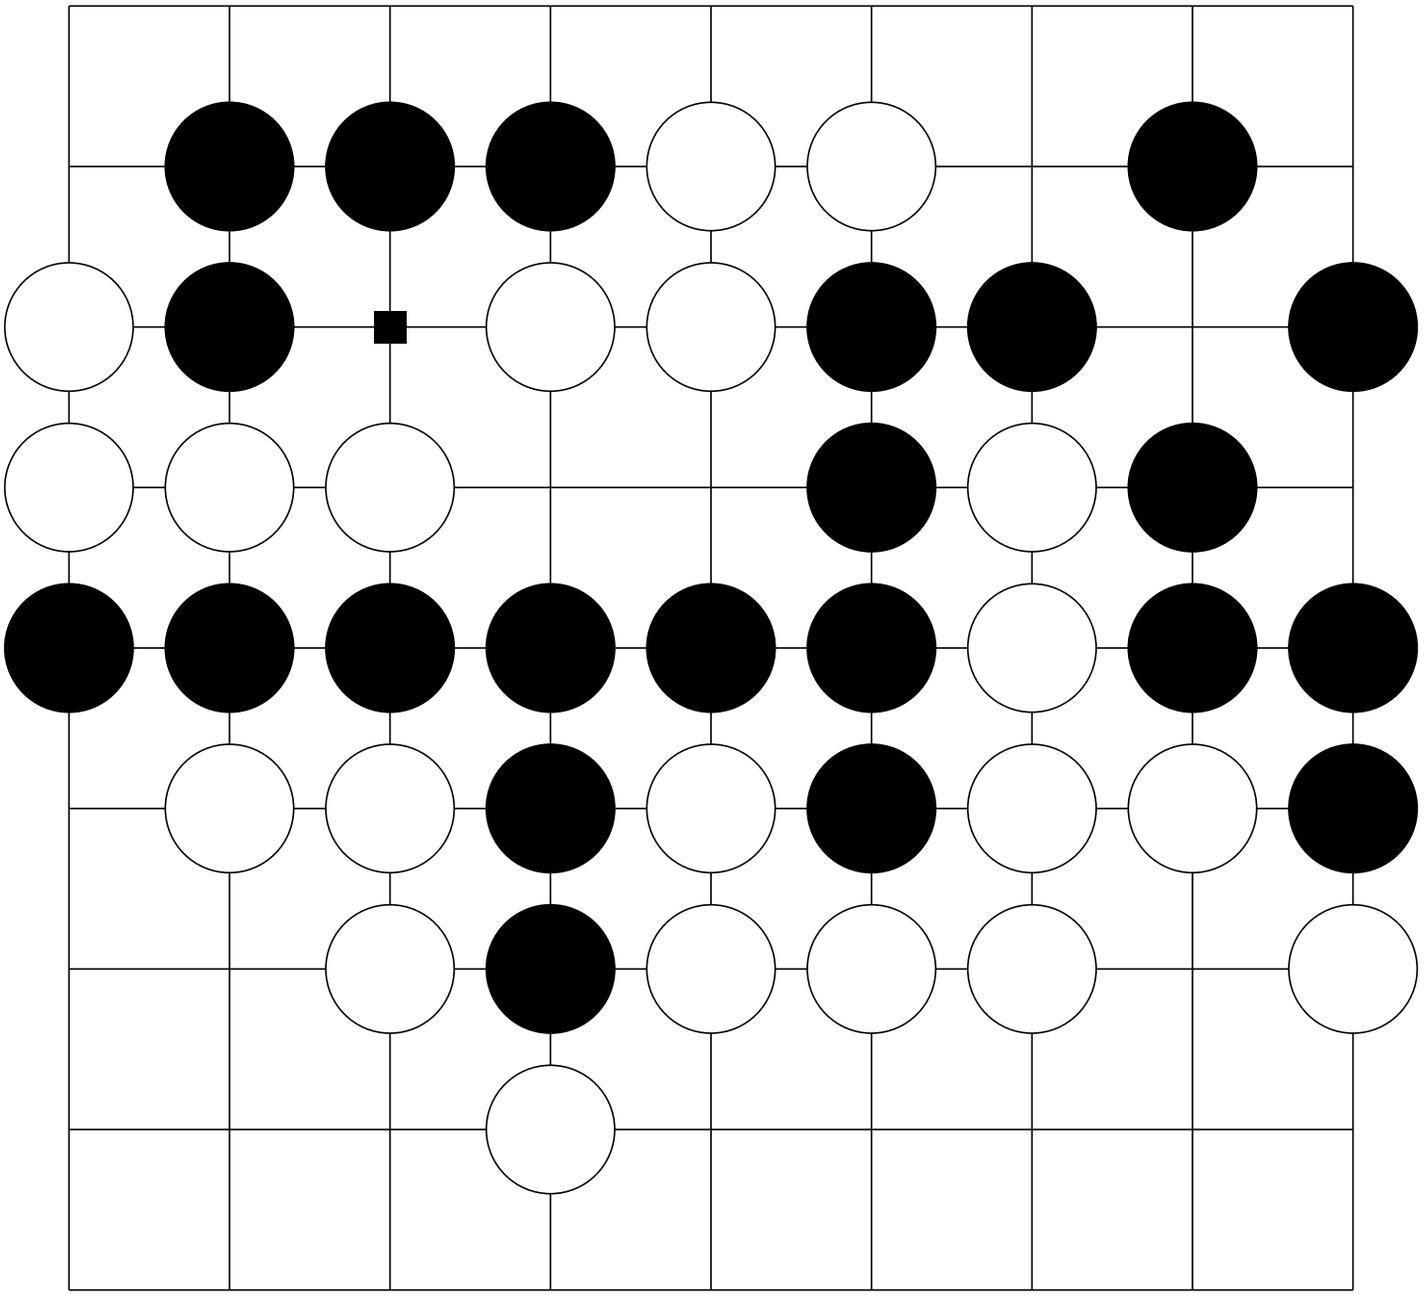
Will this block it?



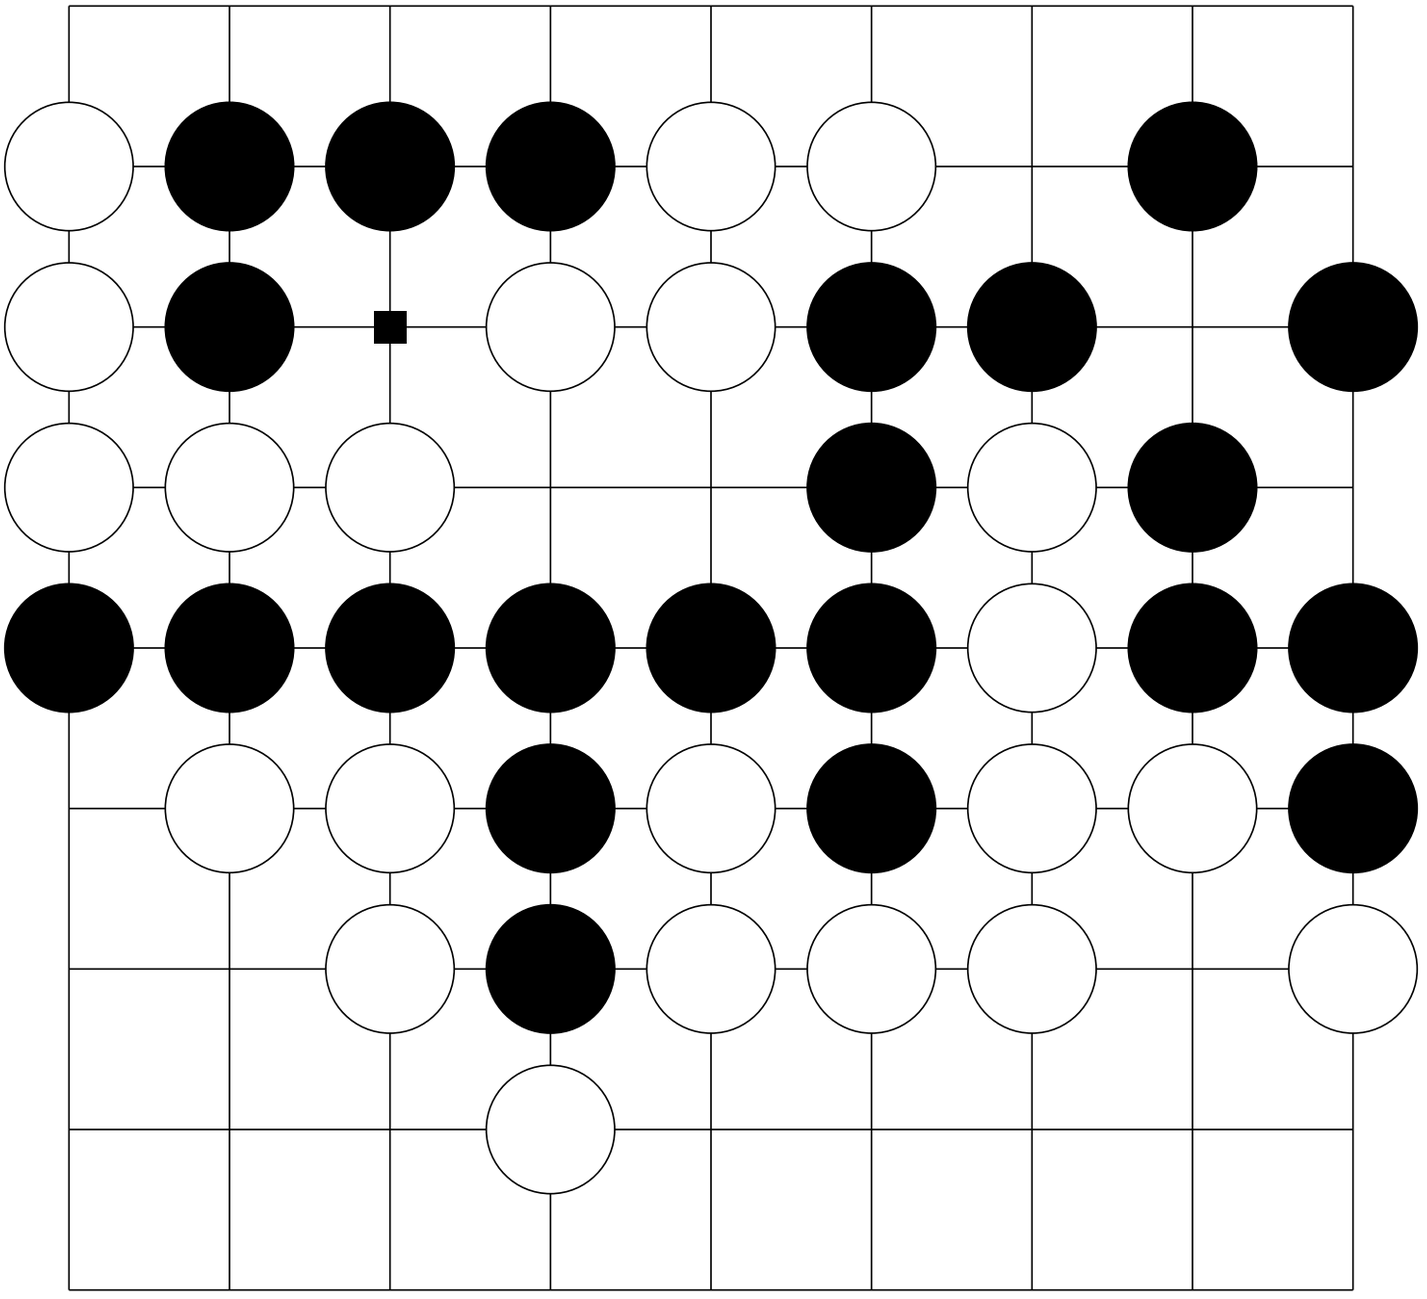
No !



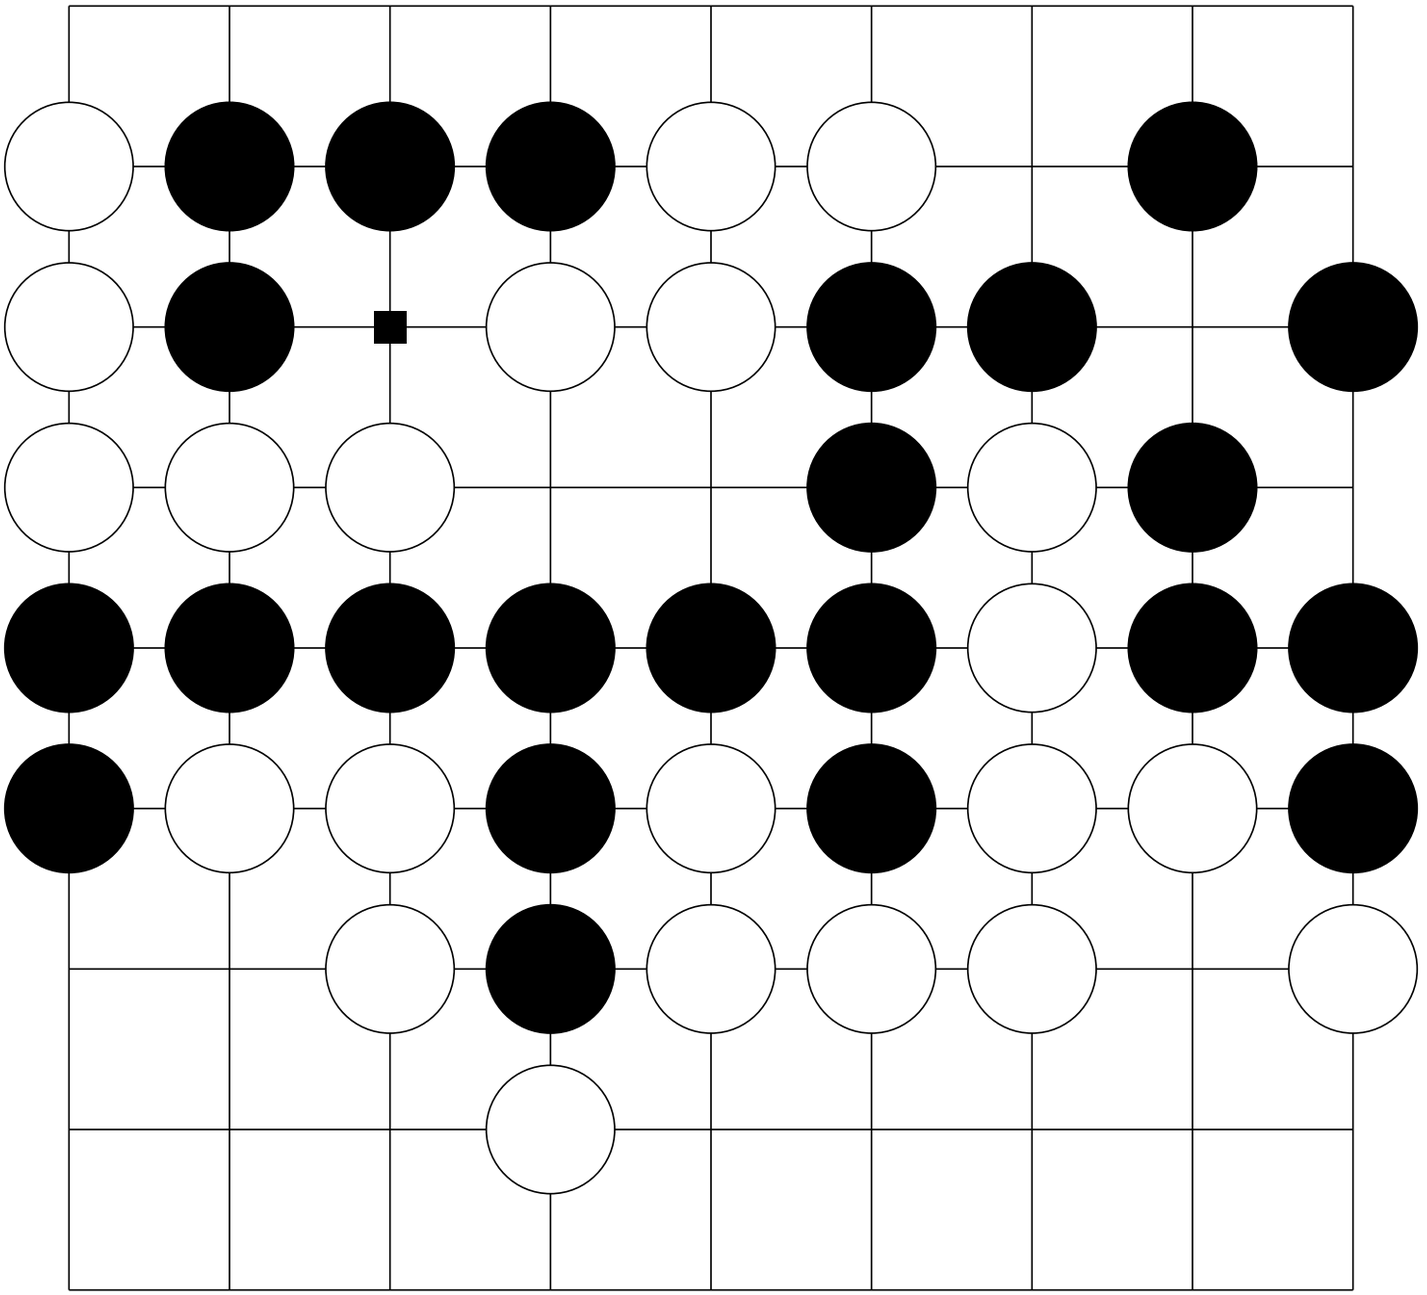
And this?



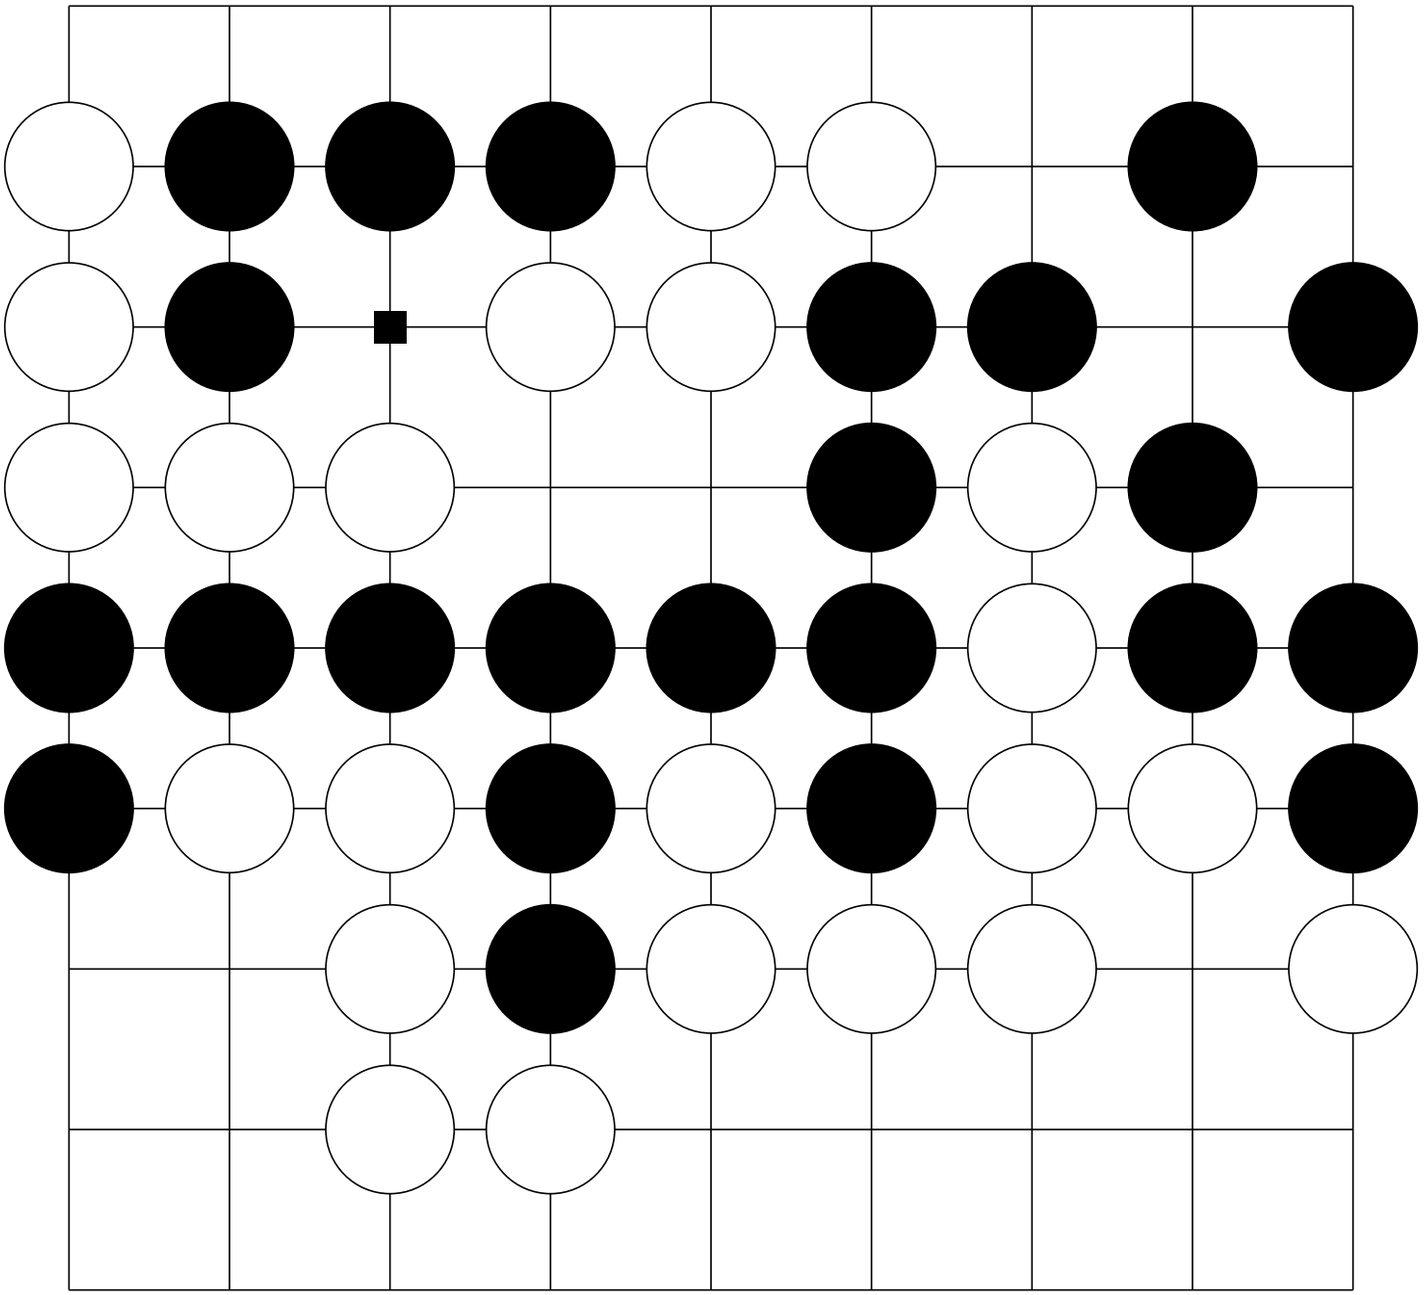
Still thinks it can live

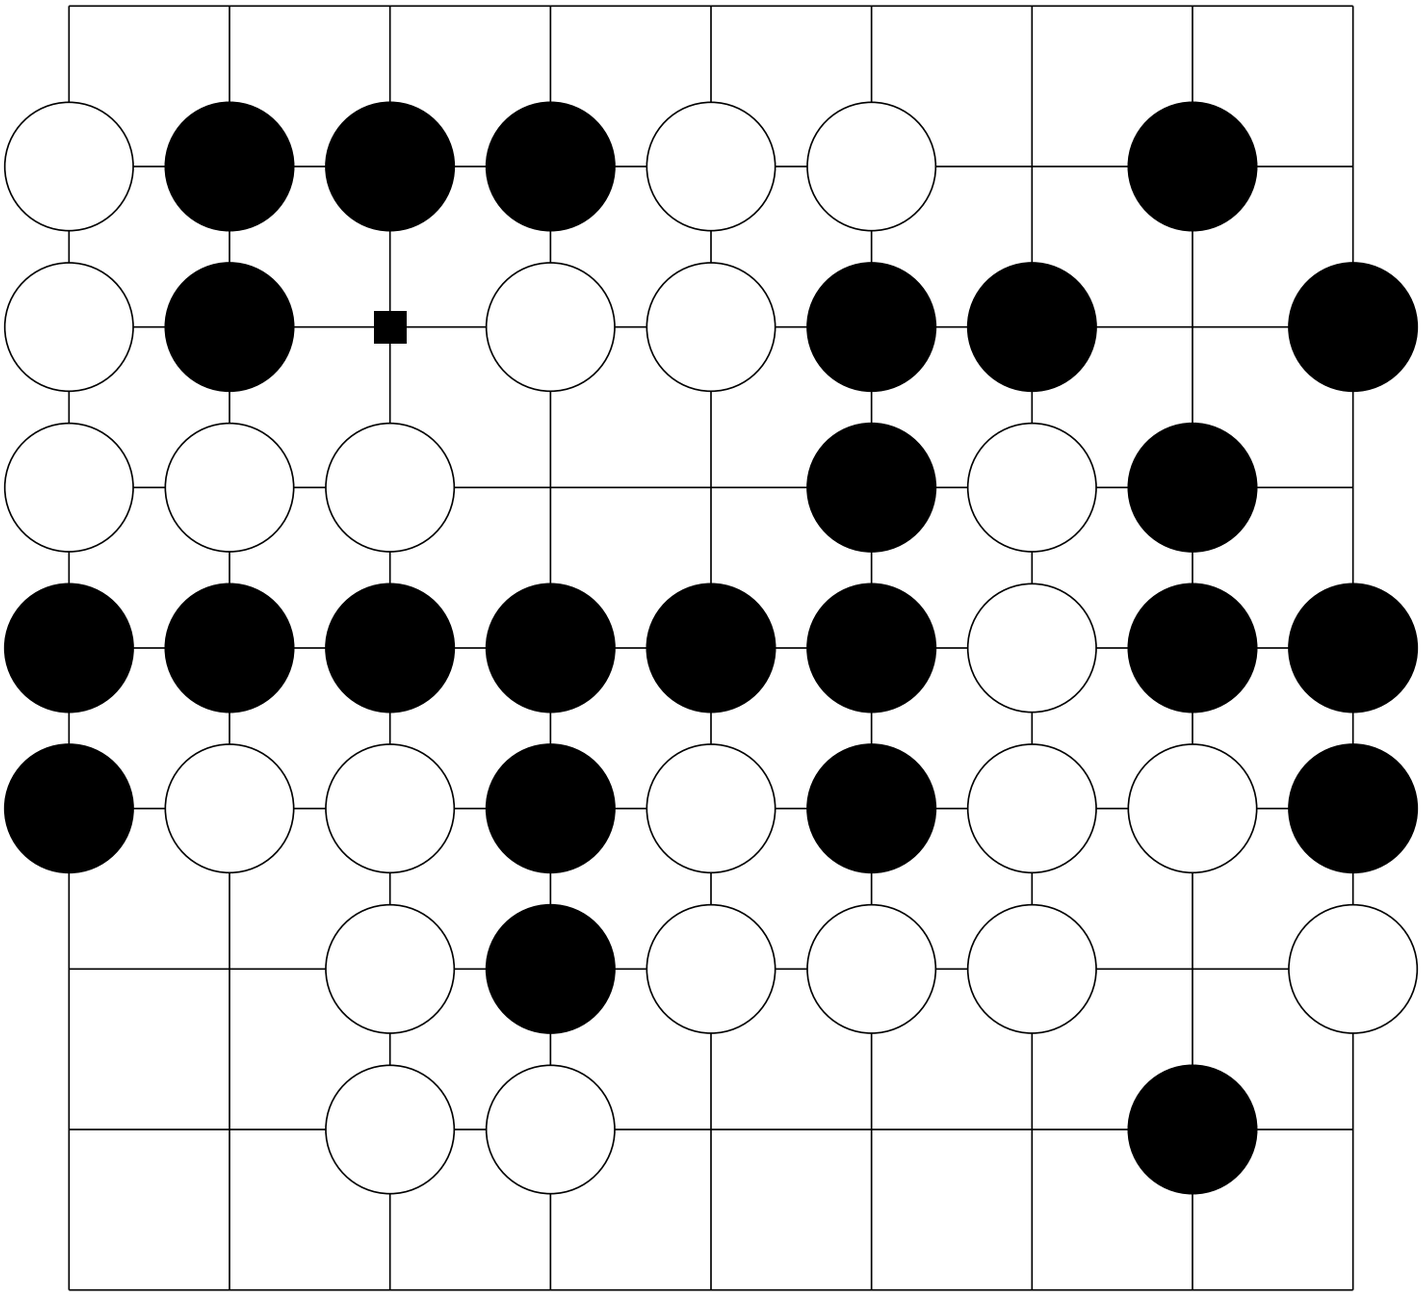


Increase pressure

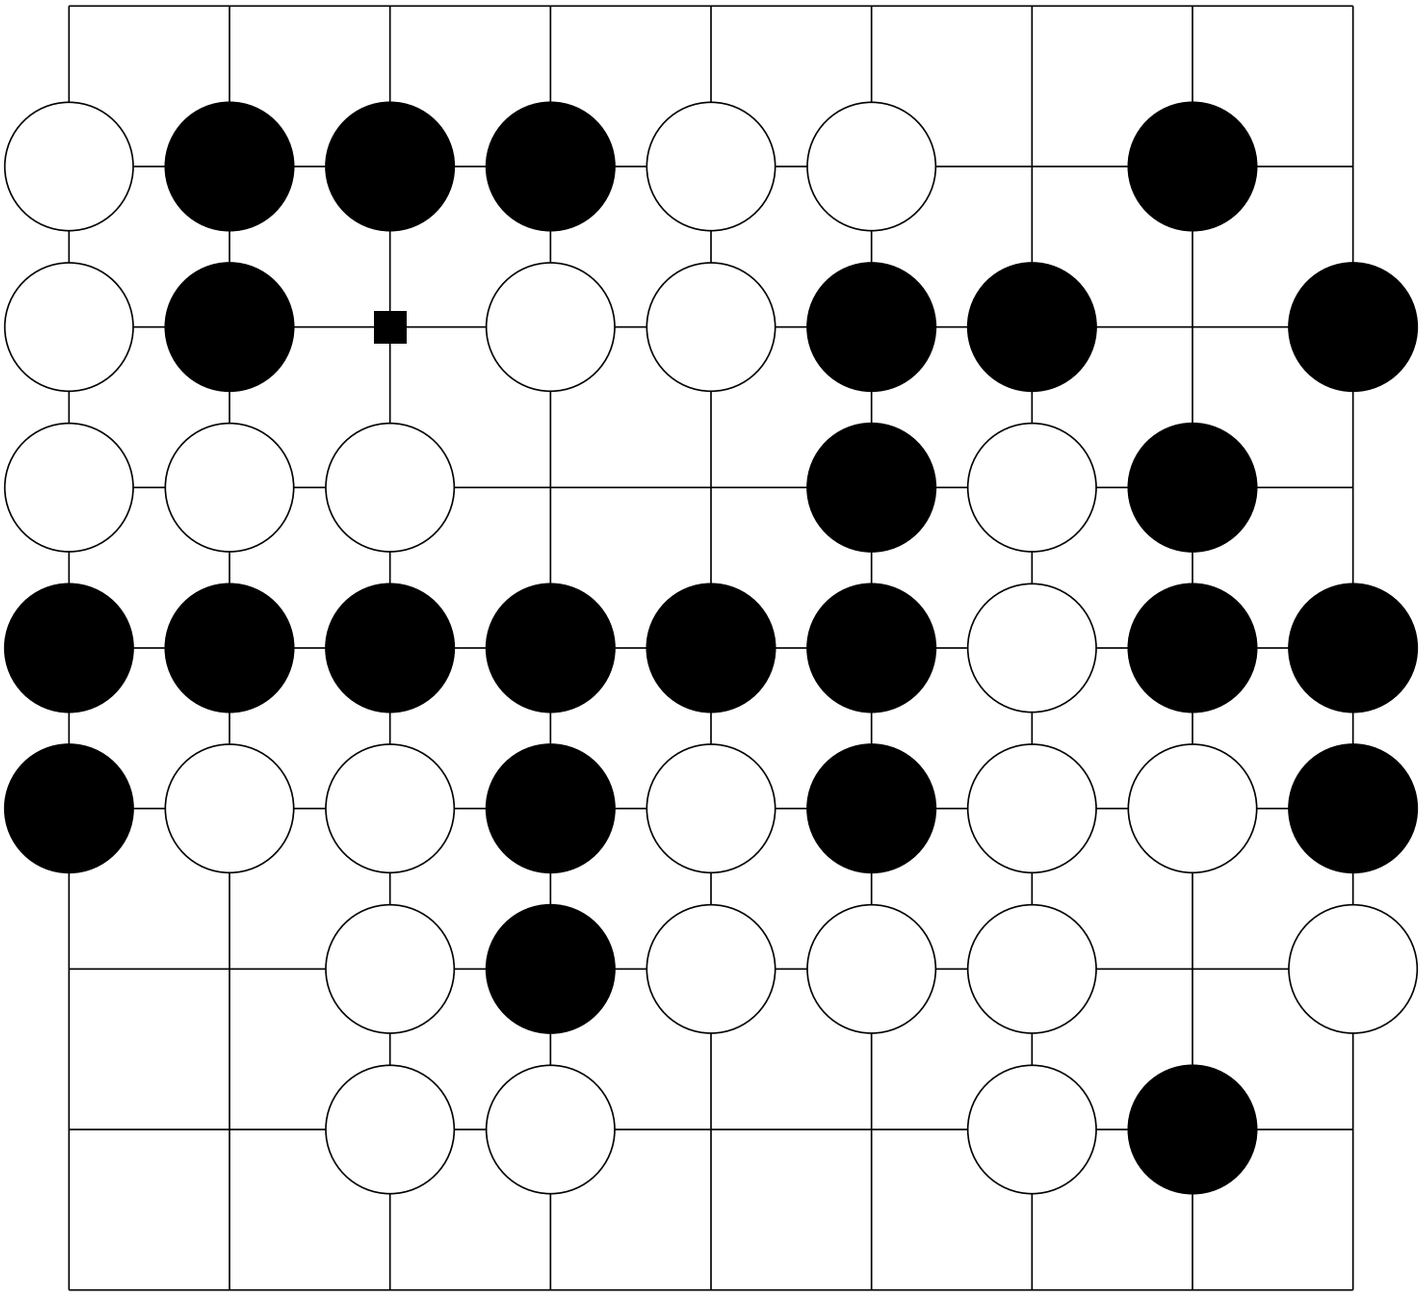


This is what I had expected

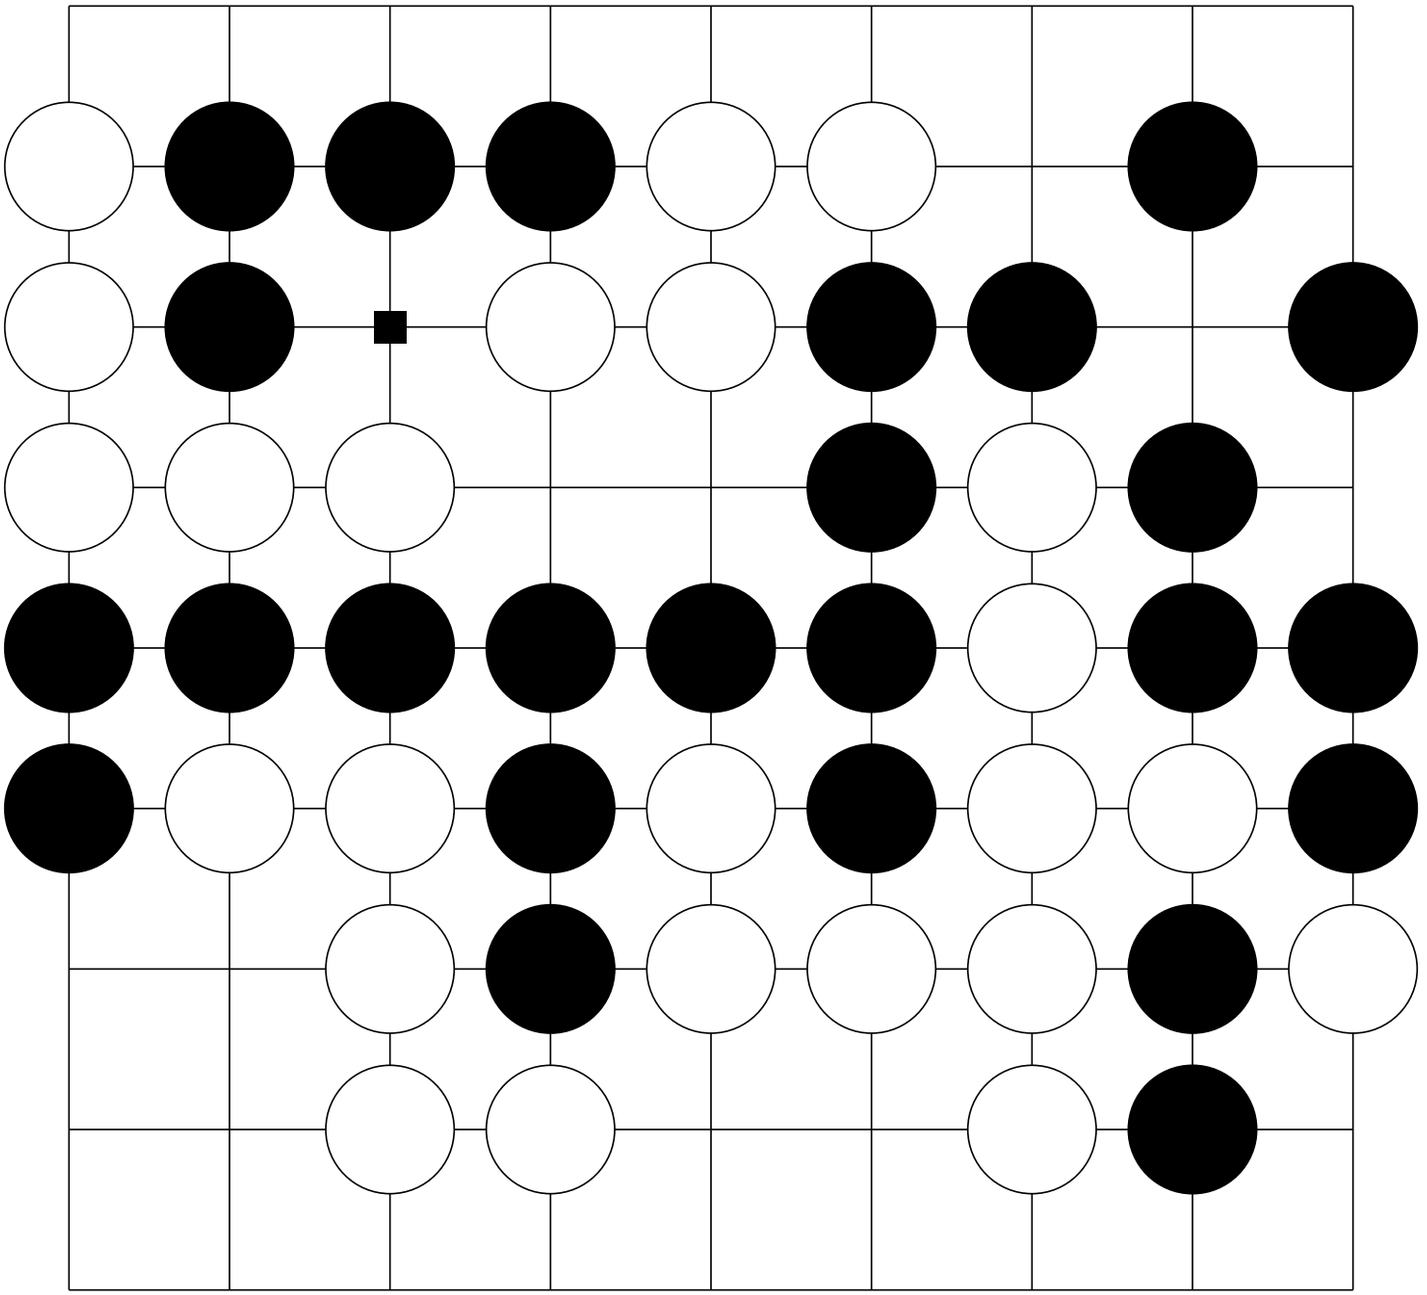




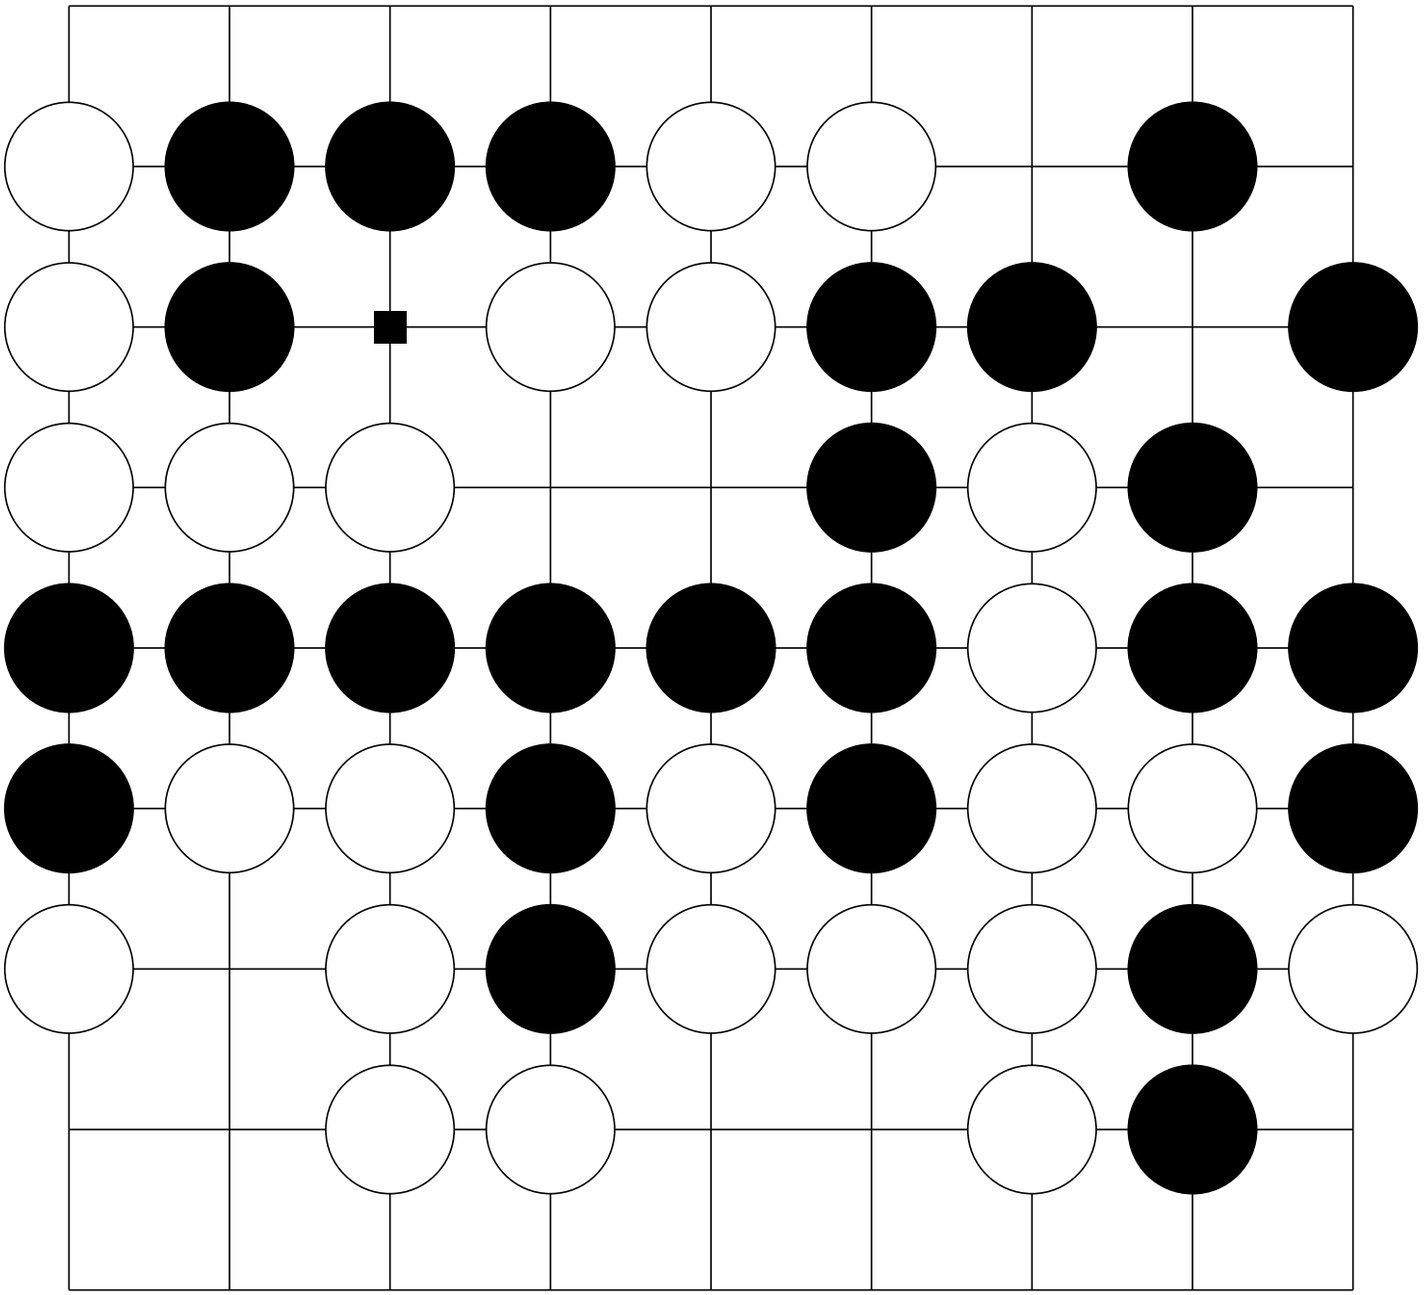
Another intrussion



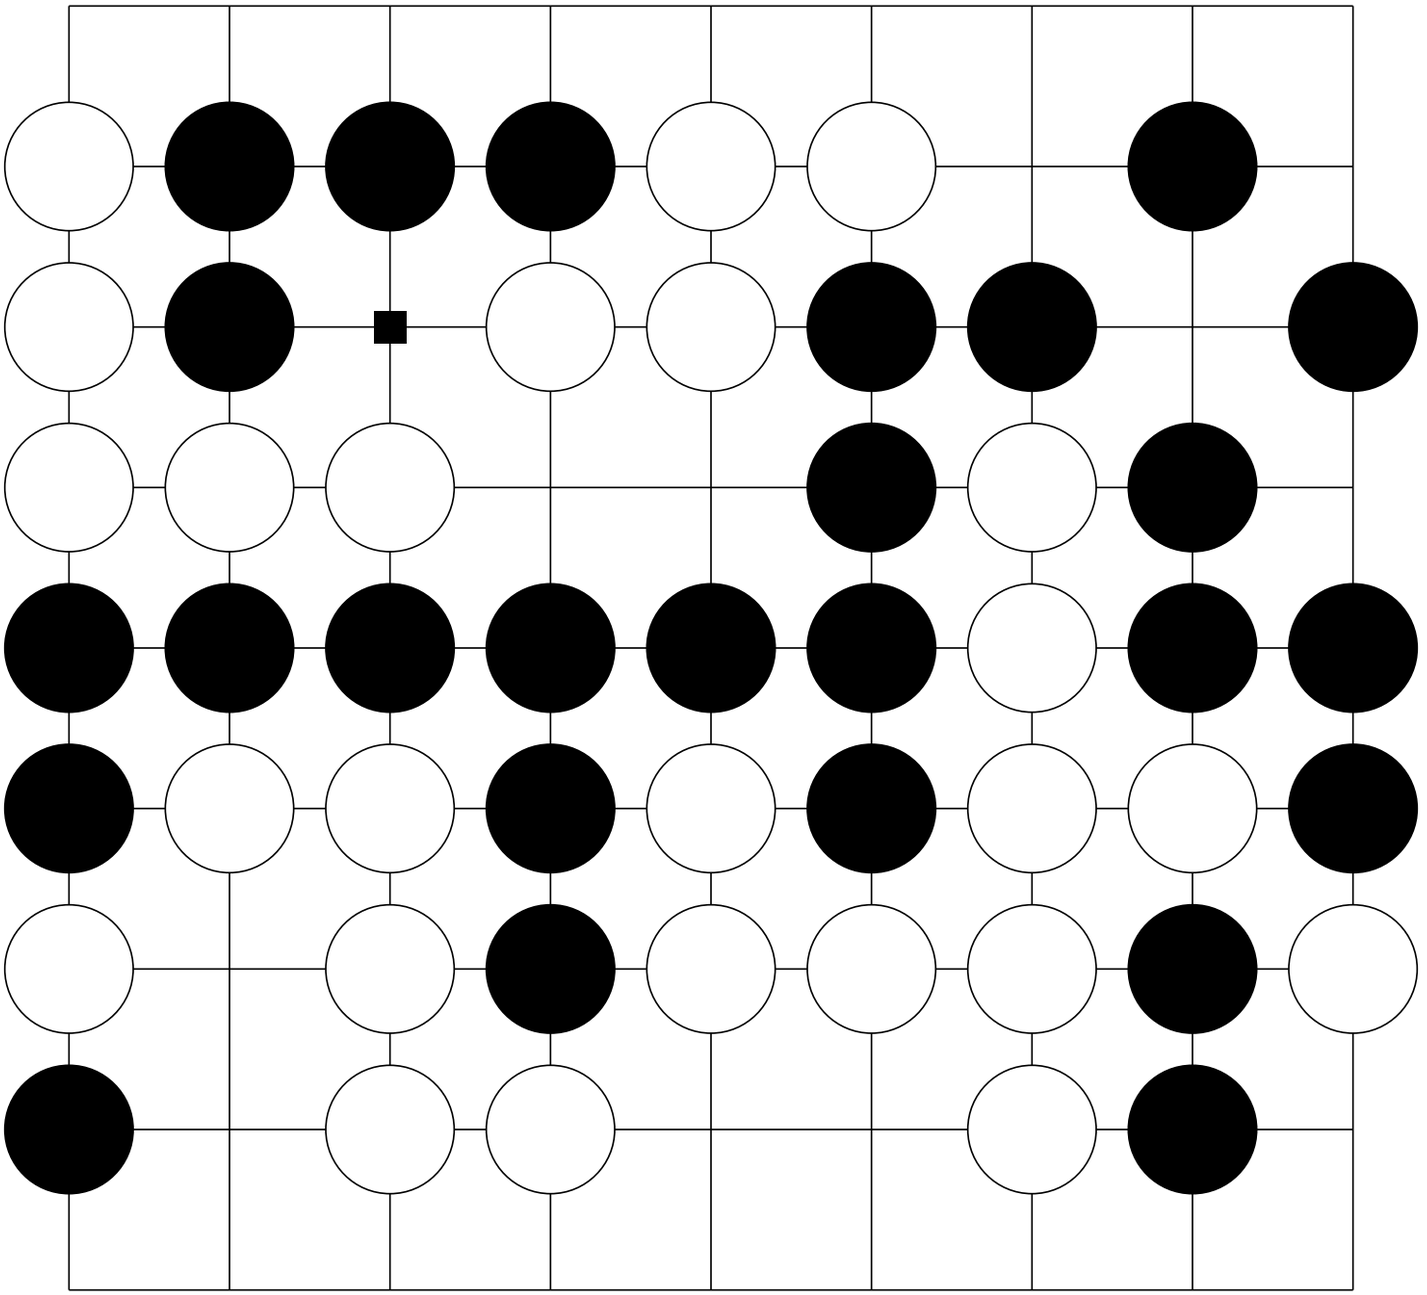
Safest defence



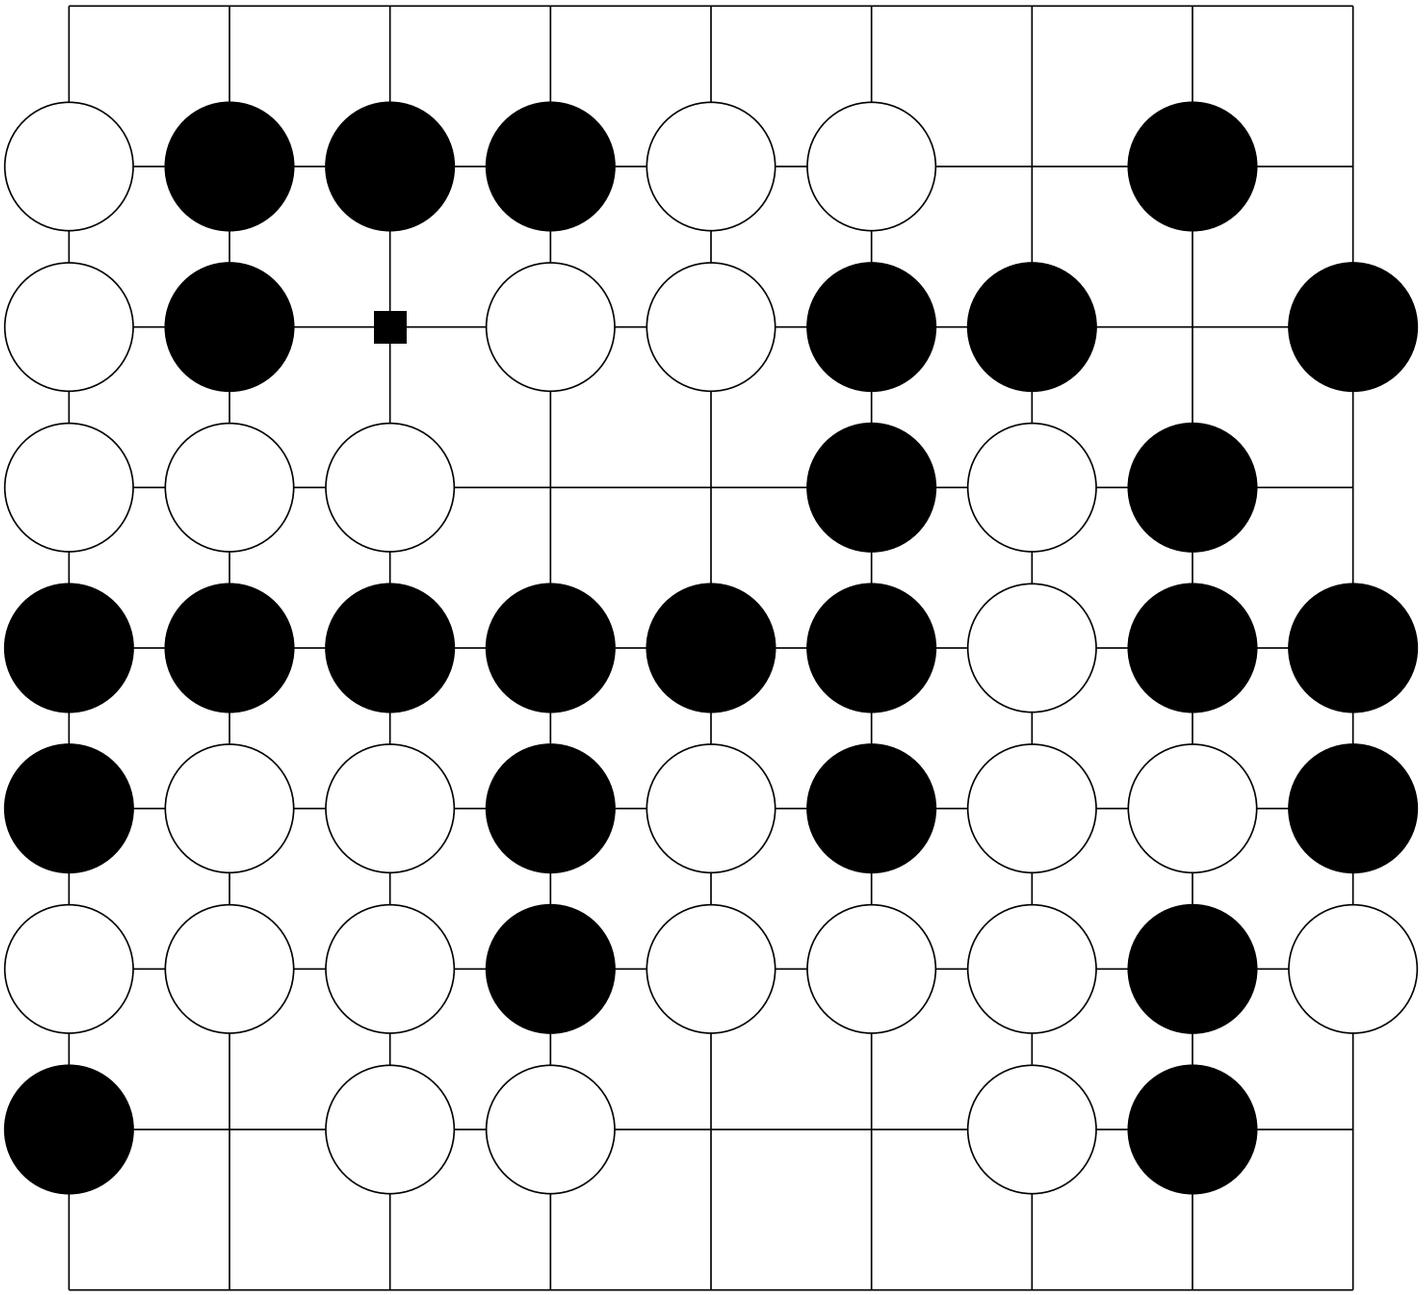
Oh, I am going to loss more



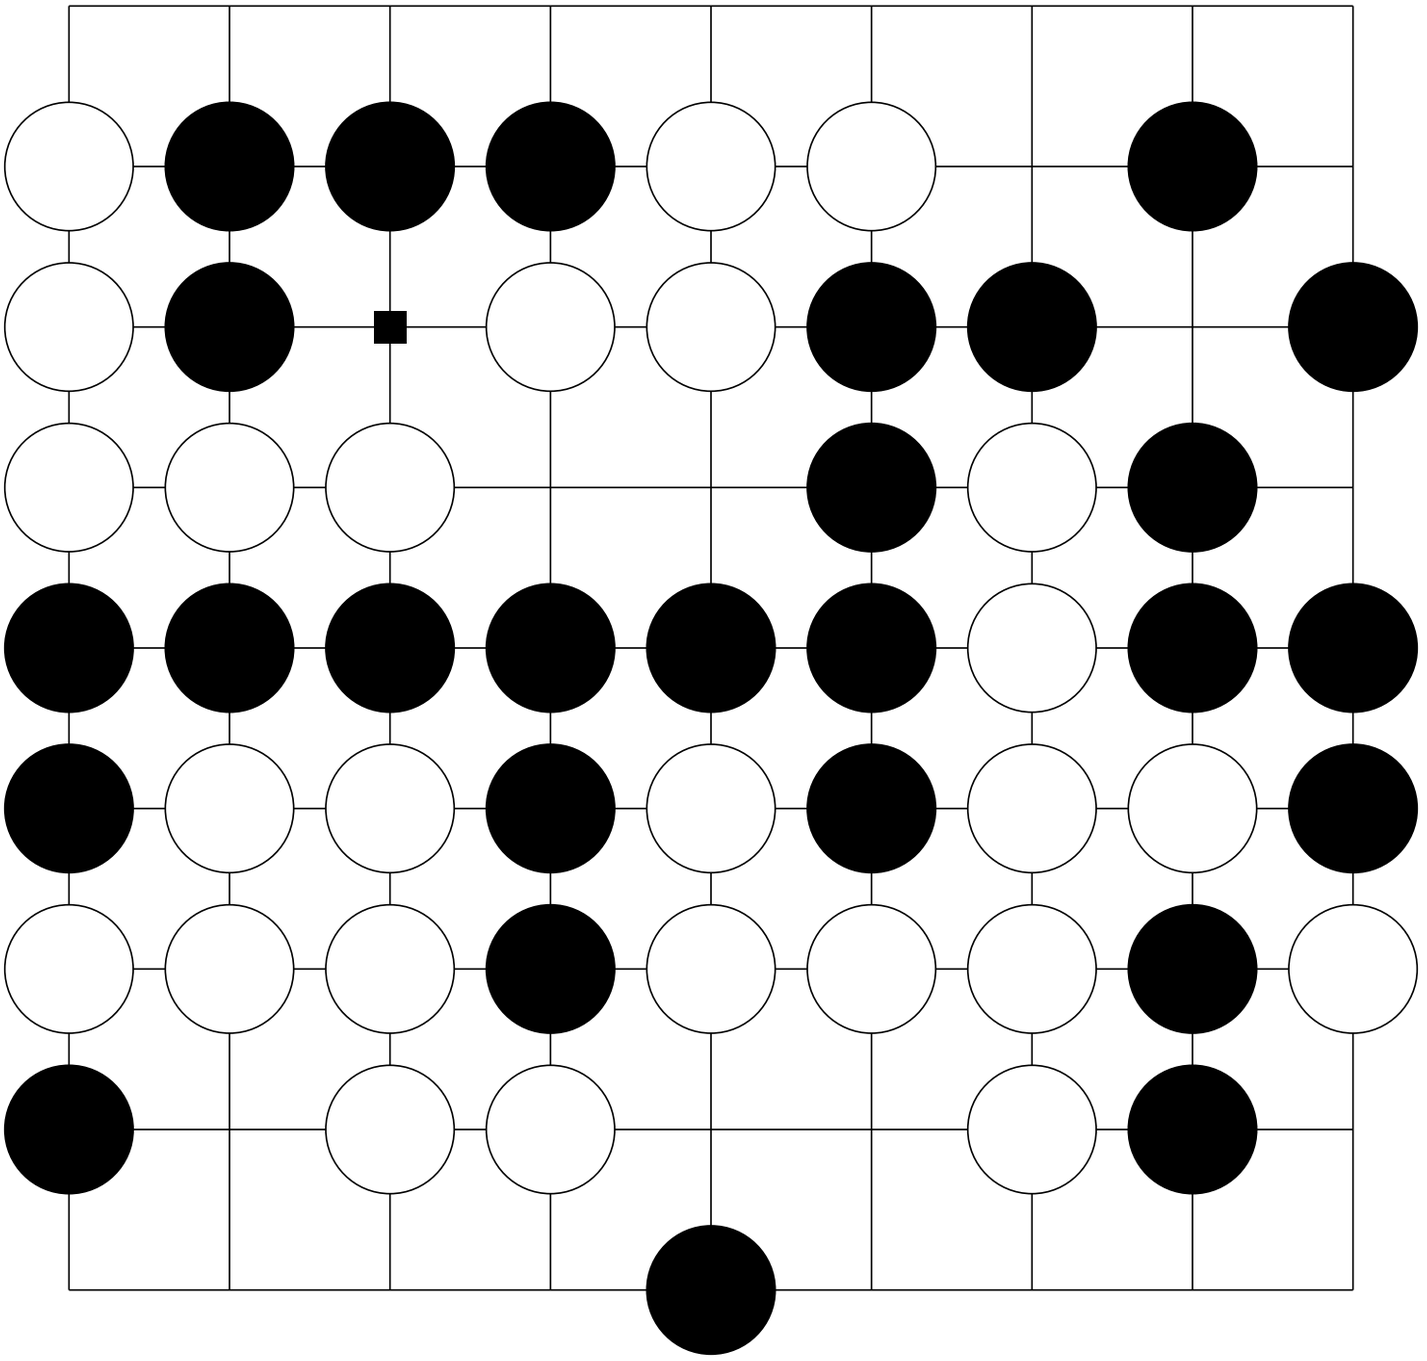
Lets close it here



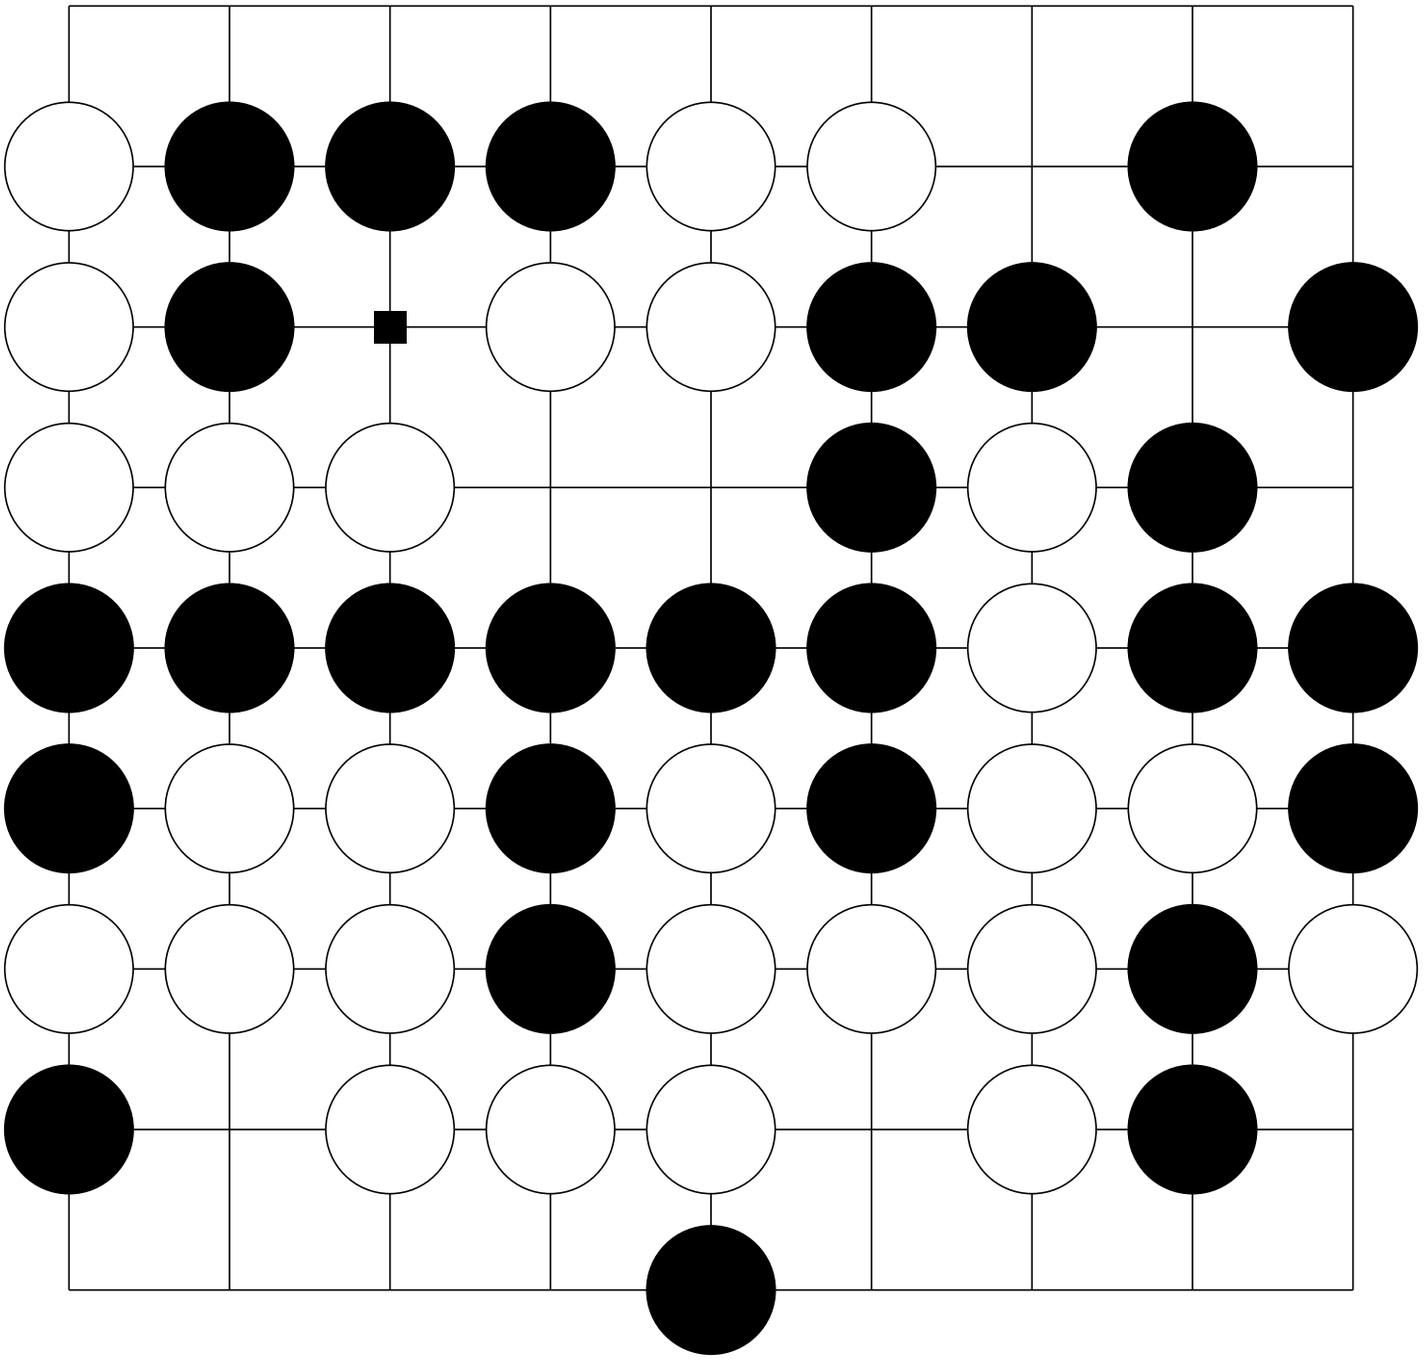
I often don’t get this right



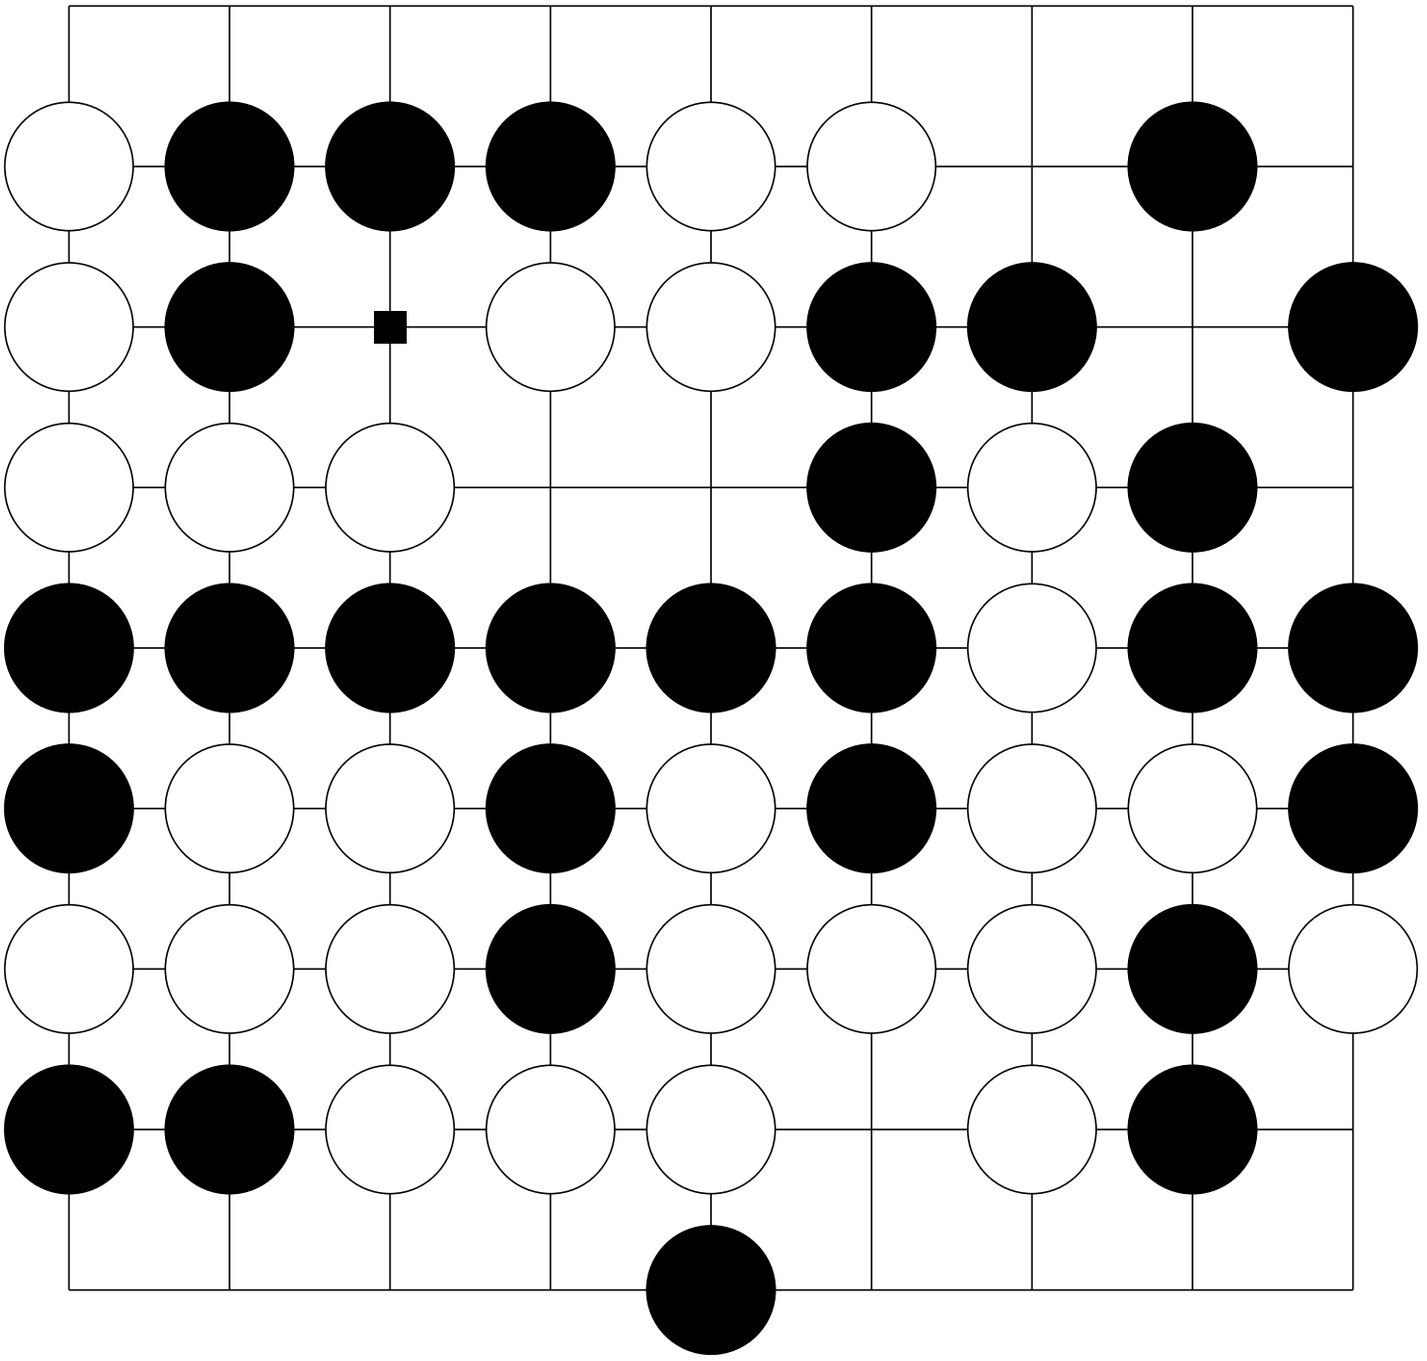
But now it is closed



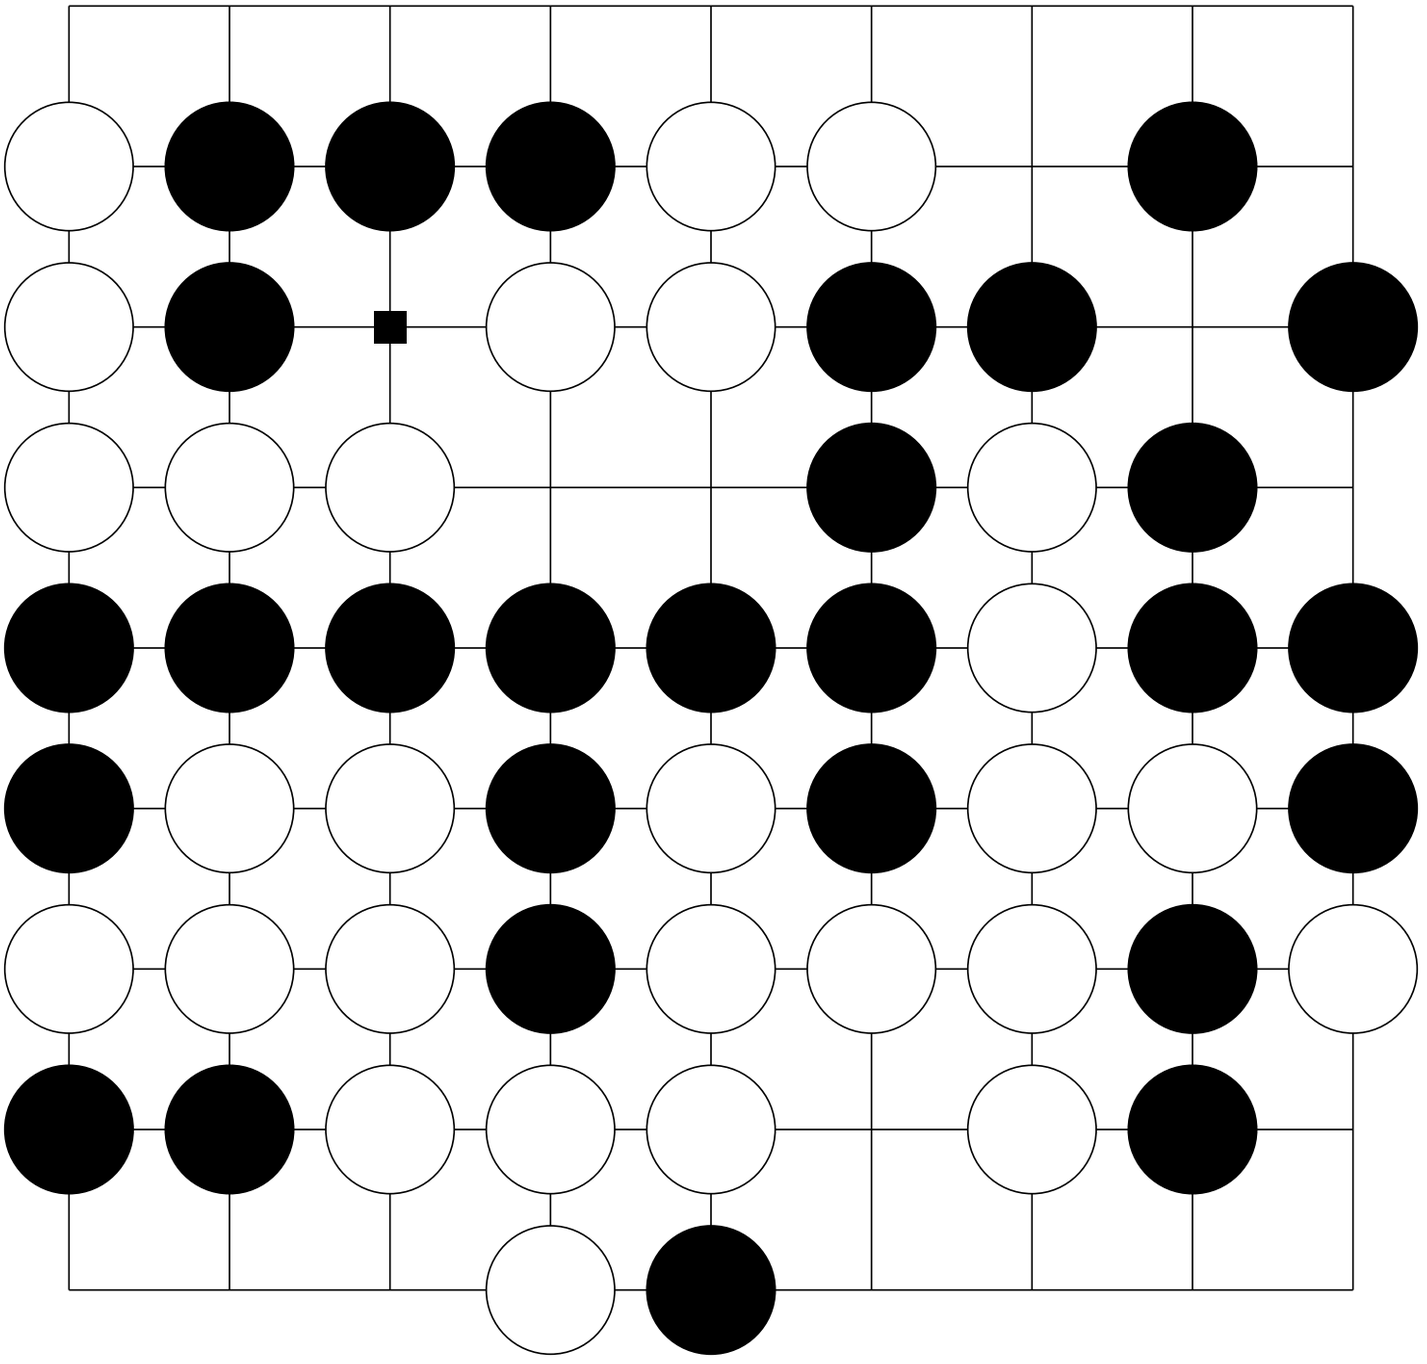
Another intrussion ??



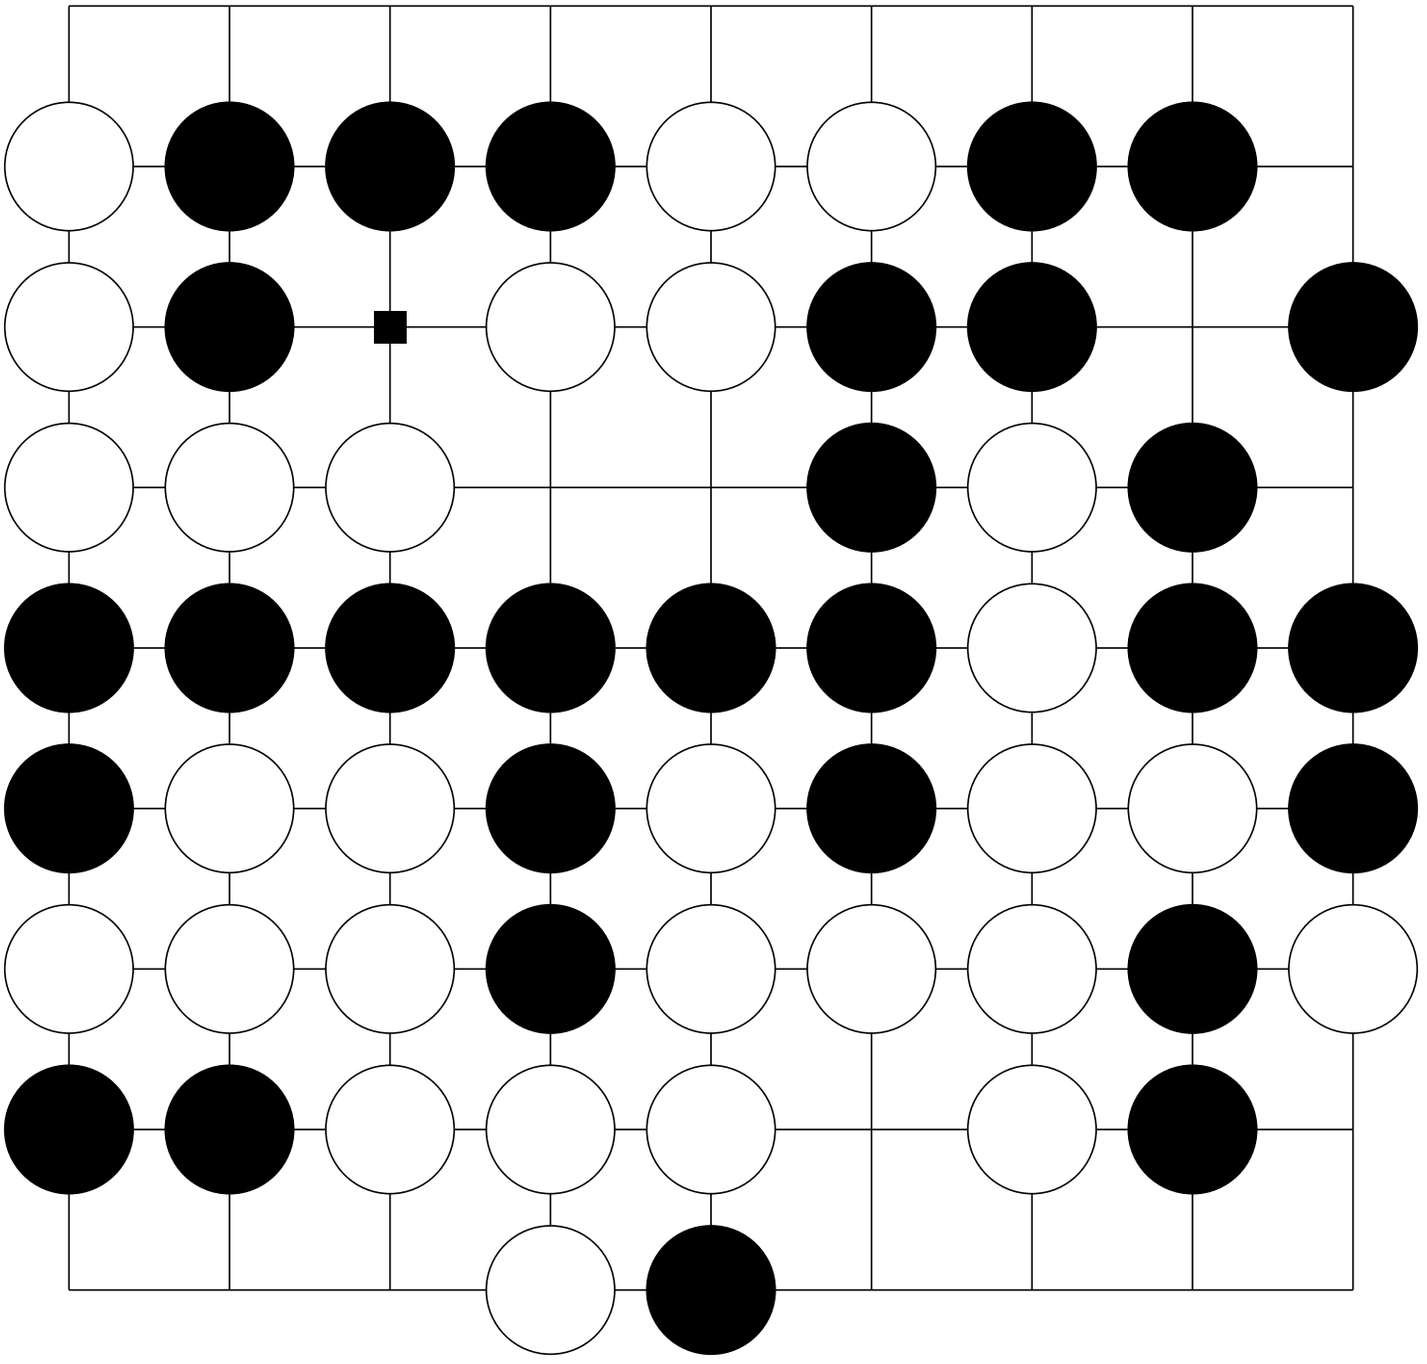
Close this hole now



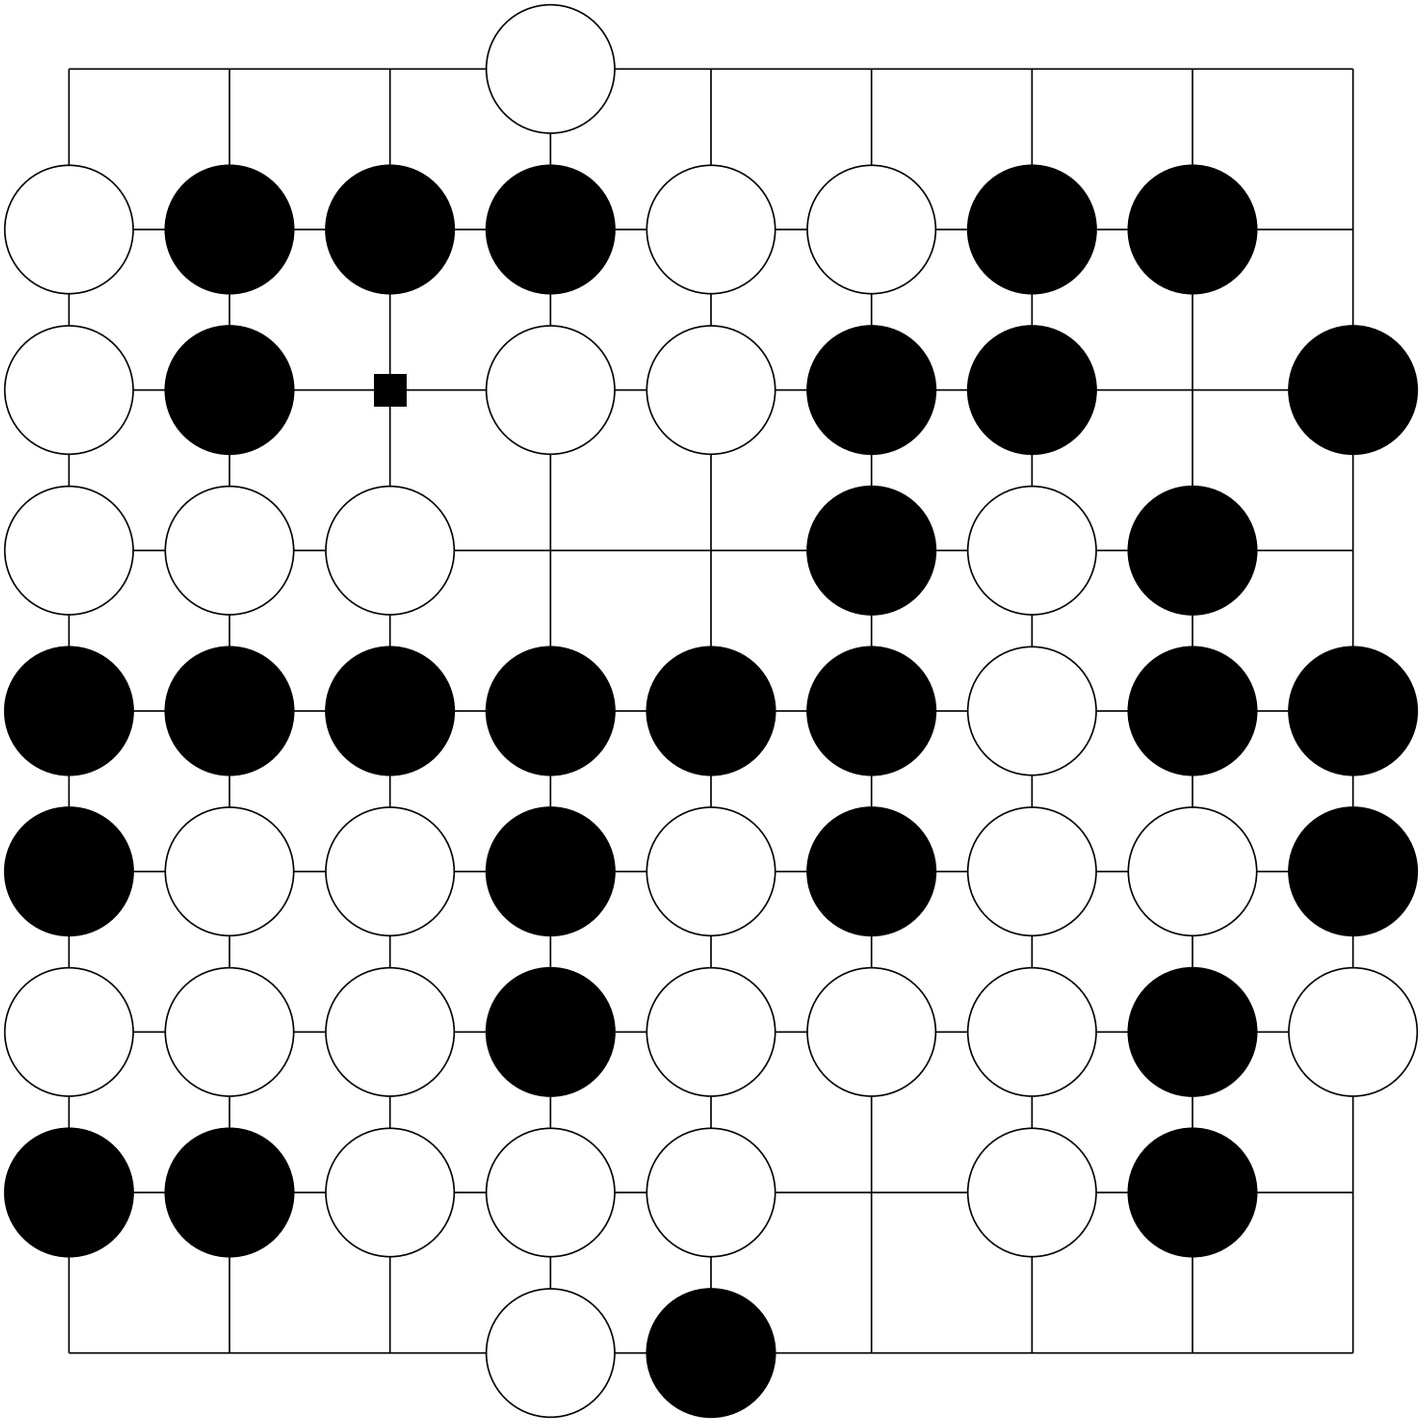
What is this?

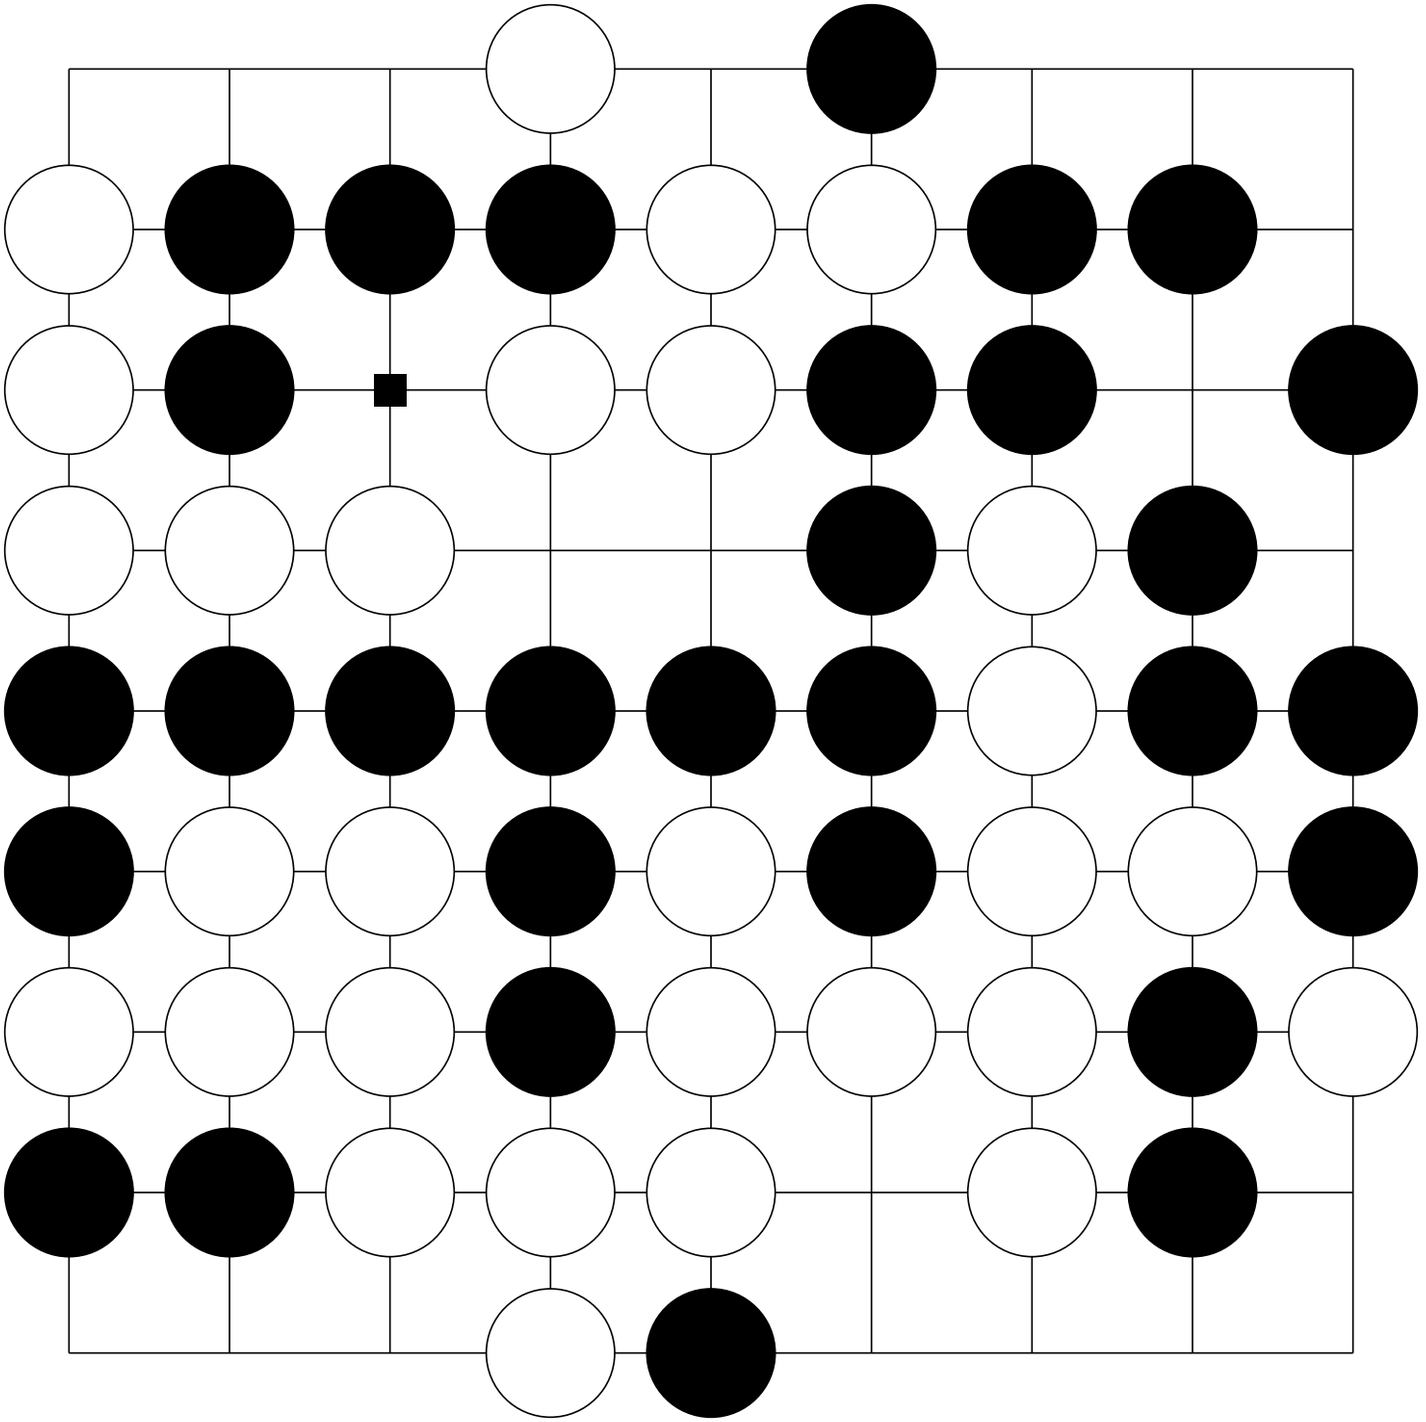


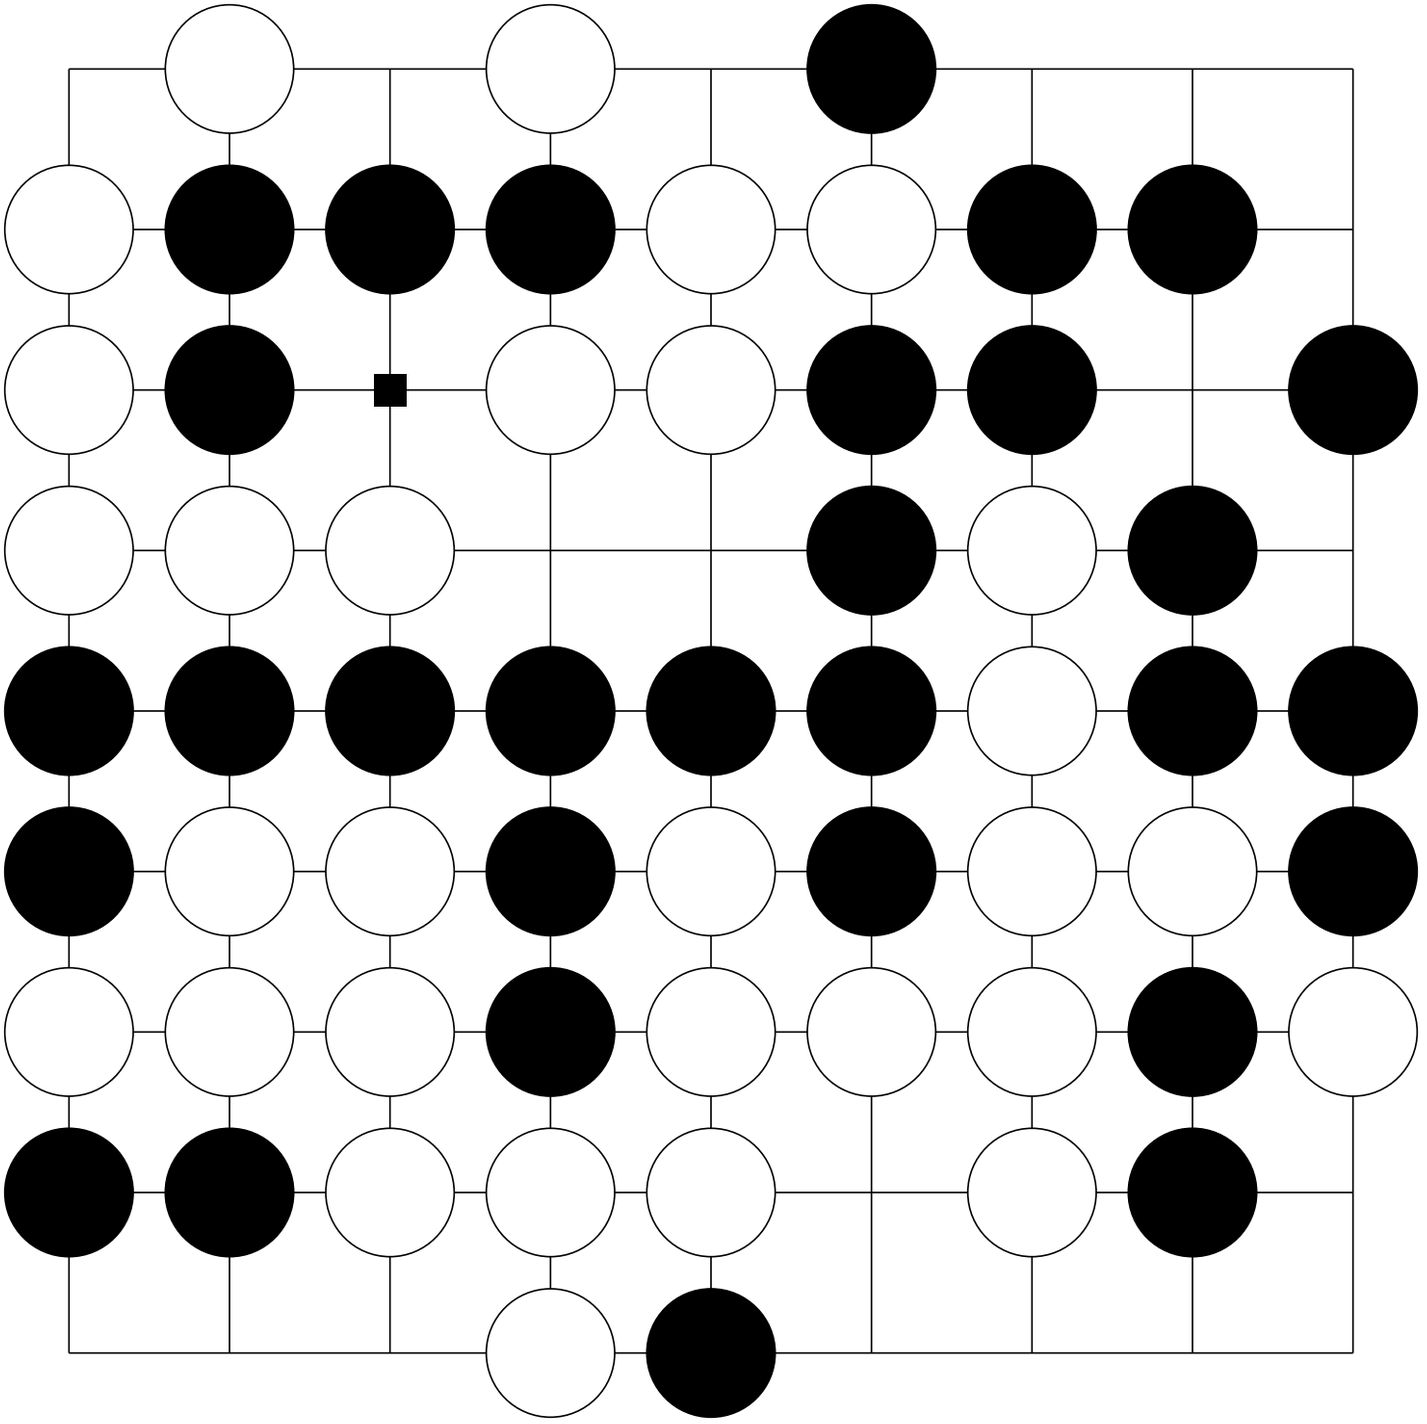
Now it has two eyes

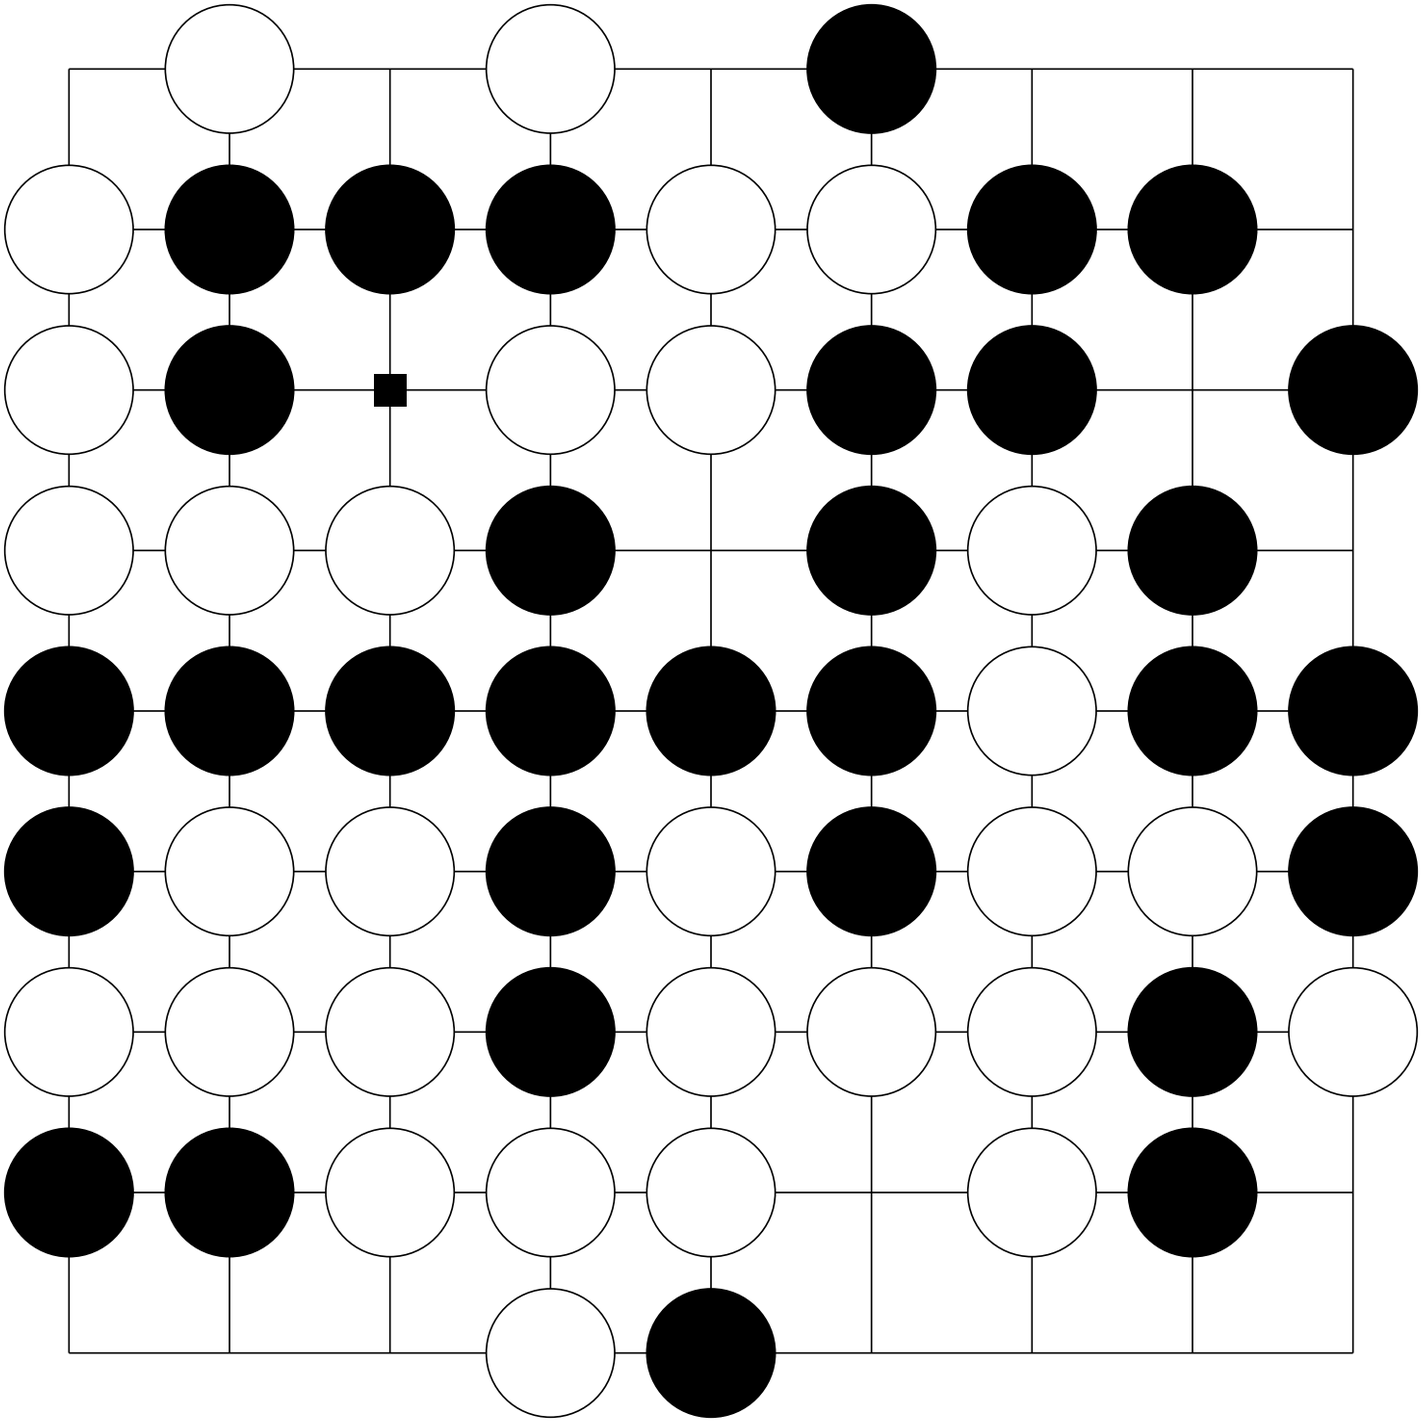


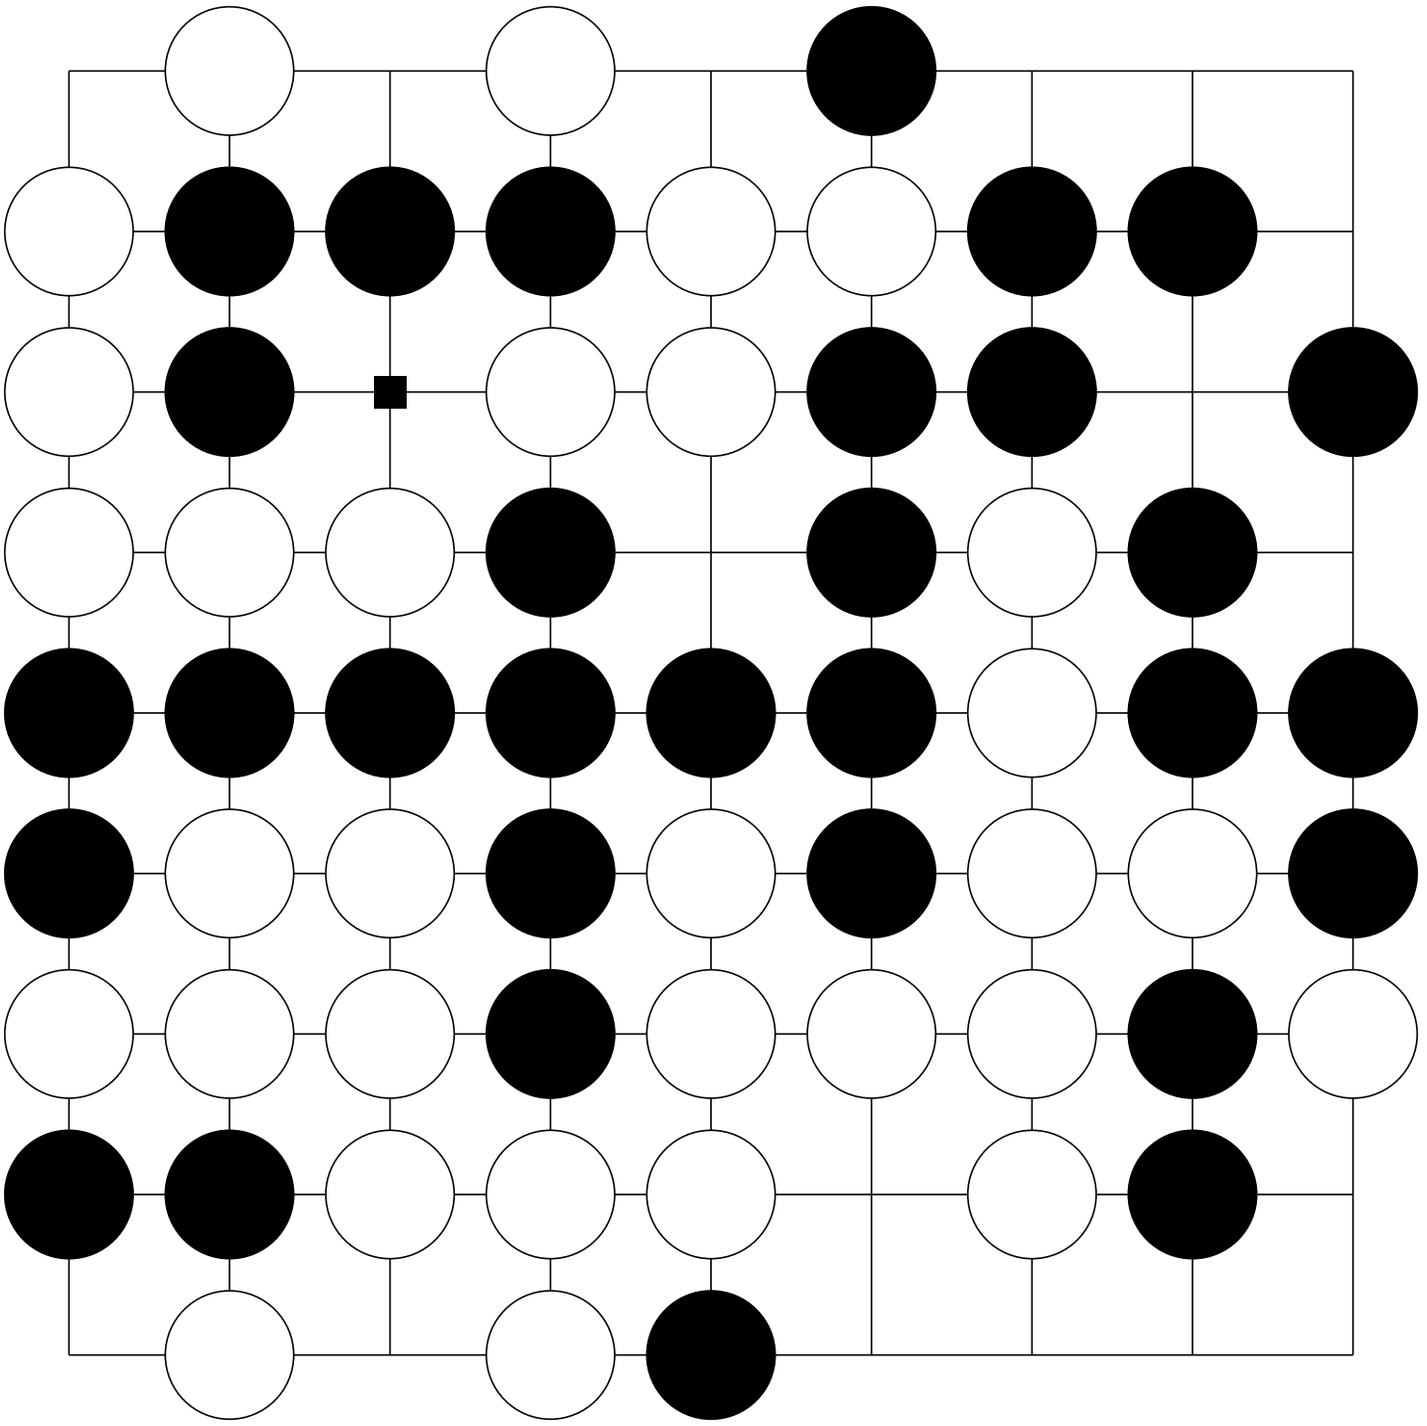
End-game move



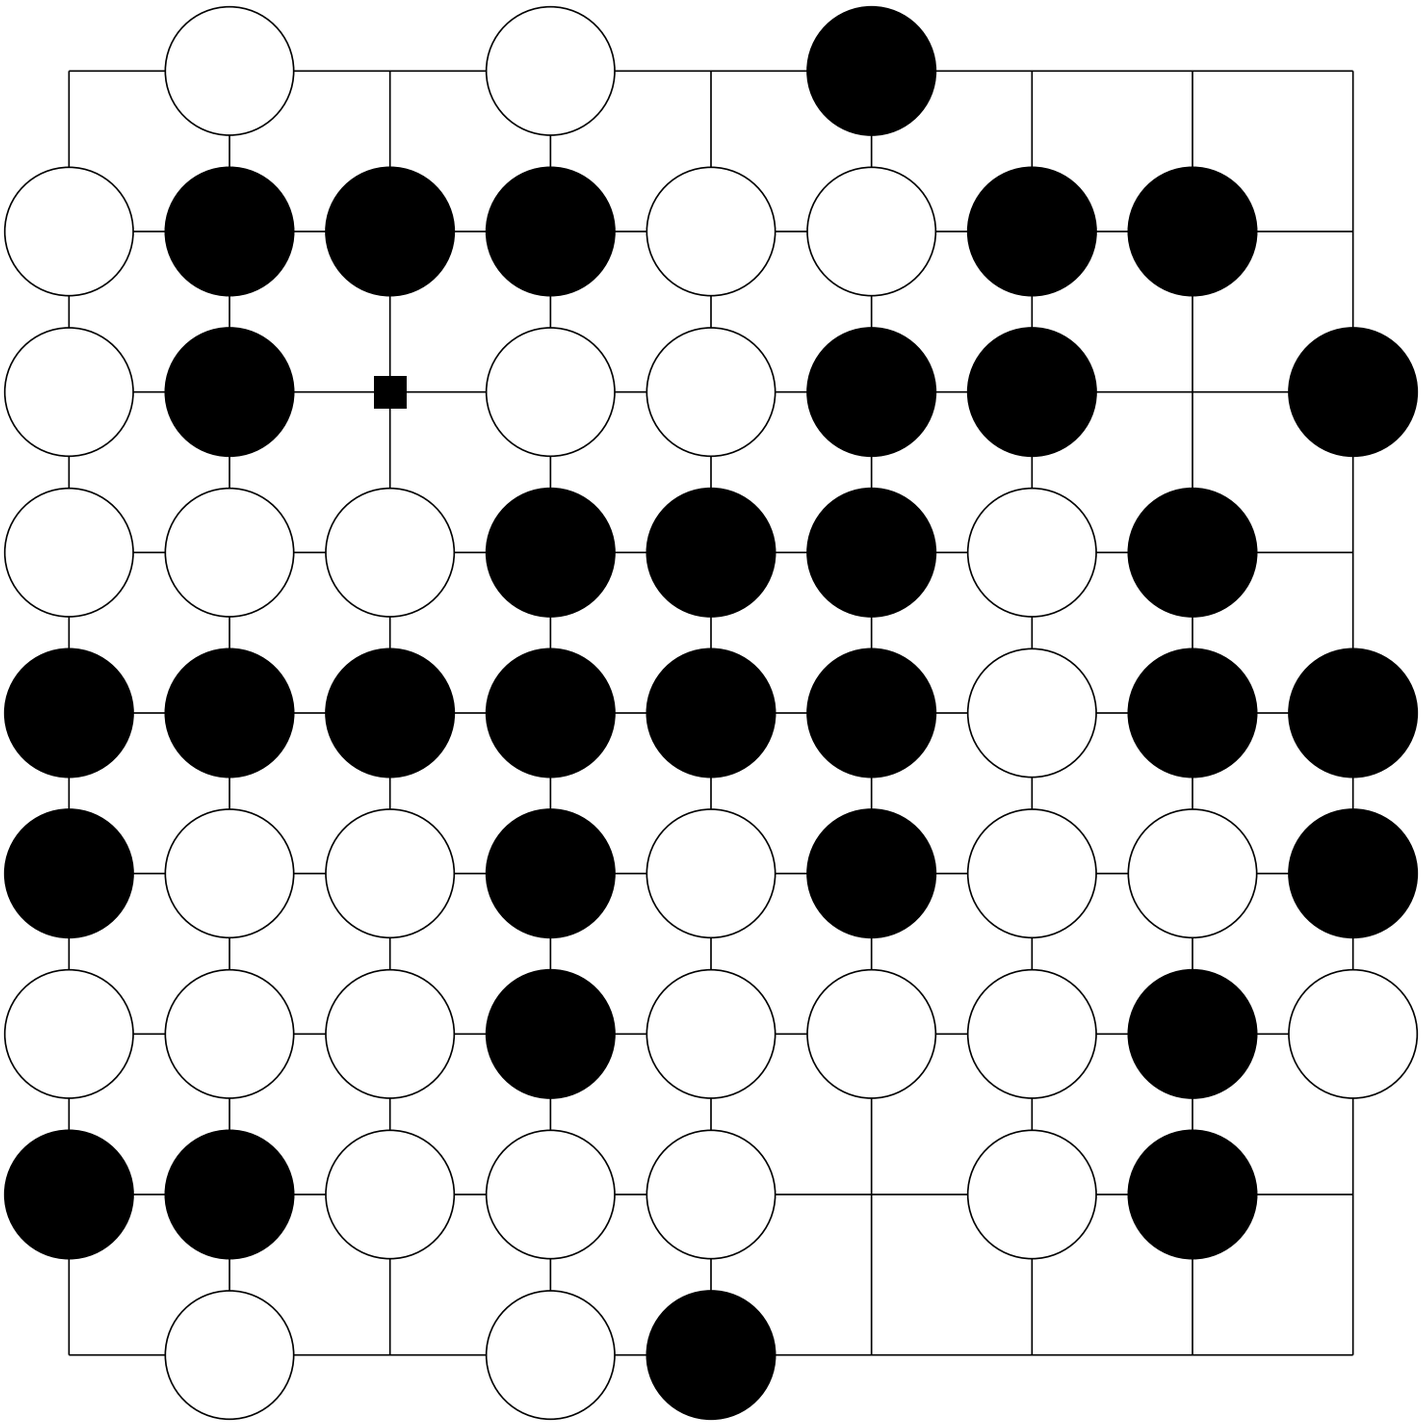




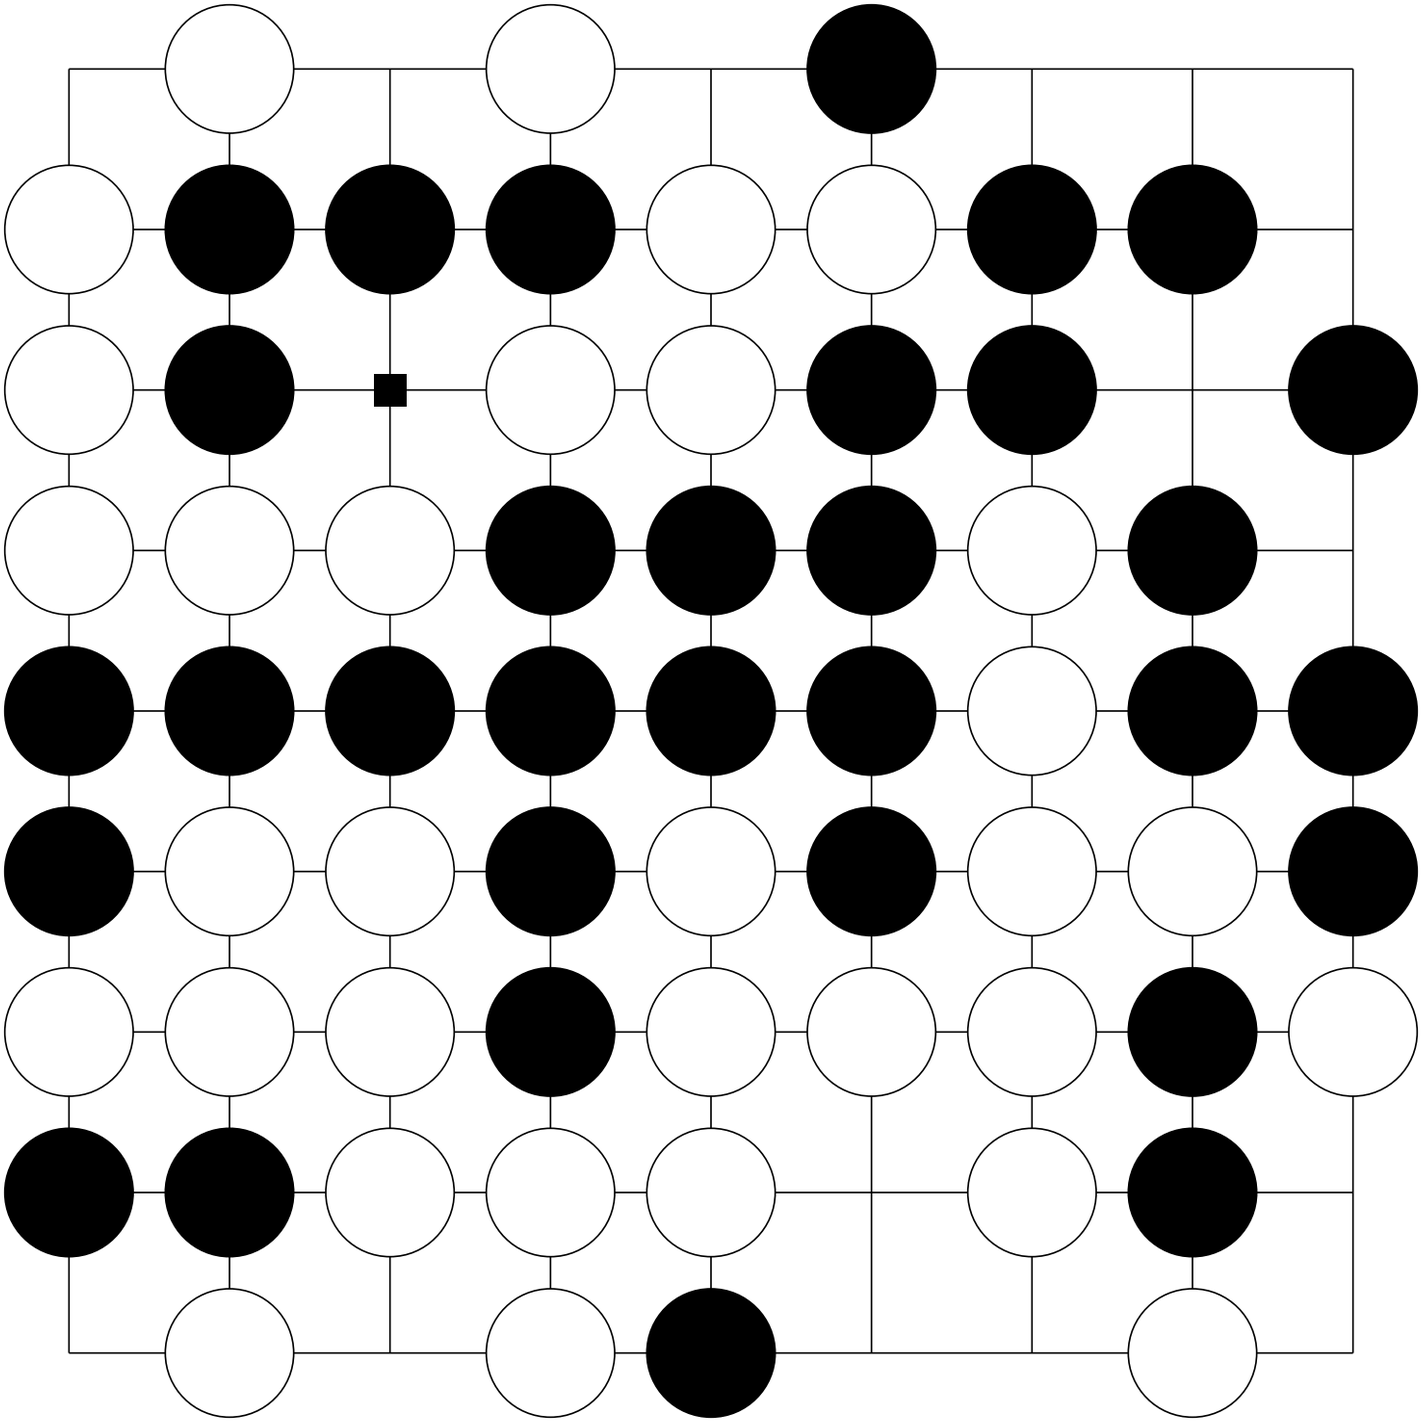


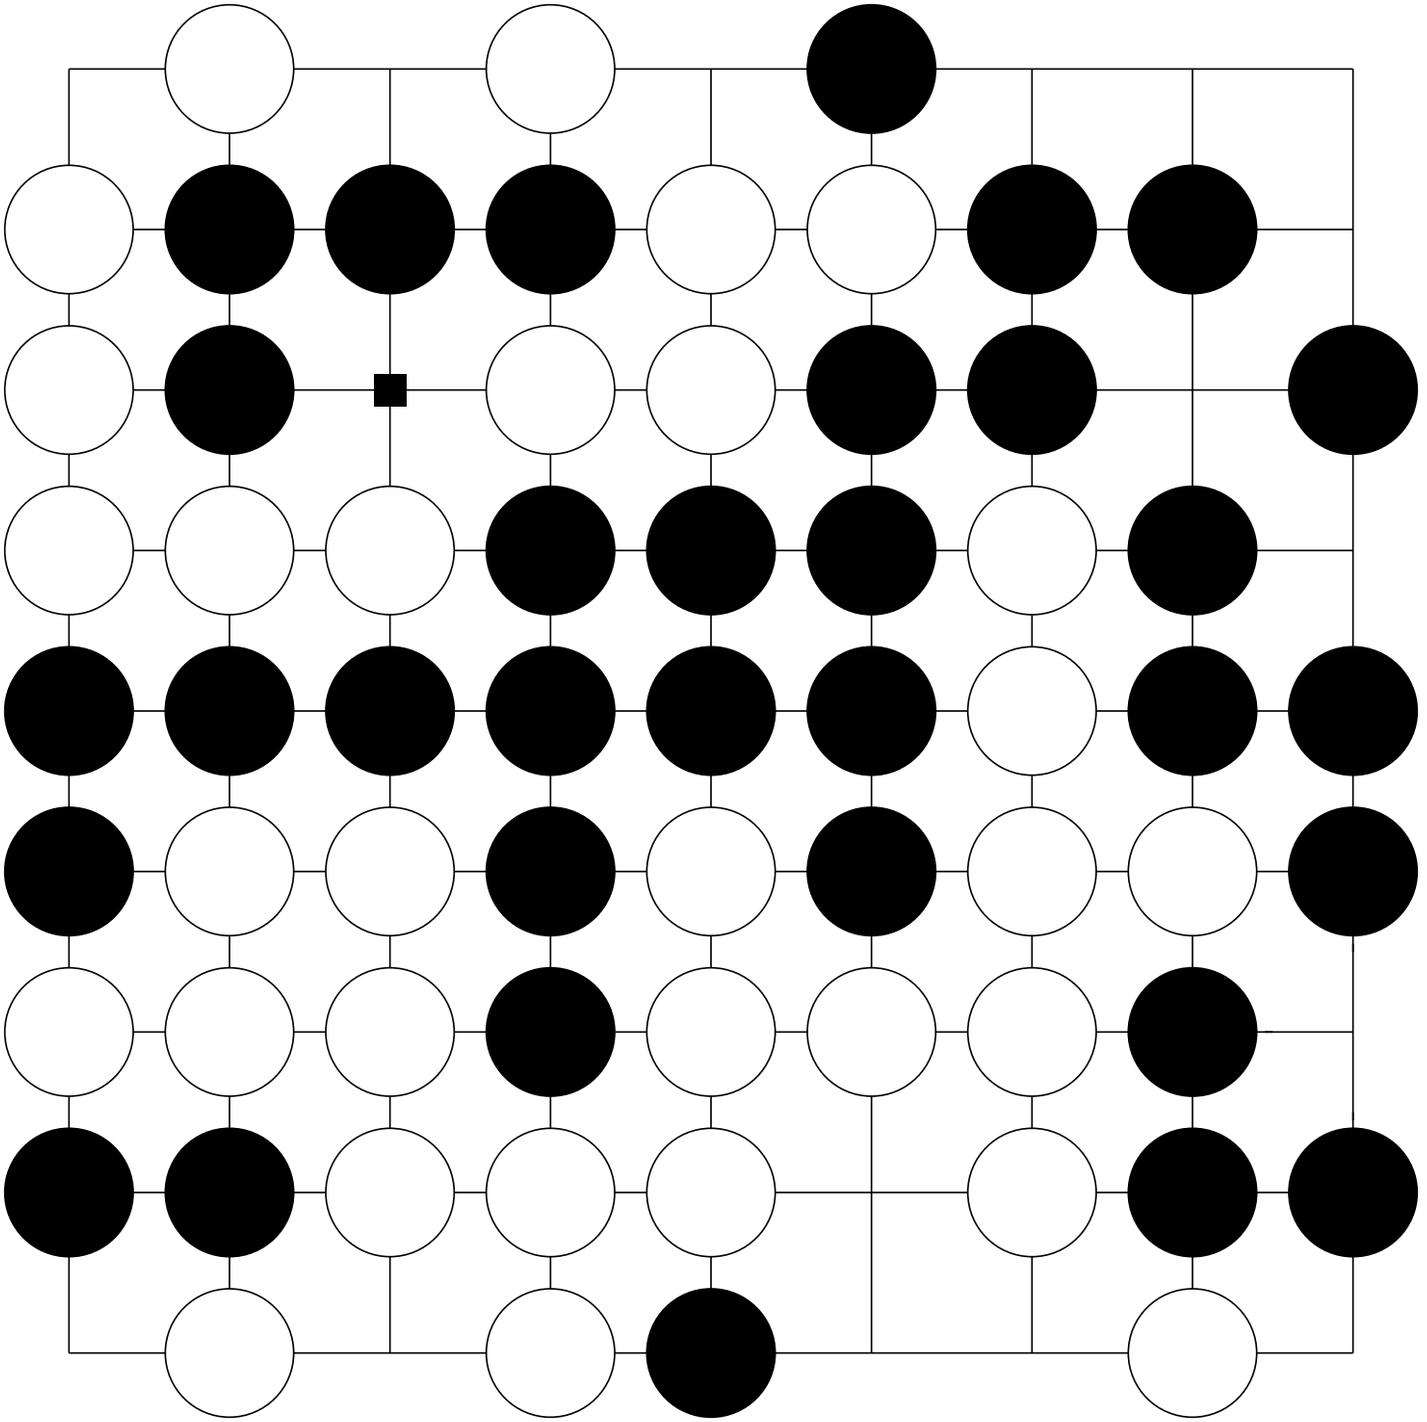


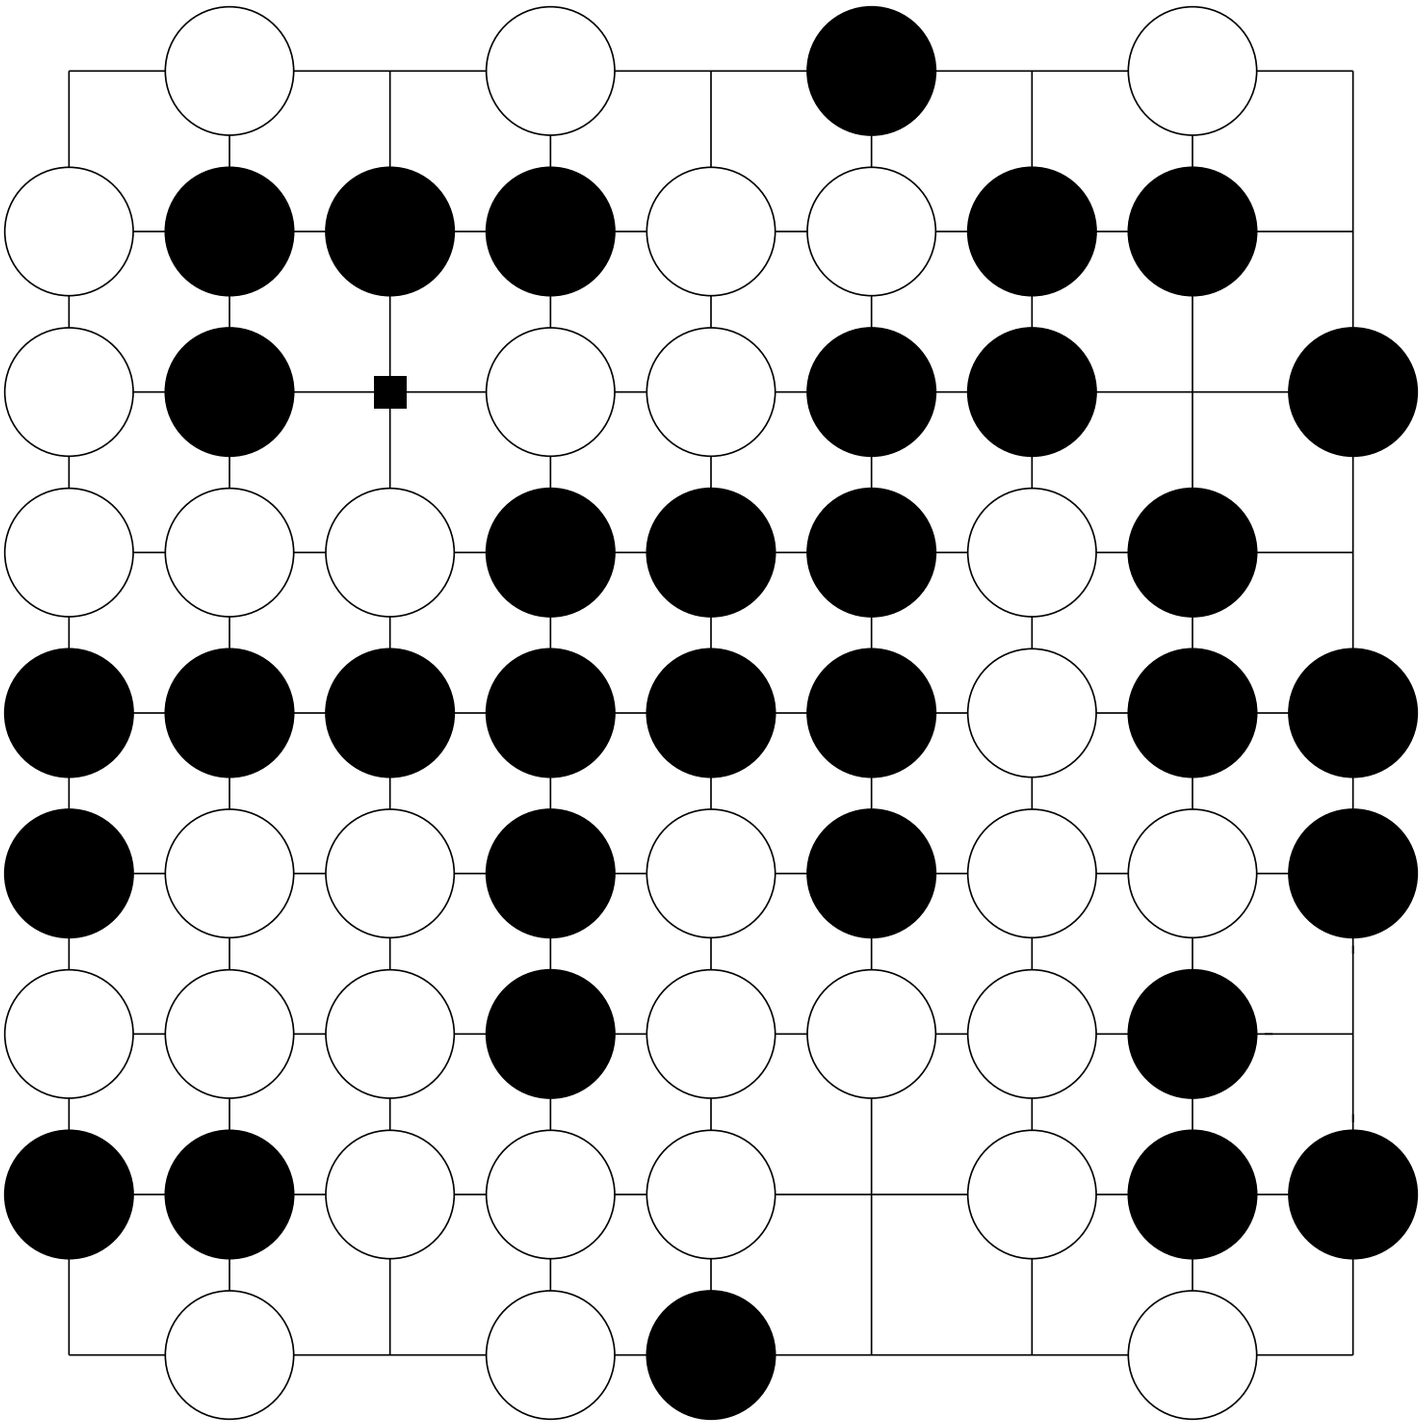
Silly move it seems now



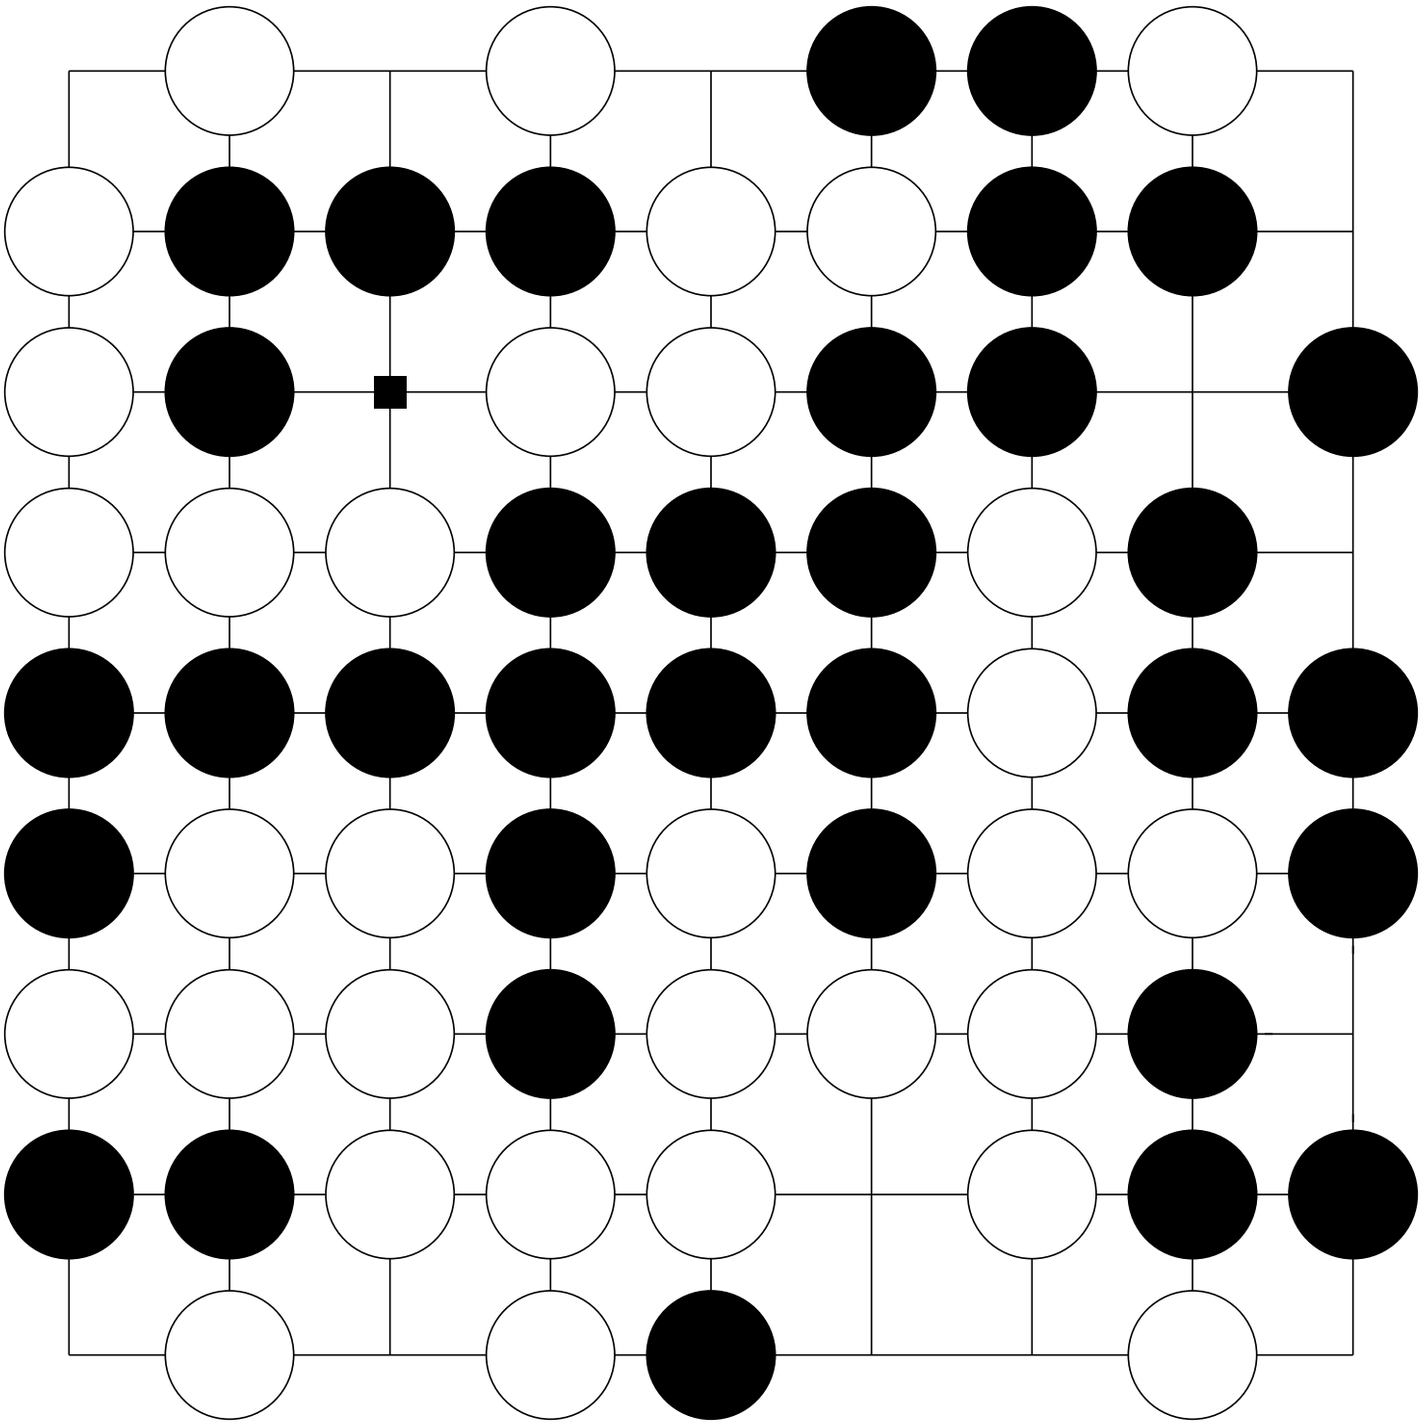
End-game move

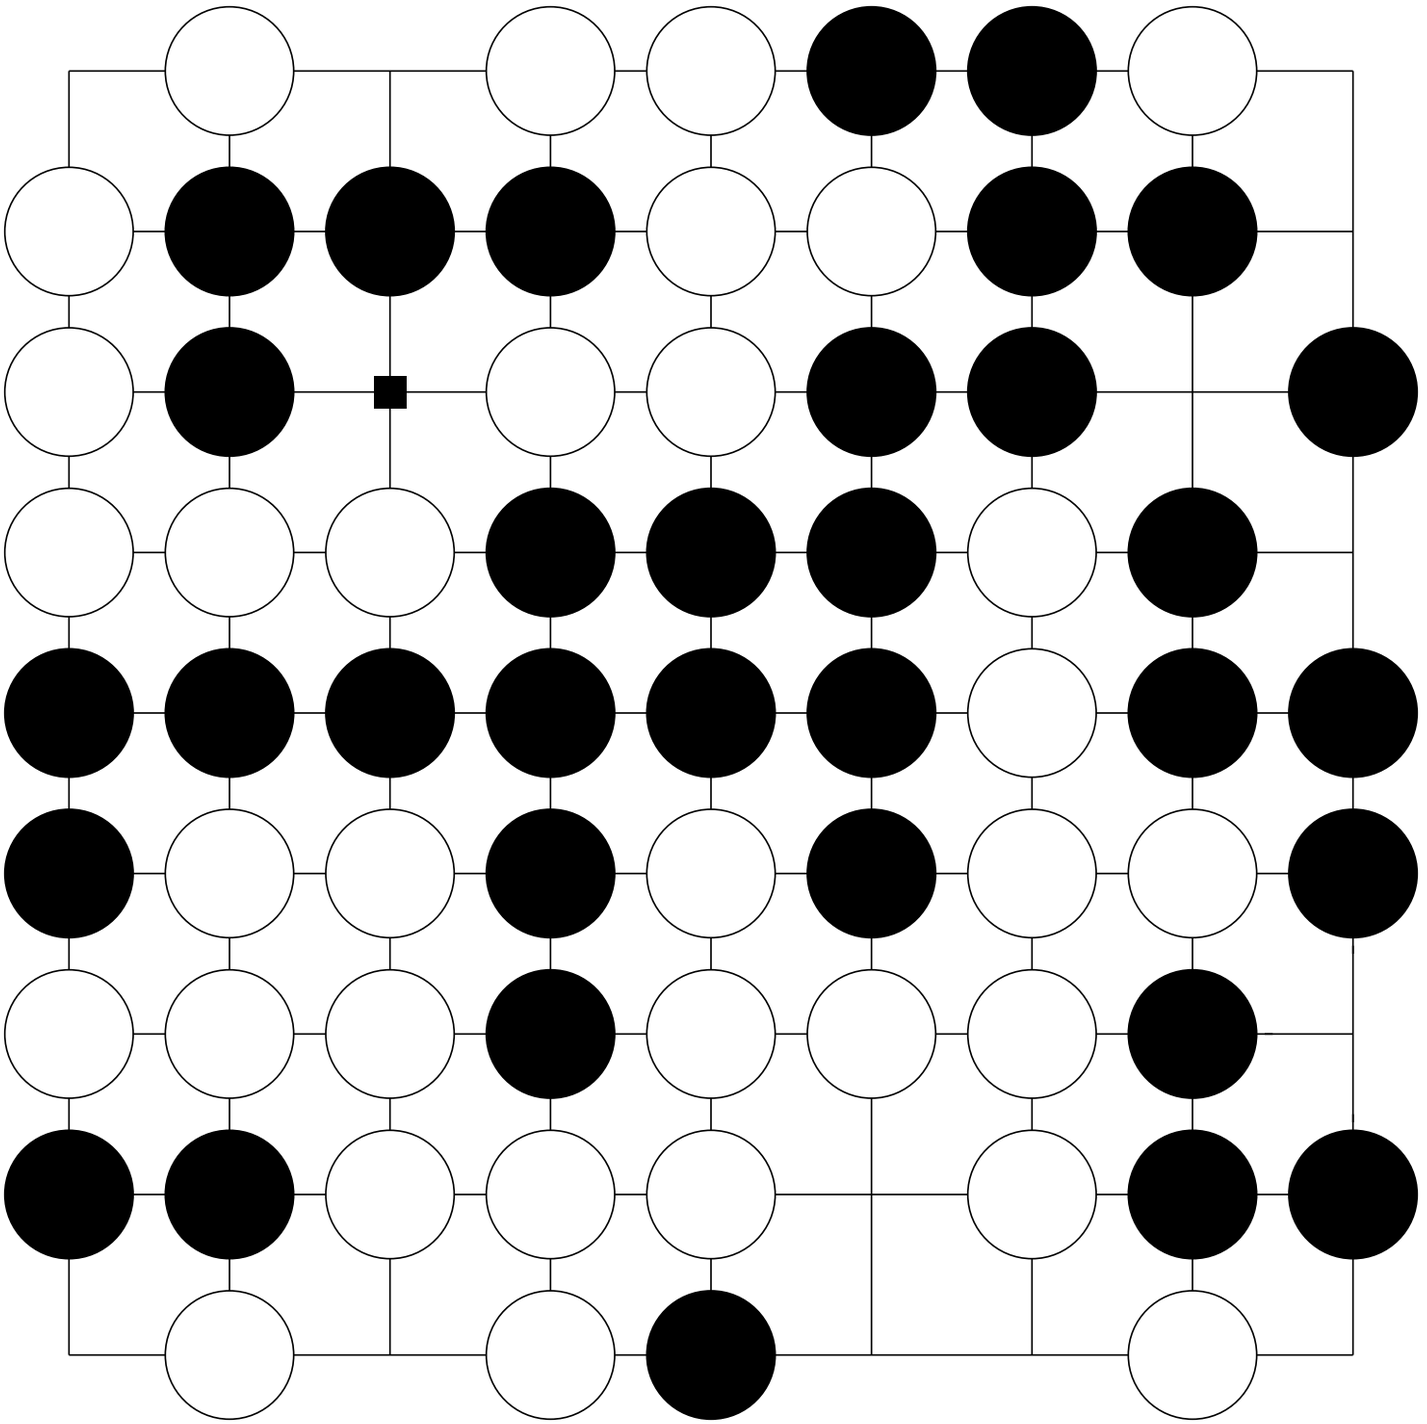


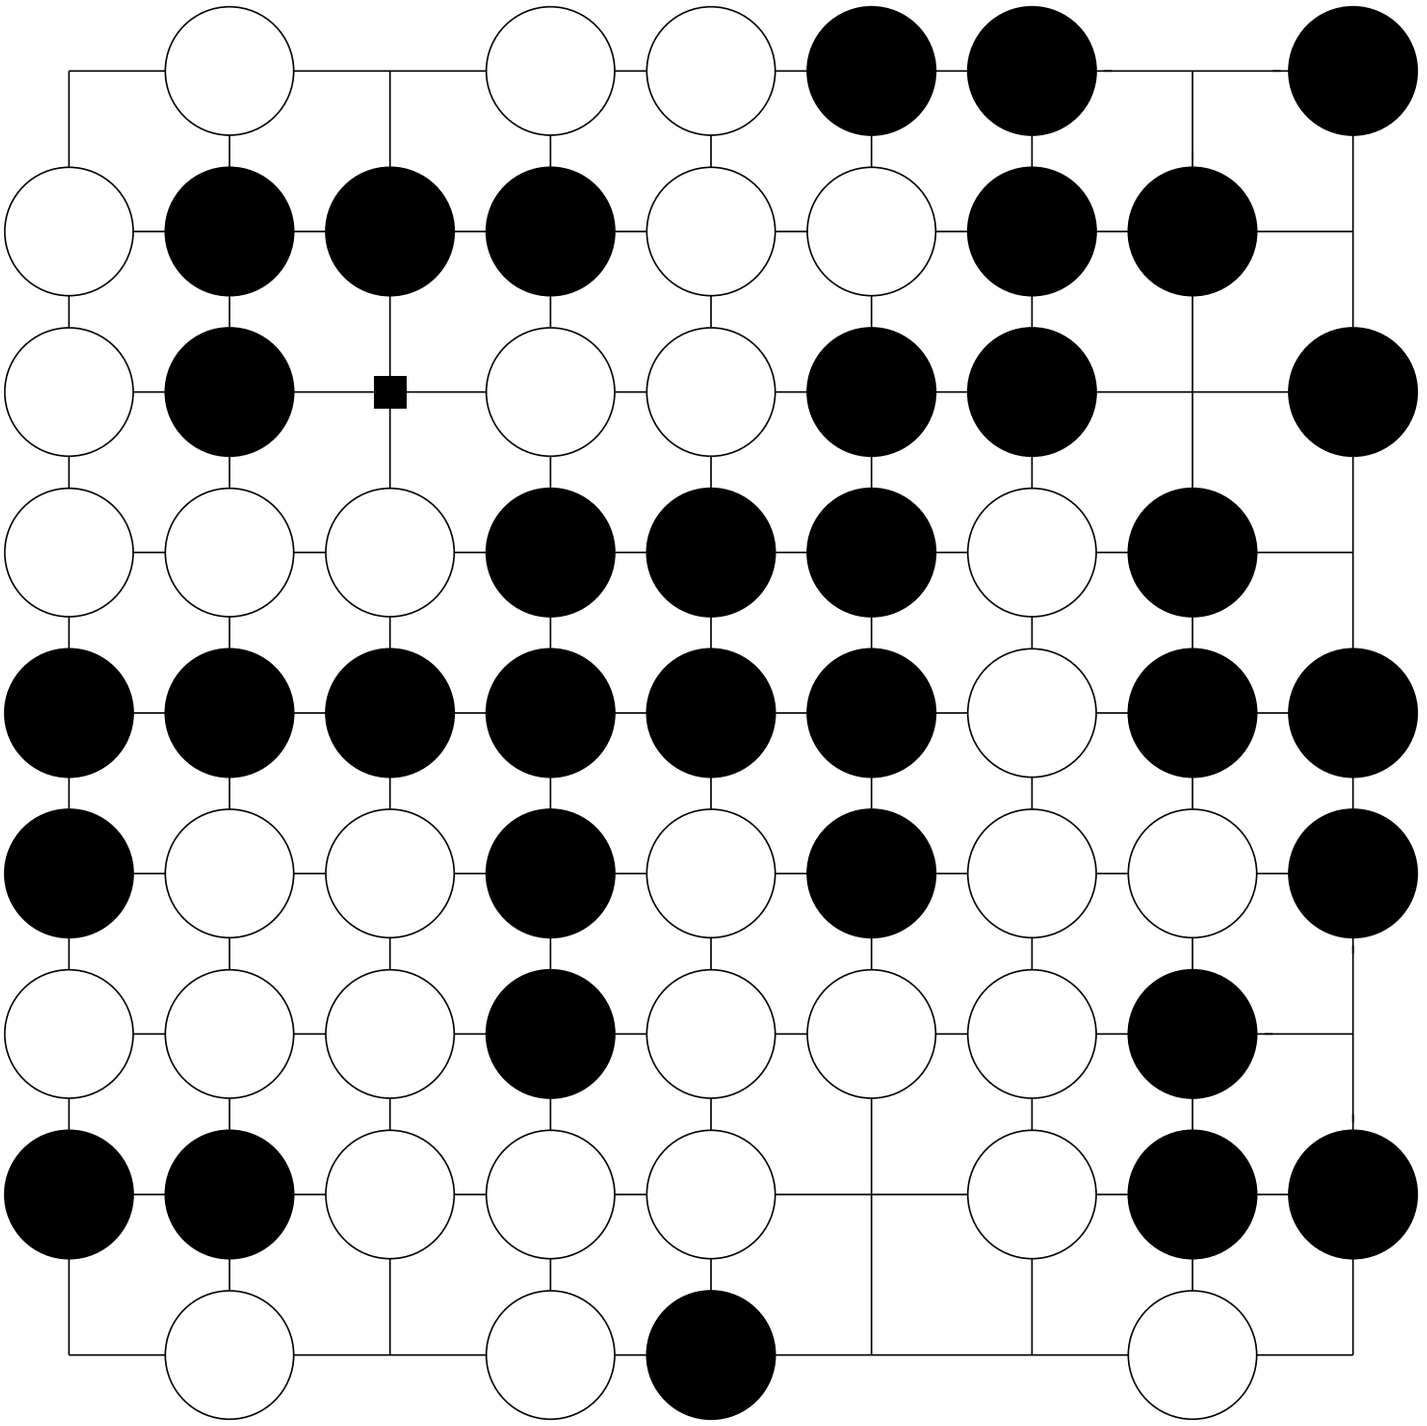




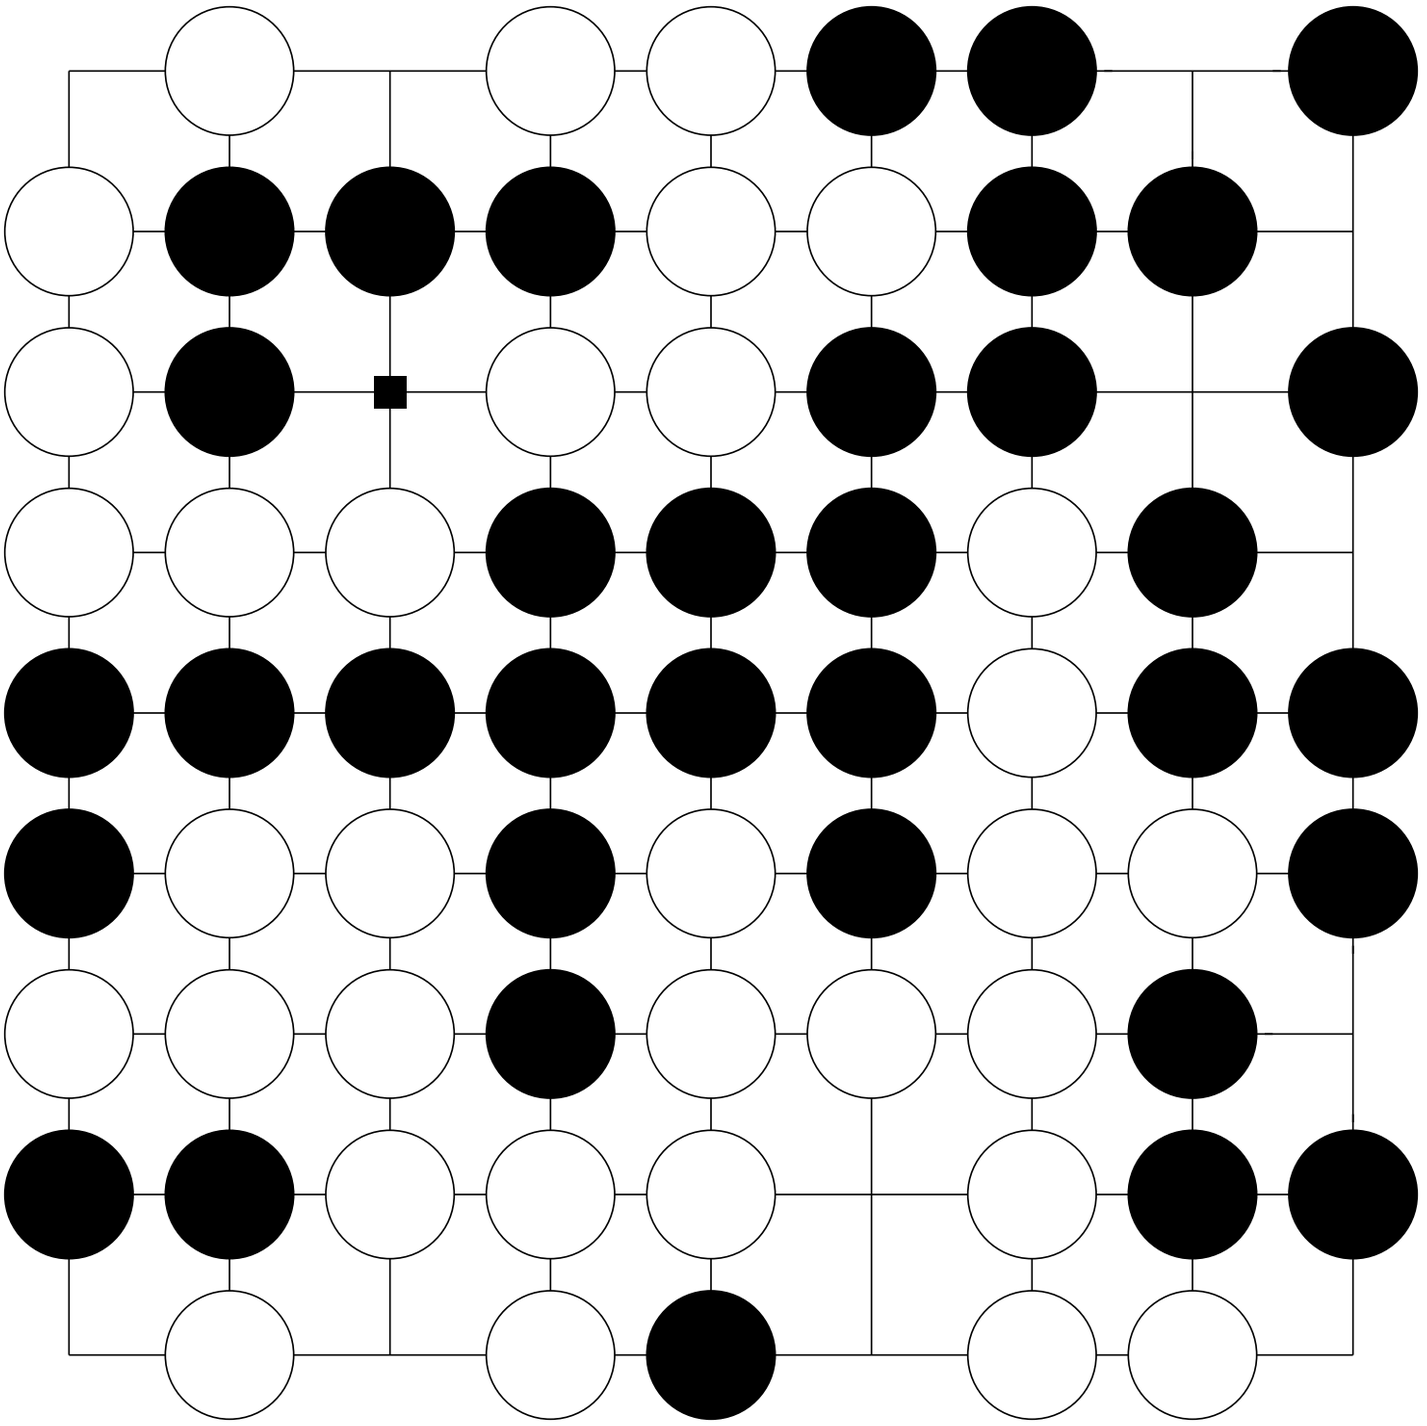
Lets try it



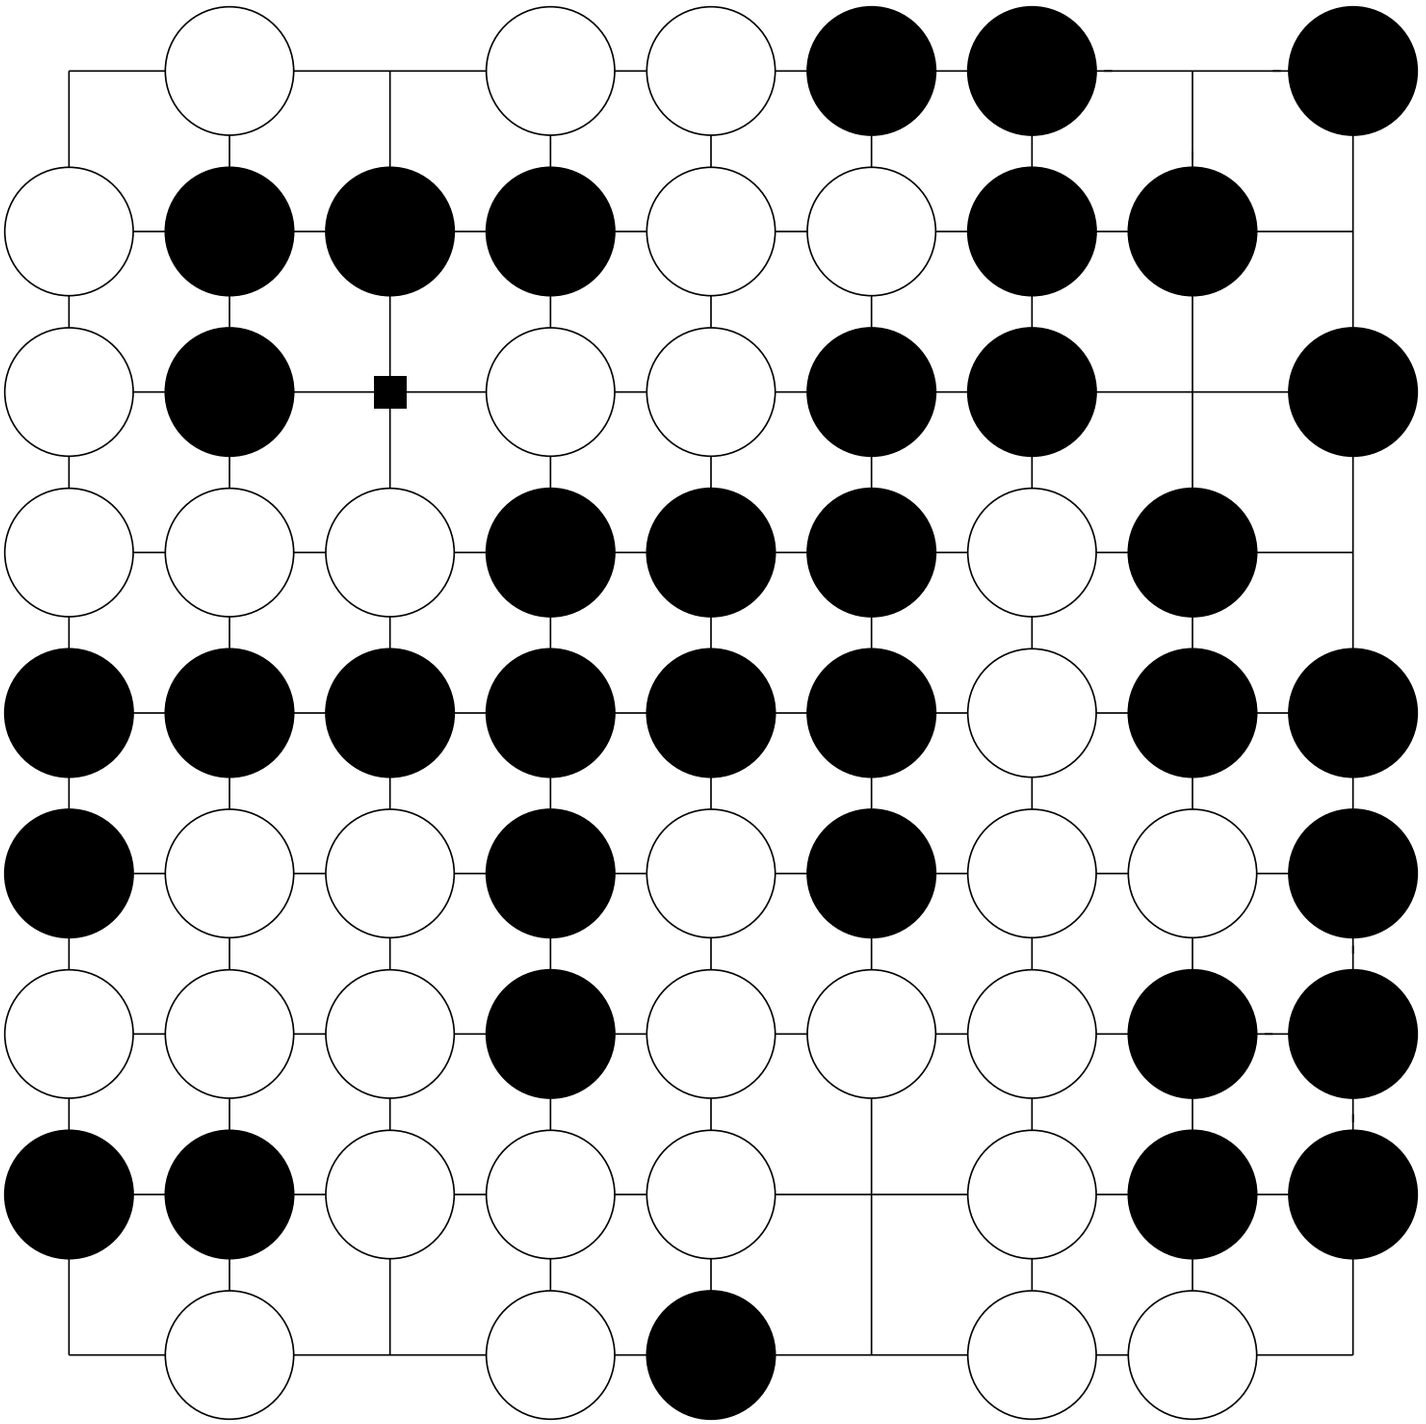


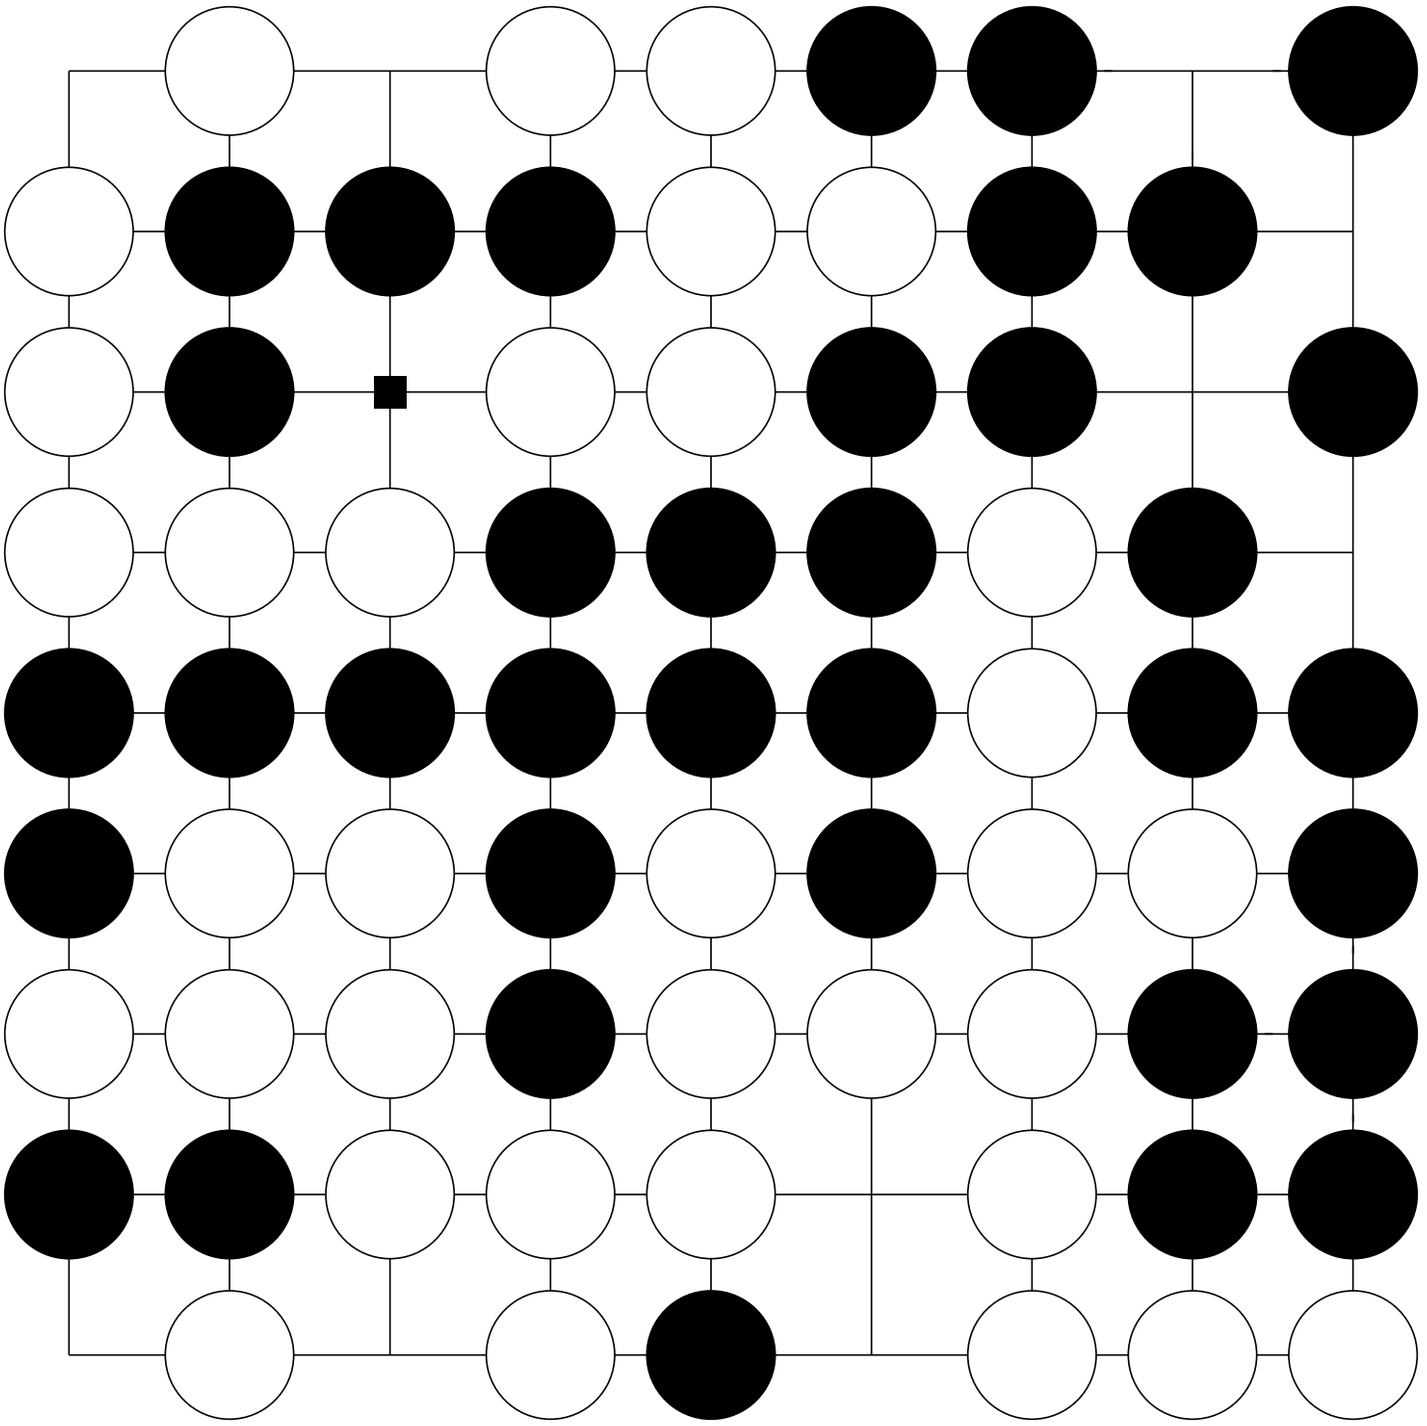


Useless of course

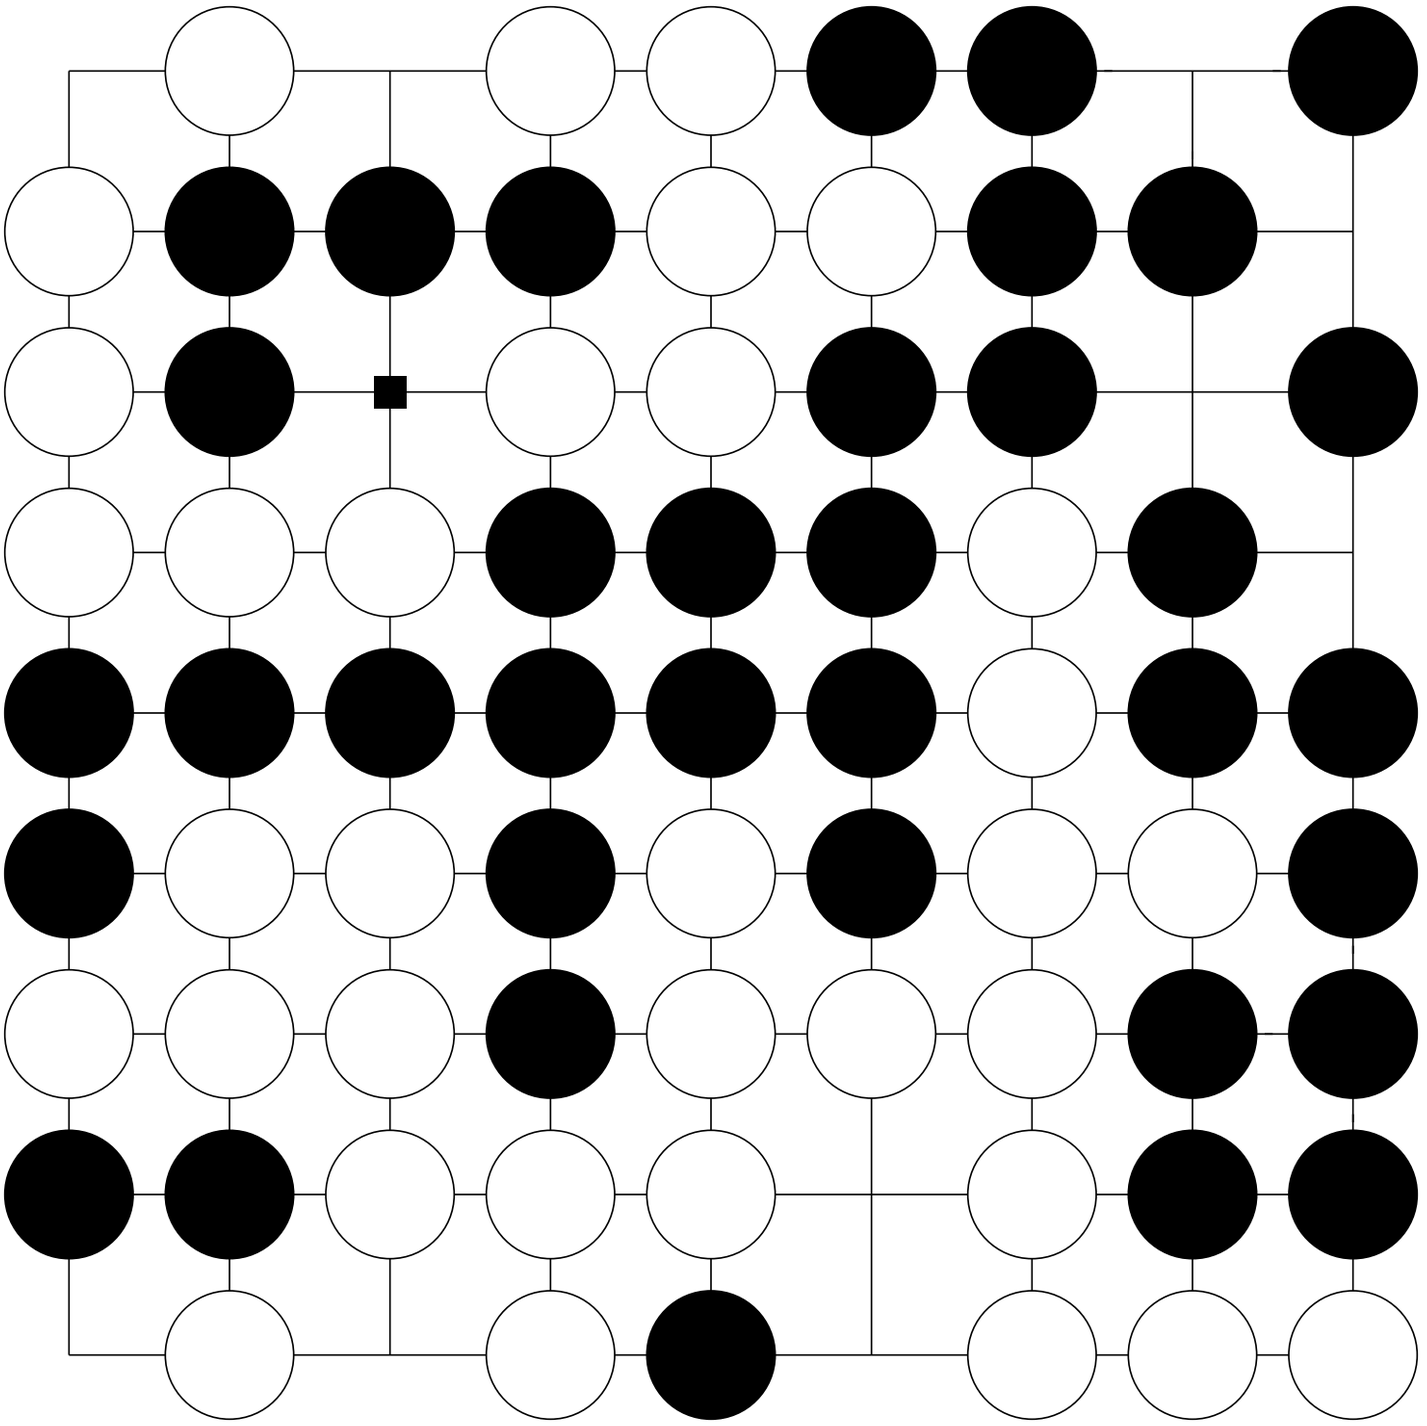


Another corner again

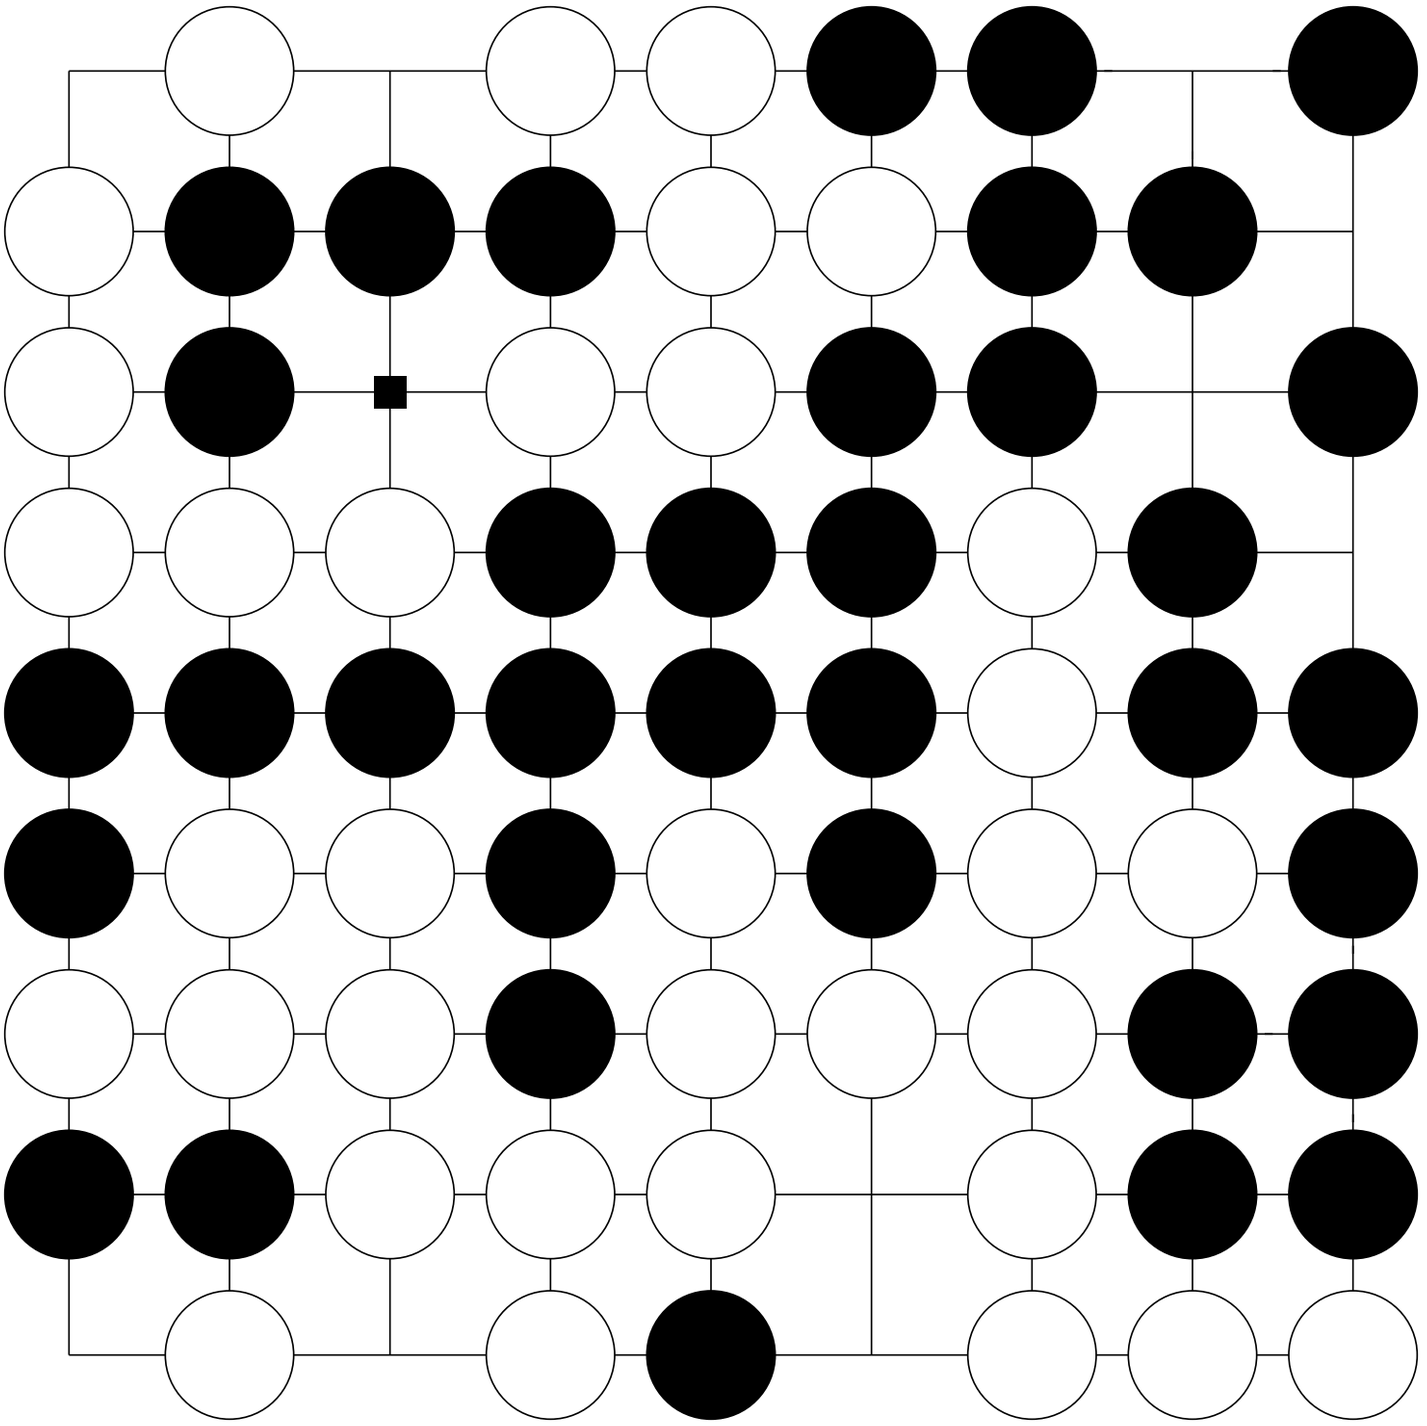




Last move



pass



pass
